Skill: Conceptual

6) Which of the following statements regarding limited partnerships is TRUE?

- A) There is no limit on a limited partner's liability.
- B) A limited partner's liability is limited by the amount of their investment.
- C) A limited partner is not liable until all the assets of the general partners have been exhausted.
- D) A general partner's liability is limited by the amount of their investment.

Answer: B

Diff: 2

Section: 1.1 The Types of Firms

Skill: Conceptual

7) Which of the following is/are an advantage of incorporation?

- A) Access to capital markets
- B) Limited liability
- C) Unlimited life
- D) All of the above

Answer: D

Diff: 2

Section: 1.1 The Types of Firms

Skill: Conceptual

8) Which of the following statements is most correct?

- A) An advantage to incorporation is that it allows for less regulation of the business.
- B) An advantage of a corporation is that it is subject to double taxation.
- C) Unlike a partnership, a disadvantage of a corporation is that it has limited liability.
- D) Corporations face more regulations when compared to partnerships.

Answer: D

Diff: 2

Section: 1.1 The Types of Firms

Skill: Conceptual

- 9) A limited liability company is essentially:
A) a limited partnership without limited partners.
B) a limited partnership without a general partner.
C) just another name for a limited partnership.
D) just another name for a corporation.

Answer: D

Diff: 1

Section: 1.1 The Types of Firms

Skill: Conceptual

- 10) The distinguishing feature of a corporation is that:
A) there is no legal difference between the corporation and its owners.
B) it is a legally defined, artificial being, separate from its owners.
C) it spreads liability for its corporate obligations to all shareholders.
D) provides limited liability only to small shareholders.

Answer: B

Diff: 2

Section: 1.1 The Types of Firms

Skill: Conceptual

- 11) Which of the following are subject to double taxation?

- A) Corporation
B) Partnership
C) Sole proprietorship
D) A and B

Answer: A

Diff: 1

Section: 1.1 The Types of Firms

Skill: Conceptual

- 12) You own 100 shares in a corporation. The corporation earns \$5.00 per share before taxes. Once the corporation has paid any corporate taxes that are due, it will distribute the rest of its earnings to its shareholders in the form of a dividend. If the corporate tax rate is 40% and your personal tax rate on (both dividend and non-dividend) income is 30%, then how much money is left for you after all taxes have been paid?

- A) \$210
B) \$300
C) \$350
D) \$500

Answer: A

Explanation: $A) \text{EPS} \times \text{number of shares} \times (1 - \text{Corporate Tax Rate}) \times (1 - \text{Individual Tax Rate})$
 $\$5.00 \text{ per share} \times 100 \text{ shares} \times (1 - .40) \times (1 - .30) = \210

Diff: 2

Section: 1.1 The Types of Firms

Skill: Analytical

13) You own 100 shares of a Sub Chapter "S" corporation in the U.S.. The corporation earns \$5.00 per share before taxes. Once the corporation has paid any corporate taxes that are due, it will distribute the rest of its earnings to its shareholders in the form of a dividend. If the corporate tax rate is 40% and your personal tax rate on (both dividend and non-dividend) income is 30%, then how much money is left for you after all taxes have been paid?

- A) \$210
- B) \$300
- C) \$350
- D) \$500

Answer: C

Explanation: C) $\text{EPS} \times \text{number of shares} \times (1 - \text{Individual Tax Rate})$

$\$5.00 \text{ per share} \times 100 \text{ shares} \times (1 - .30) = \350

Diff: 2

Section: 1.1 The Types of Firms

Skill: Analytical

14) You are a shareholder in a corporation. This corporation earns \$4 per share before taxes. After it has paid taxes, it will distribute the remainder of its earnings to you as a dividend. The dividend is income to you, so you will then pay taxes on these earnings. The corporate tax rate is 35% and your tax rate on dividend income is 15%. The effective tax rate on your share of the corporation's earnings is closest to:

- A) 15%
- B) 35%
- C) 45%
- D) 50%

Answer: C

Explanation: C) First the corporation pays taxes. It earned \$4 per share, but must pay $\$4 \times .35 = \1.40 to the government in corporate taxes. That leaves $\$4.00 - \$1.40 = \$2.60$ to distribute to the shareholders. However, the shareholder must pay $\$2.60 \times .15 = \0.39 in income taxes on this amount, leaving only \$2.21 to the shareholder after all taxes are paid. The total amount paid in taxes is $\$1.40 + \$0.39 = \$1.79$. The effective tax rate is then $\$1.79 \div \$4 = .4475$ or 44.75% which is closest to 45%.

Skill: Definition

8) You overhear your manager saying that she plans to book an Ocean-view room on her upcoming trip to Miami for a meeting. You know that the interior rooms are much less expensive, but that your manager is traveling at the Company's expense. This use of additional funds comes about as a result of:

- A) an agency problem.
- B) an adverse selection problem.
- C) a moral hazard.
- D) a publicity problem.

Answer: A

Diff: 1

Section: 1.2 Ownership Versus Control of Corporations

Skill: Definition

9) An agency problem can be alleviated by:

- A) requiring all firms to be sole proprietorships.
- B) compensating managers in such a way that acting in the best interest of shareholders is also in the best interest of managers.
- C) asking managers to take on more risk than they are comfortable taking.
- D) A and B.

Answer: D

Diff: 1

Section: 1.2 Ownership Versus Control of Corporations

Skill: Definition

10) Do corporate decisions that increase the value of the firm's equity benefit society as a whole?

- A) Yes, as long as the value of the firm's equity increases, society is better off.
- B) Yes, as long as the increase in the value of the firm's equity does not come at the expense of others.
- C) No, any gain in the value of the firm's equity is always less than the cost to society.
- D) No, any gains in the value of the firm's equity are perfectly offset by societal costs.

Answer: B

Diff: 1

Section: 1.2 Ownership Versus Control of Corporations

Skill: Conceptual

11) What strategies are available to shareholders to help ensure that managers are motivated to act in the interest of the shareholders rather than their own interest?

Answer:

1. The threat of a hostile takeover
2. Shareholder initiatives
3. Performance based compensation

1.3 The Stock Market

Use the table for the question(s) below.

Consider the following two quotes for XYZ shares:

November 11th	November 18th
Ask: 25.25	Ask: 26.00
Bid: 25.20	Bid: 25.93

1) How much would you have to pay to purchase 100 XYZ shares on November 18th?

- A) \$2520
- B) \$2525
- C) \$2593
- D) \$2600

Answer: D

Explanation: D) $100 \text{ shares} \times \$26.00 \text{ (ask price)} = \2600

Skill: Definition

8) If you buy shares of Coca-Cola on the secondary market:

- A) Coca-Cola receives the money because the company has issued new shares.
- B) you buy the shares from another investor who decided to sell the shares.
- C) you buy the shares from a Stock Exchange.
- D) you buy the shares from the government.

Answer: B

Diff: 1

Section: 1.3 The Stock Market

Skill: Definition

Use the table for the question(s) below.

Consider the following two quotes for XYZ shares:

November 11th	November 18th
Ask: 25.25	Ask: 26.00
Bid: 25.20	Bid: 25.93

9) What are your net proceeds if you purchased 2500 shares of XYZ stock on November 11th and then sold them a week later on November 18th?

Answer: buy at ask price $11/11 = 2500 \times \$25.25 = \$63,125$

sell at bid price $11/18 = 2500 \times \$25.93 = \$64,825$

now subtract the price paid for the shares

so net proceeds = $64,825 - 63,125 = \$1,700$
