- B) do not cite either. This is true because the rules of professional conduct are just "rules," not law.

- C) do not cite either. This is true because the rules of professional conduct are just "rules," not law.

Ava hires a freelance paralegal (Madison) to contact all of Ava's clients and walk them through the process of updating their by laws, giving notice of the meeting, taking meeting minutes, and getting all of the correct signatures on all of the documents. Ava is concerned about Madison committing UPL by speaking on the phone with clients and answering their questions. What should Ava and Madison do?

 - C) Abigail violates the law when she calls her paralegal an "associate" because most members of the public understand "associate" to mean "lawyer."
