SHORT ANSWER

1. Use this journal entry to answer the following question.

Nov.	16	Accounts Payable	685	
		Cash		685
		Recorded payment of a liability		

Explain how the above journal entry relates to the measurement issues of (a) recognition, (b) valuation, and (c) classification.

ANS:

- a. The transaction occurred and was recognized on November 16.
- b. A valuation of \$685 was placed on the transaction.
- c. The accounts involved were determined to be (classified as) Accounts Payable and Cash.

PTS: 1 OBJ: LO1 NAT: AACSB correlation: analytic

LOC: Learning type: Comprehension KEY: measurement issues

2. Explain why the dollar amount of total stockholders' equity probably will not equal the dollar amount that would remain if all the assets were sold and all the liabilities were then settled.

ANS:

The valuation of assets on the balance sheet is based primarily on historical cost, not on liquidation value. The proceeds from the sale of assets most likely would differ from the amount originally paid.

PTS: 1 OBJ: LO1 NAT: AACSB correlation: analytic

LOC: Learning type: Critical Thinking KEY: effects of transactions on accounting equation

3. Amalgamated Campus Stores, Inc. (ACS) employed student representatives to market grooming aids, casual clothes, and other such products on college campuses. The representatives organized parties at which they displayed samples of all the products. Students who bought products paid the representative, who in turn ordered the products and paid ACS for them. When the products arrived, the student representatives delivered them to the buyers. The representatives paid ACS less than they charged the buyers. The difference represented the earnings of the representatives, who were not employees of ACS. Wall Street investors admired ACS because the company had enjoyed several years of rapid growth in sales and earnings.

Last year, the president of ACS predicted further increases in sales of 30 percent. By December, however, it was apparent that the forecasted sales goals would not be met. So during the last two weeks of December, ACS shipped \$23 million of merchandise to the sales representatives to be held for future sales parties. The company billed the student representatives and recorded the shipments as sales. In this way, ACS was able to meet its sales goal for the year.

Were these merchandise shipments properly recorded as sales?

ANS:

The shipments were improperly recorded as sales. The goods had not been ordered by or sold to actual customers, and the student representatives had the right to return all the products unconditionally. In this type of arrangement, to report shipments as legitimate sales is certainly unethical and can be, as in this case, illegal when the intent is to deceive. It may turn out that most of the \$23 million of products will be returned during January and February.

PTS: 1 OBJ: LO1 NAT: AACSB correlation: analytic

LOC: Learning type: Critical Thinking KEY: analyze transactions

4. Discuss the difference between business events that are transactions and those that are not. Why is the distinction important?

ANS:

Business events become transactions and are recorded when title passes from the seller to the buyer or, in the case of services, when the service is performed. The distinction is important because the recording of a transaction will have an effect on the financial position of the business.

20. What two purposes are served by using the Post. Ref. columns of a journal and ledger?

ANS:

The Post. Ref. columns provide cross-referencing between the journal and the ledger. That is, one can determine from what journal page an item was posted and to which account it was posted in the ledger. One also can more easily determine (by use of the Post. Ref. column) the last account posted from the journal.

PTS: 1 OBJ: SO6 NAT: AACSB correlation: analytic LOC: Learning type: Comprehension KEY: post entries and prepare trial balance

21. Briefly explain the difference between Unearned Art Fees and Art Fees Earned.

ANS:

Unearned Art Fees appears on the balance sheet as a liability, and represents an obligation to earn the payment that was received in advance. Art Fees Earned appears on the income statement as revenue, based on services rendered or goods delivered.

PTS: 1 OBJ: SO6 NAT: AACSB correlation: analytic

LOC: Learning type: Comprehension KEY: accounts liabilities

- 22. Use the following descriptive phrases to determine the account name that would be used for each. In addition, classify the account as an asset (A), liability (L), stockholders' equity (SE), revenue (R), or expense (E).
 - a. Amount due to creditor for merchandise purchased
 - b. Coins and currency
 - c. Property to be used in the business
 - d. An amount paid to stockholders resulting from profits
 - e. Income recorded for performance of legal services
 - f. Amount due to bank for loan to purchase building
 - g. Stationery, pencils, etc., purchased but not yet used
 - h. Stationery, pencils, etc., that have been consumed (used)
 - i. An insurance premium paid covering the next two years
 - j. Representation of stockholders' investments in a business

ANS:

- a. Accounts Payable (L)
- b. Cash (A)
- c. Land (A)
- d. Dividends (SE)
- e. Legal Fees Earned (R)
- f. Mortgage Payable (L)
- g. Office Supplies (A)
- h. Office Supplies Expense (E)
- i. Prepaid Insurance (A)
- j. Common Stock (SE)

PTS: 1 OBJ: SO6 NAT: AACSB correlation: analytic

LOC: Learning type: Application KEY: accounts

23. Briefly discuss the differences between Prepaid Insurance and Insurance Expense.

Prepaid Insurance appears on the balance sheet as an asset and represents unexpired insurance coverage. Insurance Expense appears on the income statement and represents insurance that has expired.

PTS: 1 OBJ: SO6 NAT: AACSB correlation: analytic

LOC: Learning type: Comprehension KEY: assets| balance sheet| income statement

- 24. Using the following transactions, calculate (a) the ending balance of Cash, (b) the ending balance of Accounts Receivable, (c) total liabilities, and (d) net income for the period.
 - a. Opened business by issuing common stock for \$20,000.
 - b. Billed customers for services rendered, \$4,000.
 - c. Paid for six months' subscription in advance, \$1,000.
 - d. Received advertising bill, to be paid next week, \$200.
 - e. Dividends of \$1,600 were declared and paid.
 - f. Received \$3,000 from customers billed in b.
 - g. Paid half of advertising bill.
 - h. Received \$400 in advance of performing a service.

ANS:

- a. \$20,700 debit (\$20,000 + \$3,000 + \$400 \$1,000 \$1,600 \$100)
- b. \$1,00 debit (\$4,000 \$3,000)
- c. \$500 (\$200 + \$400 \$100)
- d. \$3,800 (\$4,000 \$200)
