

Chapter 02 - Review of Accounting

Chapter 02
Review of Accounting

True / False Questions

1. The income statement is the major device for measuring the profitability of a firm over a period of time.

True False

2. The income statement measures the increase in the assets of a firm over a period of time.

True False

3. Sales minus cost of goods sold is equal to earnings before taxes.

True False

4. Sales minus cost of goods sold is equal to gross profit.

True False

5. It is not possible for a company with a high profit margin to have a low operating profit.

True False

6. Operating profit is essentially a measure of how efficient management is in generating revenues and controlling expenses.

True False

7. Dividing Operating Profit by Shares Outstanding produces Earnings per Share.

True False

8. Accounting income is based on verifiably completed transactions.

True False

9. The P/E ratio is strongly related to the past performance of the firm.

True False

10. When a firm has a sharp drop off in earnings, its P/E ratio may be artificially high.

True False

11. The P/E ratio provides no indication of investors' expectations about the future of a company.

True False

12. The real value of a firm is the same from an economic and accounting perspective.

True False

13. A balance sheet represents the assets, liabilities, and owner's equity of a company at a given point in time.

True False

14. The investments account includes marketable securities.

True False

15. The investments account represents a commitment of funds of at least one year or more.

True False

16. Asset accounts are listed in order of their liquidity.

True False

17. Accumulated depreciation shows up in the income statement.

True False

18. Accumulated depreciation should always be equal to the depreciation expense charged in the income statement.

True False

19. Total assets of a firm are financed with liabilities and stockholders equity.

True False

20. Marketable securities are temporary investments of excess cash and are valued at their original purchase price.

True False

21. Book value per share and market value per share are usually the same dollar amount.

True False

22. Book value per share is of greater concern to the financial manager than market value per share.

True False

23. Book value is equal to net worth.

True False

24. Equity is a measure of the monetary contributions that have been made directly or indirectly on behalf of the owners of the company.

True False

25. Stockholders' equity is equal to liabilities plus assets.

True False

26. Stockholders' equity is equal to assets minus liabilities.

True False

27. Stockholders' equity minus preferred stock is the same thing as what is sometimes called net worth or book value.

True False

28. Retained earnings shown on the balance sheet represents available cash on hand generated from prior year's earnings but not paid out in dividends.

True False

29. Preferred stock is excluded from stockholders equity because it does not have full voting rights.

True False

30. Retained earnings represent the firm's cumulative earnings since inception, minus dividends and other adjustments.

True False

31. Balance sheet items are usually adjusted for inflation.

True False

32. Cash flow consists of illiquid cash equivalents which are difficult to convert to cash within 90 days.

True False

33. The statement of cash flows helps measure how the changes in a balance sheet were financed between two time periods.

True False

34. Cash flow is equal to earnings before taxes minus depreciation.

True False

35. An increase in an asset represents a source of funds.

True False

36. Assume that two companies both have Net Income of \$100,000. The firm with the highest depreciation expense will have the highest cash flow, assuming all other adjustments are equal.

True False

37. An increase in inventory represents a source of funds.

True False

38. An increase in a liability account represents a source of funds on the cash flow statement.

True False

39. An increase in accounts receivable represents a reduction in cash flows from operations.

True False

40. An increase in accounts payable represents a reduction in cash flows from operations.

True False

41. The purchase of a new factory would reduce the cash flows from investing activities on the statement of cash flows.

True False

42. The sale of corporate bonds held by the firm as a long-term investment would increase cash flows from investing activities on the statement of cash flows.

True False

43. Paying dividends to common shareholders will not affect cash flows from financing activities.

True False

44. The sale of a firm's securities is a source of funds, whereas the payment of dividends is a use of funds.

True False

45. Depreciation is an accounting entry and does not involve a cash expense.

True False

46. The use of depreciation is an attempt to allocate the past and future costs of an asset over its useful life.

True False

47. Free cash flow is equal to cash flow from operating activities plus depreciation.

True False

48. Free cash flow is equal to cash flow from operating activities minus necessary capital expenditures and normal dividend payments.

True False

49. For corporations with low taxable income (less than \$100,000), the effective tax rate can be as much as 40%.

True False

50. Interest expense is deductible before taxes and therefore has an after-tax cost equal to the interest paid times $(1 - \text{tax rate})$.

True False

51. Federal corporate tax rates have changed four times since 1980.

True False

52. A \$125,000 credit sale could be a part of a firm's cash flow from operations if paid off within the firm's fiscal year.

True False

53. Preferred stock dividends are paid out before income taxes.

True False

54. Unlike sole proprietorships, corporations do not need to be concerned about individual tax rates in corporate decisions.

True False

55. Net working capital is the difference between current assets and current liabilities.

True False

56. Book value per share is the most important measure of value for a stockholder.

True False

57. An increase in accounts receivable results in a cash inflow on the statement of cash flows.

True False

58. A decrease in bonds payable results in a cash outflow on the statement of cash flows.

True False

59. An increase in accrued expenses results in a cash outflow on the statement of cash flows.

True False

60. A cash flow statement is correct if the net cash flow ties to the ending cash balance.

True False

Multiple Choice Questions

61. Which of the following is not one of the three basic financial statements?

- A. Income Statement
- B. Statement of Retained Earnings
- C. Statement of Cash Flows
- D. Balance Sheet

62. Gross profit is equal to

- A. sales minus cost of goods sold.
- B. sales minus (selling and administrative expenses).
- C. sales minus (cost of goods sold and selling and administrative expenses).
- D. sales minus (cost of goods sold and depreciation expense).

63. Which of the following is not subtracted out in arriving at operating income?

- A. Interest expense
- B. Cost of goods sold
- C. Depreciation
- D. Selling and administrative expense

64. Increasing interest expense will have what effect on EBIT?

- A. Increase it
- B. Decrease it
- C. No effect
- D. Not enough information to tell

65. The residual income of the firm belongs to

- A. creditors.
- B. preferred stockholders.
- C. common stockholders.
- D. bondholders.

66. Allen Lumber Company had earnings after taxes of \$750,000 in the year 2009 with 300,000 shares outstanding on December 31, 2009. On January 1, 2010, the firm issued 50,000 new shares. Because of the proceeds from these new shares and other operating improvements, 2010 earnings after taxes were 25 percent higher than in 2009. Earnings per share for the year 2010 were

- A. \$2.14
- B. \$2.68
- C. \$3.13
- D. None of these

67. Consider the following information for Ball Corp.

Selling and administrative expense	\$40,000
Depreciation expense	70,000
Sales	350,000
Interest expense	30,000
Cost of goods sold	110,000
Taxes	17,500

What is the Operating Profit for Ball Corp?

- A. \$71,450
- B. \$90,000
- C. \$130,000
- D. None of these

68. Candy Company had sales of \$320,000 and cost of goods sold of \$112,000. What is the gross profit margin (ratio of gross profit to sales)?

- A. 55%
- B. 65%
- C. 73.3%
- D. None of these

69. Density Farms, Inc. had sales of \$750,000, cost of goods sold of \$200,000, selling and administrative expense of \$70,000, and operating profit of \$150,000. What was the value of depreciation expense?

- A. \$150,000
- B. \$230,000
- C. \$330,000
- D. None of these

70. Elgin Battery Manufacturers had sales of \$1,000,000 in 2009 and their cost of goods sold represented 70 percent of sales. Selling and administrative expenses were 10 percent of sales. Depreciation expense was \$100,000 and interest expense for the year was \$10,000. The firm's tax rate is 30 percent. What is the dollar amount of taxes paid?

- A. \$30,000
- B. \$117,800
- C. \$27,000
- D. None of these

71. A firm has \$1,500,000 in its common stock account and \$1,000,000 in its paid-in capital account. The firm issued 100,000 shares of common stock. What was the original issue price if only one stock issue has ever been sold?

- A. \$35 per share
- B. \$25 per share
- C. \$15 per share
- D. Not enough information to tell

72. A firm has \$4,000,000 in its common stock account and \$10,000,000 in its paid-in capital account. The firm issued 1,000,000 shares of common stock. What is the par value of the common stock?

- A. \$40 per share
- B. \$10 per share
- C. \$4 per share
- D. \$14 per share

73. A firm with earnings per share of \$3 and a price-earnings ratio of 20 will have a stock price of

- A. \$60.00
- B. \$15.00
- C. \$6.67
- D. the market assigns a stock price independent of EPS and the P/E ratio.

74. Earnings per share is

- A. operating profit divided by number of shares outstanding.
- B. net income divided by number of shares outstanding.
- C. net income divided by stockholders' equity.
- D. net income minus preferred dividends divided by number of shares outstanding.

75. Reinvested funds from retained earnings theoretically belong to:

- A. bond holders.
- B. common stockholders.
- C. employees.
- D. all of these.

76. The firm's price-earnings (P/E) ratio is influenced by its

- A. capital structure.
- B. earnings volatility.
- C. sales, profit margins, and earnings.
- D. all of these.

77. When a firm's earnings are falling more rapidly than its stock price, its P/E ratio will:

- A. remain the same
- B. go up
- C. go down
- D. either go up or down

78. Which of the following factors do not influence the firm's P/E ratio?

- A. Past earnings.
- B. Shares outstanding.
- C. Volatility in performance.
- D. None of these.

79. Which of the following would not be classified as a current asset?

- A. Marketable securities
- B. Investments
- C. Prepaid expenses
- D. Inventory

80. An item which may be converted to cash within one year or one operating cycle of the firm is classified as a

- A. current liability.
- B. long-term asset.
- C. current asset.
- D. long-term liability.

81. Which of the following would not be included in the balance sheet investment account?

- A. Stocks of other corporations
- B. Long term government bonds
- C. Marketable securities
- D. Investments in other corporations

82. Asset accounts on the balance sheet are listed in the order of:

- A. liquidity.
- B. profitability.
- C. size.
- D. importance.

83. Which of the following is not a primary source of capital to the firm?

- A. Assets
- B. Common stock
- C. Preferred stock
- D. Bonds

84. How many of the following balance sheet items are classified as current?

Retained earnings
Accounts payable
Plant and equipment
Inventory
Common stock
Bonds payable
Accrued wages payable
Accounts receivable
Preferred stock

- A. 3 of these items are classified as current
- B. 4 of these items are classified as current
- C. 5 of these items are classified as current
- D. 6 of these items are classified as current

85. How many of the following items are found on the balance sheet, rather than the income statement?

- Accounts receivable
 - Retained earnings
 - Income tax expense
 - Accrued expenses
 - Cash
 - Selling and administrative expenses
 - Plant and equipment
 - Operating expense
 - Marketable securities
 - Interest expense
- A. 3 of these items are found on the balance sheet
B. 4 of these items are found on the balance sheet
C. 5 of these items are found on the balance sheet
D. 6 of these items are found on the balance sheet

86. How many of the following items are found on the income statement, rather than the balance sheet?

- Sales
 - Notes payable (6 months)
 - Bonds payable, maturity 2001
 - Common stock
 - Depreciation expense
 - Inventories
 - Capital in excess of par value
 - Net income (earnings after taxes)
 - Income tax payable
- A. 2 of these items are found on the income statement
B. 3 of these items are found on the income statement
C. 4 of these items are found on the income statement
D. 5 of these items are found on the income statement

87. Which account represents the cumulative earnings of the firm since its formation, minus dividends paid?

- A. Paid-in capital
- B. Common stock
- C. Retained earnings
- D. Accumulated depreciation

88. The major limitation of financial statements is

- A. in their complexity.
- B. in their lack of comparability.
- C. in their use of historical cost accounting.
- D. in their lack of detail.

89. Net worth is equal to stockholders' equity

- A. plus dividends.
- B. minus preferred stock.
- C. plus preferred stock.
- D. minus liabilities.

90. Book value is the same as

- A. stockholders' equity.
- B. fixed assets minus long-term debt.
- C. net worth.
- D. current assets minus current debt.

91. Total stockholders' equity consists of

- A. preferred stock and common stock.
- B. common stock and retained earnings.
- C. common stock and capital paid in excess of par.
- D. preferred stock, common stock, capital paid in excess of par and retained earnings.

92. The net worth of a firm

- A. is usually the same as the firm's market value.
- B. is based on current asset costs.
- C. is based on current liabilities.
- D. none of these.

93. The orientation of **book value per share** is _____, while the orientation of **market value per share** is _____.

- A. short term, long term
- B. future, historical
- C. historical, future
- D. long term, short term

94. The primary disadvantage of accrual accounting is that

- A. it does not match revenues and expenses in the period in which they are incurred.
- B. it does not appropriately measure accounting profit.
- C. it does not recognize accounts receivable.
- D. it does not adequately show the actual cash flow position of the firm.

95. The statement of cash flows does not include which of the following sections?

- A. Cash flows from operating activities
- B. Cash flows from sales activities
- C. Cash flows from investing activities
- D. Cash flows from financing activities

96. Which of the following is an outflow of cash?

- A. Profitable operations
- B. The sale of equipment
- C. The sale of the company's common stock
- D. The payment of cash dividends

97. Which of the following is an inflow of cash?

- A. Funds spent in normal business operations
- B. The purchase of a new factory
- C. The sale of the firm's bonds
- D. The retirement of the firm's bonds

98. A statement of cash flows allows a financial analyst to determine

- A. whether a cash dividend is affordable.
- B. how increases in asset accounts have been financed.
- C. whether long-term assets are being financed with long-term or short-term financing.
- D. all of these.

99. Which of the following would represent a use of funds and, indirectly, a reduction in cash balances?

- A. An increase in inventories
- B. A decrease in marketable securities
- C. An increase in accounts payable
- D. The sale of new bonds by the firm

100. Which of the following would represent a source of funds and, indirectly, an increase in cash balances?

- A. A reduction in accounts receivable
- B. The repurchase of shares of the firm's stock
- C. A decrease in net income
- D. A reduction in notes payable

101. A firm's purchase of plant and equipment would be considered a

- A. use of cash for financing activities.
- B. use of cash for operating activities.
- C. source of cash for investment activities.
- D. use of cash for investment activities.

102. An increase in investments in long-term securities will:

- A. increase cash flow from investing activities.
- B. decrease cash flow from investing activities.
- C. increase cash flow from financing activities.
- D. decrease cash flow from financing activities.

103. How many of the following items decrease cash flow in the Statement of Cash flows?

- Increase in accounts receivable
 - Increase in notes payable
 - Depreciation expense
 - Increase in investments
 - Decrease in accounts payable
 - Decrease in prepaid expenses
 - Dividend payment
 - Increase in accrued expenses
- A. 2 of these items decrease cash flow
 - B. 3 of these items decrease cash flow
 - C. 4 of these items decrease cash flow
 - D. 5 of these items decrease cash flow

104. Depreciation is a source of cash inflow because

- A. it is a tax-deductible non-cash expense.
- B. it supplies cash for future asset purchases.
- C. it is a tax-deductible cash expense.
- D. it is a taxable expense.

105. Depreciation tends to

- A. increase cash flow and decrease income.
- B. decrease cash flow and increase income.
- C. affect only cash flow.
- D. affect only income.

106. Preferred stock dividends _____ earnings available to common stockholders.

- A. increase
- B. decrease
- C. do not effect
- D. not enough information to tell

107. Free cash flow is equal to:

- A. cash flow from operating activities plus capital expenditures, minus dividends.
- B. cash flow from operating activities plus capital expenditures, plus dividends.
- C. cash flow from operating activities plus dividends, minus capital, expenditures.
- D. cash flow from operating activities minus capital expenditures, minus dividends.

108. In the last decade, free cash flow has been associated with special financial activities such as:

- A. leveraged buyouts.
- B. ESOPs.
- C. stock options.
- D. golden parachutes.

109. Free cash flow is equal to cash flow from operating activities

- A. plus capital expenditures, minus dividends.
- B. minus capital expenditures, plus dividends.
- C. plus capital expenditures, plus dividends.
- D. minus capital expenditures, minus dividends.

110. Given the following, what is free cash flow?

Cash flow from operating activities	\$200,000
Capital expenditures	50,000
Dividends	20,000

- A. \$150,000.
- B. \$270,000.
- C. \$180,000.
- D. \$130,000.

111. Assuming a tax rate of 40%, depreciation expenses of \$500,000 will

- A. reduce income by \$200,000.
- B. reduce taxes by \$200,000.
- C. reduce taxes by \$500,000.
- D. have no effect on income or taxes, since depreciation is not a cash expense.

112. Assuming a tax rate of 40%, the after-tax cost of interest expense of \$1,000,000 is

- A. \$1,000,000
- B. \$140,000
- C. \$600,000
- D. \$400,000

113. Assuming a tax rate of 30%, the after-tax cost of a \$100,000 dividend payment is

- A. \$100,000
- B. \$70,000
- C. \$30,000
- D. none of these.

114. Farah Snack Co. has earnings after taxes of \$150,000. Interest expense for the year was \$20,000; preferred dividends paid were \$20,000; and common dividends paid were \$30,000. Taxes were \$22,500. The firm has 100,000 shares of common stock outstanding. Earnings per share on the common stock was

- A. \$1.30
- B. \$1.10
- C. \$0.75
- D. \$0.80

115. Gerry Co. has a gross profit of \$1,200,000 and \$400,000 in depreciation expense. Selling and administrative expense is \$250,000. Given that the tax rate is 40 percent, compute the cash flow for Gerry Co.

- A. \$730,000
- B. \$550,000
- C. \$330,000
- D. None of these

116. Hoover Inc. has current assets of \$350,000 and fixed assets of \$650,000. Current liabilities are \$100,000 and long-term liabilities are \$250,000. There is \$120,000 in preferred stock outstanding and the firm has issued 10,000 shares of common stock. Compute book value (net worth) per share

- A. \$84.00
- B. \$53.00
- C. \$75.00
- D. None of these

117. The best indication of the operational efficiency of management is

- A. net income.
- B. earnings per share.
- C. earnings before interest and taxes (EBIT).
- D. gross profit.

118. A corporation can increase their earnings per share by

- A. increasing tax-deductible expenses
- B. increasing Treasury stock
- C. decreasing depreciation
- D. decreasing retained earnings

119. Which factor(s) can cause an increase in the firm's P/E ratio?

- A. Falling earnings per share
- B. When the economy is entering recession
- C. Increasing risk
- D. Increasing assets

120. Which of the following would indicate an accurate Statement of Cash Flows?

- A. Net cash flow is equal to marketable securities balance
- B. Net cash flows from financing activities are equal to the change in stockholder's equity
- C. Net cash flow is equal to the ending cash balance
- D. Net cash flow is equal to the change in the cash balance

121. An increase of \$100,000 in inventory would result in an

- A. Decrease of net cash flow
- B. Increase in net cash flow
- C. Decrease in marketable securities
- D. Increase in bonds payable

122. Compute the net increase or decrease in cash flows if Star Corporation had \$250,000 in net income, \$30,000 in depreciation expense, a decrease of \$20,000 in A/R and an increase in bonds payable of \$50,000

- A. \$370,000
- B. \$350,000
- C. \$280,000
- D. \$310,000

123. One of the primary factors evaluated when a company is pursuing a leveraged buyout is

- A. Net cash flow
- B. Free cash flow
- C. Cash flow from financing activities
- D. Cash flow from investing activities

124. Backdating of options is

- A. A fair method to award top-performing employees
- B. Illegal
- C. Not to be reported unless a gain is provided to an employee
- D. Considered a gift by tax law

Matching Questions

125. Match the following with the questions below:

1. depreciation	All the assets of the firm minus the liabilities and preferred stock. _____
2. cash flows from investing	A financial statement that indicates what the firm owns, and how these assets are financed in the form of liabilities or ownership interest. _____
3. free cash flow	Changes accrual-based information from income statement and balance sheet to cash based information. _____
4. marketable securities	The relative convertibility of short-term assets into cash. _____
5. cash flow from financing	The levy expressed as a percentage that applies to each new dollar of taxable income. _____
6. statement of cash flows	The multiplier applied to earnings per share to determine current value. _____
7. net worth or book value	The income available to common stockholders divided by the number of common shares outstanding. _____
8. historical cost accounting	A financial statement that measures the profitability of the firm over a period of time. _____
9. income statement	Temporary investments of excess cash. _____
10. earnings per share	Represents the net cash flow that results from changes in the amount of a firm's long-term assets. _____
11. notes payable	The total ownership position of preferred and common stockholders. _____
12. P/E ratio	Traditional method of accounting using original costs minus depreciation. _____
13. cash flows from operations	Represents the net cash flow that results from a firm's production and sales activities. _____
14. liquidity	Short-term signed obligations to banks or other creditors. _____
15. stockholders' equity	Cash flow that is generated (or reduced) from the sale or repurchase of securities or the payment of cash dividends. _____
16. marginal corporate tax rate	The allocation of the initial cost of an asset over its useful life. _____
17. balance sheet	Cash flows from operations minus working capital minus dividend payments. _____

Essay Questions

126. The following is the December 31, 2010 balance sheet for the Epics Corporation.

<u>Assets</u>		<u>Liabilities</u>	
Cash	\$ 70,000	Accounts Payable	\$ 100,000
Accounts Receivable	150,000	Notes Payable	120,000
Inventory	<u>280,000</u>	Bonds Payable	<u>300,000</u>
Total Current Assets	\$ 500,000	Total Liabilities	\$ 520,000
Plant and Equipment	\$ 1,250,000	Equity	
Less: Accum. Deprec.	<u>250,000</u>	Common Stock	300,000
Net Plant and Equipment	\$ 1,000,000	Paid In Capital	200,000
		Retained Earnings	<u>480,000</u>
Total Assets	\$ 1,500,000	Total Equity	\$ 980,000
		Total Liab. & Equity	\$ 1,500,000

Sales for 2010 were \$3,000,000, with the cost of goods sold being 60% of sales. Depreciation expense was 10% of the gross plant and equipment at the beginning of the year. Interest expense was 9% on the notes payable and 11% on the bonds payable. Selling and administrative expenses were \$200,000 and the firm's tax rate is 40%. Prepare an income statement.

127. Given the financial information for the A.E. Neuman Corporation,

a) Prepare a Statement of Cash Flows for the year ended December 31, 2010.

b) What is the dividend payout ratio for 2010?

c) If we increased the dividend payout ratio to 100%, what would happen to retained earnings at year end 2010?

A.E. Neuman Corporation - Year-end Balance Sheets

ASSETS	2009	2010
Cash	\$ 45,000	\$ 50,000
Marketable Securities	175,000	160,000
Accounts Receivable	140,000	110,000
Inventories	230,000	375,000
Investments	170,000	55,000
Plant and Equipment	1,500,000	1,750,000
Less Accumulated Depreciation	<u>-450,000</u>	<u>-600,000</u>
Net Plant and Equipment	850,000	950,000
Total Assets	\$1,810,000	\$1,900,000

LIABILITIES AND STOCKHOLDERS EQUITY

Accounts Payable	\$110,000	\$ 85,000
Notes Payable	150,000	140,000
Accrued Expenses	80,000	35,000
Income Taxes Payable	10,000	15,000
Bonds Payable	860,000	955,000
Common Stock (100,000 shares, \$1 par)	100,000	100,000
Capital Paid in Excess of Par	100,000	100,000
Retained Earnings	<u>400,000</u>	<u>470,000</u>
Total Liabilities and Stockholder's Equity	\$1,810,000	\$1,900,000

A.F. Neuman Corporation

Income Statement For Year Ended December 31, 2010

Sales	\$7,000,000
Less: Cost of Goods Sold	<u>4,200,000</u>
Gross Profit	2,800,000
Less: Selling and Administrative Expense	<u>260,000</u>
Operating Profit	2,540,000
Less: Depreciation Expense	<u>150,000</u>
Earnings Before Interest and Taxes	2,390,000
Less: Interest Expense	<u>160,000</u>
Earnings Before Taxes	2,230,000
Less: Taxes (50%)	<u>1,115,000</u>
Net Income	\$ 1,115,000
Dividends Paid	\$ 1,045,000

128. Assume the company has issued 15,000 bonds with a coupon rate of 10% and a face value of \$1,000 per bond, and the company has a marginal tax rate of 40%. Calculate the annual after-tax cost of the interest expense.

129. ElectroWizard Company produces a popular video game called Destructo which sells for \$65. Last year ElectroWizard sold 100,000 Destructo games, each of which costs \$10 to produce. ElectroWizard incurred selling and administrative expenses of \$200,000 and depreciation expense of \$100,000. In addition, ElectroWizard has a \$1,000,000 loan outstanding at 8%. Their tax rate is 40%. There are 400,000 common shares outstanding. Prepare an income statement for ElectroWizard in good form (include EPS).

130. Identify each of the following as increasing (+) or decreasing (-) cash flows from operating activities (O), investment activities (I), or financing activities (F). (EXAMPLE: the sale of plant and equipment would increase cash flows from investing activities, and the correct answer would be +I).

	1.	Increase in accounts payable
	2.	Decrease in inventory
	3.	Net income from operations
	4.	Payment of dividends
	5.	Sale of preferred stock
	6.	Increase in accrued expenses
	7.	Purchase of new equipment
	8.	Decrease in depreciation expense
	9.	Increase in accounts receivable
	10.	Decrease in notes payable
	11.	Increase in net worth
	12.	Increase in long-term liabilities
	13.	Increase in investments
	14.	Decrease in marketable securities
	15.	Repurchase of common shares outstanding
	16.	Increase in prepaid expense
	17.	Decrease in income taxes payable
	18.	Retirement of long-term bonds payable
	19.	Sale of new common stock

Chapter 02 Review of Accounting **Answer Key**

True / False Questions

1. The income statement is the major device for measuring the profitability of a firm over a period of time.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability. The income statement measures profitability.

2. The income statement measures the increase in the assets of a firm over a period of time.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability. The income statement measures profitability.

Learning Objective: 02-02 The price-earnings ratio indicates the relative valuation of earnings. The price-earnings ratio indicates the relative valuation of earnings.

3. Sales minus cost of goods sold is equal to earnings before taxes.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

4. Sales minus cost of goods sold is equal to gross profit.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

5. It is not possible for a company with a high profit margin to have a low operating profit.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

6. Operating profit is essentially a measure of how efficient management is in generating revenues and controlling expenses.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

7. Dividing Operating Profit by Shares Outstanding produces Earnings per Share.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

8. Accounting income is based on verifiably completed transactions.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

9. The P/E ratio is strongly related to the past performance of the firm.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-02 The price-earnings ratio indicates the relative valuation of earnings. The price-earnings ratio indicates the relative valuation of earnings.

10. When a firm has a sharp drop off in earnings, its P/E ratio may be artificially high.

TRUE

Bloom's: Understand

Difficulty: Challenge

Learning Objective: 02-02 The price-earnings ratio indicates the relative valuation of earnings.

11. The P/E ratio provides no indication of investors' expectations about the future of a company.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-02 The price-earnings ratio indicates the relative valuation of earnings.

12. The real value of a firm is the same from an economic and accounting perspective.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

13. A balance sheet represents the assets, liabilities, and owner's equity of a company at a given point in time.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

14. The investments account includes marketable securities.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

15. The investments account represents a commitment of funds of at least one year or more.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

16. Asset accounts are listed in order of their liquidity.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

17. Accumulated depreciation shows up in the income statement.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

18. Accumulated depreciation should always be equal to the depreciation expense charged in the income statement.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

19. Total assets of a firm are financed with liabilities and stockholders equity.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

20. Marketable securities are temporary investments of excess cash and are valued at their original purchase price.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

21. Book value per share and market value per share are usually the same dollar amount.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

22. Book value per share is of greater concern to the financial manager than market value per share.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

23. Book value is equal to net worth.

TRUE

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

24. Equity is a measure of the monetary contributions that have been made directly or indirectly on behalf of the owners of the company.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

25. Stockholders' equity is equal to liabilities plus assets.

FALSE

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

26. Stockholders' equity is equal to assets minus liabilities.

TRUE

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

27. Stockholders' equity minus preferred stock is the same thing as what is sometimes called net worth or book value.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

28. Retained earnings shown on the balance sheet represents available cash on hand generated from prior year's earnings but not paid out in dividends.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

29. Preferred stock is excluded from stockholders equity because it does not have full voting rights.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

30. Retained earnings represent the firm's cumulative earnings since inception, minus dividends and other adjustments.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

31. Balance sheet items are usually adjusted for inflation.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

32. Cash flow consists of illiquid cash equivalents which are difficult to convert to cash within 90 days.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

33. The statement of cash flows helps measure how the changes in a balance sheet were financed between two time periods.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-04

34. Cash flow is equal to earnings before taxes minus depreciation.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

35. An increase in an asset represents a source of funds.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

36. Assume that two companies both have Net Income of \$100,000. The firm with the highest depreciation expense will have the highest cash flow, assuming all other adjustments are equal.

TRUE

Bloom's: Understand

Difficulty: Challenge

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

37. An increase in inventory represents a source of funds.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

38. An increase in a liability account represents a source of funds on the cash flow statement.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

39. An increase in accounts receivable represents a reduction in cash flows from operations.

TRUE

Bloom's: Understand

Difficulty: Challenge

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

40. An increase in accounts payable represents a reduction in cash flows from operations.

FALSE

Bloom's: Understand

Difficulty: Challenge

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

41. The purchase of a new factory would reduce the cash flows from investing activities on the statement of cash flows.

TRUE

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

42. The sale of corporate bonds held by the firm as a long-term investment would increase cash flows from investing activities on the statement of cash flows.

TRUE

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

43. Paying dividends to common shareholders will not affect cash flows from financing activities.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

44. The sale of a firm's securities is a source of funds, whereas the payment of dividends is a use of funds.

TRUE

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

45. Depreciation is an accounting entry and does not involve a cash expense.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

46. The use of depreciation is an attempt to allocate the past and future costs of an asset over its useful life.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow. Depreciation provides a tax reduction benefit that increases cash flow.

47. Free cash flow is equal to cash flow from operating activities plus depreciation.

FALSE

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

48. Free cash flow is equal to cash flow from operating activities minus necessary capital expenditures and normal dividend payments.

TRUE

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

49. For corporations with low taxable income (less than \$100,000), the effective tax rate can be as much as 40%.

FALSE

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

50. Interest expense is deductible before taxes and therefore has an after-tax cost equal to the interest paid times $(1 - \text{tax rate})$.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

51. Federal corporate tax rates have changed four times since 1980.

TRUE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

52. A \$125,000 credit sale could be a part of a firm's cash flow from operations if paid off within the firm's fiscal year.

TRUE

AACSB: Analytic

Bloom's: Apply

Difficulty: Challenge

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

53. Preferred stock dividends are paid out before income taxes.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

54. Unlike sole proprietorships, corporations do not need to be concerned about individual tax rates in corporate decisions.

FALSE

Bloom's: Understand

Difficulty: Challenge

Learning Objective: 02-01 The income statement measures profitability.

55. Net working capital is the difference between current assets and current liabilities.

TRUE

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

56. Book value per share is the most important measure of value for a stockholder.

FALSE

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

57. An increase in accounts receivable results in a cash inflow on the statement of cash flows.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

58. A decrease in bonds payable results in a cash outflow on the statement of cash flows.

TRUE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

59. An increase in accrued expenses results in a cash outflow on the statement of cash flows.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

60. A cash flow statement is correct if the net cash flow ties to the ending cash balance.

FALSE

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

Multiple Choice Questions

61. Which of the following is not one of the three basic financial statements?

- A. Income Statement
- B. Statement of Retained Earnings**
- C. Statement of Cash Flows
- D. Balance Sheet

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

62. Gross profit is equal to

- A. sales minus cost of goods sold.**
- B. sales minus (selling and administrative expenses).
- C. sales minus (cost of goods sold and selling and administrative expenses).
- D. sales minus (cost of goods sold and depreciation expense).

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

63. Which of the following is not subtracted out in arriving at operating income?

- A. Interest expense**
- B. Cost of goods sold
- C. Depreciation
- D. Selling and administrative expense

AACSB: Analytic

Bloom's: Apply

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

64. Increasing interest expense will have what effect on EBIT?

- A. Increase it
- B. Decrease it
- C. No effect
- D. Not enough information to tell

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

65. The residual income of the firm belongs to

- A. creditors.
- B. preferred stockholders.
- C. common stockholders.
- D. bondholders.

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

66. Allen Lumber Company had earnings after taxes of \$750,000 in the year 2009 with 300,000 shares outstanding on December 31, 2009. On January 1, 2010, the firm issued 50,000 new shares. Because of the proceeds from these new shares and other operating improvements, 2010 earnings after taxes were 25 percent higher than in 2009. Earnings per share for the year 2010 were

- A. \$2.14
- B. \$2.68**
- C. \$3.13
- D. None of these

$$\text{Year 2009} \quad \text{Earnings per share} = \frac{\text{Earnings after taxes}}{\text{Shares outstanding}} = \frac{\$ 750,000}{300,000} = \$2.50$$

$$\begin{aligned} \text{Year 2010} \quad \text{Earnings after taxes} &= \$750,000 \times 1.25 = \$937,500 \\ \text{Shares outstanding} &= 300,000 + 50,000 = 350,000 \end{aligned}$$

$$\text{Earnings per share} = \frac{\$ 937,500}{350,000} = \$2.68$$

Learning Objective: 02-01 The income statement measures profitability.

67. Consider the following information for Ball Corp.

Selling and administrative expense	\$40,000
Depreciation expense	70,000
Sales	350,000
Interest expense	30,000
Cost of goods sold	110,000
Taxes	17,500

What is the Operating Profit for Ball Corp?

- A. \$71,450
- B. \$90,000
- C.** \$130,000
- D. None of these

Sales.....	\$350,000
Cost of goods sold.....	<u>110,000</u>
Gross Profit	240,000
Selling and administrative expense.....	40,000
Depreciation expense	<u>70,000</u>
Operating profit.....	\$ 130,000

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

68. Candy Company had sales of \$320,000 and cost of goods sold of \$112,000. What is the gross profit margin (ratio of gross profit to sales)?

- A. 55%
- B. 65%**
- C. 73.3%
- D. None of these

Sales.....	\$320,000
Cost of goods sold.....	<u>112,000</u>
Gross Profit	\$208,000

$$\begin{aligned}\text{Gross Profit Margin} &= \text{Gross Profit/Sales} \\ &= \$208,000/\$320,000 = .65\end{aligned}$$

- B. long-term asset.
- C.** current asset.
- D. long-term liability.

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

81. Which of the following would not be included in the balance sheet investment account?

- A. Stocks of other corporations
- B. Long term government bonds
- C.** Marketable securities
- D. Investments in other corporations

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

82. Asset accounts on the balance sheet are listed in the order of:

- A. liquidity.
- B. profitability.
- C. size.
- D. importance.

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

83. Which of the following is not a primary source of capital to the firm?

- A. Assets
- B. Common stock
- C. Preferred stock
- D. Bonds

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

Learning Objective: 02-04

84. How many of the following balance sheet items are classified as current?

Retained earnings
Accounts payable
Plant and equipment
Inventory
Common stock
Bonds payable
Accrued wages payable
Accounts receivable
Preferred stock

- A. 3 of these items are classified as current
- B. 4 of these items are classified as current
- C. 5 of these items are classified as current
- D. 6 of these items are classified as current

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

85. How many of the following items are found on the balance sheet, rather than the income statement?

- Accounts receivable
 - Retained earnings
 - Income tax expense
 - Accrued expenses
 - Cash
 - Selling and administrative expenses
 - Plant and equipment
 - Operating expense
 - Marketable securities
 - Interest expense
- A. 3 of these items are found on the balance sheet
B. 4 of these items are found on the balance sheet
C. 5 of these items are found on the balance sheet
D. 6 of these items are found on the balance sheet

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

86. How many of the following items are found on the income statement, rather than the balance sheet?

- Sales
 - Notes payable (6 months)
 - Bonds payable, maturity 2001
 - Common stock
 - Depreciation expense
 - Inventories
 - Capital in excess of par value
 - Net income (earnings after taxes)
 - Income tax payable
- A. 2 of these items are found on the income statement
B. 3 of these items are found on the income statement
C. 4 of these items are found on the income statement
D. 5 of these items are found on the income statement

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

87. Which account represents the cumulative earnings of the firm since its formation, minus dividends paid?

- A. Paid-in capital
- B. Common stock
- C. Retained earnings**
- D. Accumulated depreciation

Bloom's: Remember

Difficulty: Basic

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

88. The major limitation of financial statements is

- A. in their complexity.
- B. in their lack of comparability.
- C. in their use of historical cost accounting.**
- D. in their lack of detail.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-01 The income statement measures profitability.

89. Net worth is equal to stockholders' equity

- A. plus dividends.
- B. minus preferred stock.**
- C. plus preferred stock.
- D. minus liabilities.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

Chapter 02 - Review of Accounting

90. Book value is the same as
- A. stockholders' equity.
 - B. fixed assets minus long-term debt.
 - C. net worth.**
 - D. current assets minus current debt.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

91. Total stockholders' equity consists of
- A. preferred stock and common stock.
 - B. common stock and retained earnings.
 - C. common stock and capital paid in excess of par.
 - D. preferred stock, common stock, capital paid in excess of par and retained earnings.**

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

92. The net worth of a firm
- A. is usually the same as the firm's market value.
 - B. is based on current asset costs.
 - C. is based on current liabilities.
 - D. none of these.**

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

93. The orientation of **book value per share** is _____, while the orientation of **market value per share** is _____.

- A. short term, long term
- B. future, historical
- C. historical, future**
- D. long term, short term

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

94. The primary disadvantage of accrual accounting is that

- A. it does not match revenues and expenses in the period in which they are incurred.
- B. it does not appropriately measure accounting profit.
- C. it does not recognize accounts receivable.
- D. it does not adequately show the actual cash flow position of the firm.**

Bloom's: Understand

Learning Objective: 02-01 The income statement measures profitability.

Learning Objective: 02-04

95. The statement of cash flows does not include which of the following sections?

- A. Cash flows from operating activities
- B. Cash flows from sales activities**
- C. Cash flows from investing activities
- D. Cash flows from financing activities

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

96. Which of the following is an outflow of cash?

- A. Profitable operations
- B. The sale of equipment
- C. The sale of the company's common stock
- D.** The payment of cash dividends

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

97. Which of the following is an inflow of cash?

- A. Funds spent in normal business operations
- B. The purchase of a new factory
- C.** The sale of the firm's bonds
- D. The retirement of the firm's bonds

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

98. A statement of cash flows allows a financial analyst to determine

- A. whether a cash dividend is affordable.
- B. how increases in asset accounts have been financed.
- C. whether long-term assets are being financed with long-term or short-term financing.
- D.** all of these.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

99. Which of the following would represent a use of funds and, indirectly, a reduction in cash balances?

- A. An increase in inventories
- B. A decrease in marketable securities
- C. An increase in accounts payable
- D. The sale of new bonds by the firm

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

100. Which of the following would represent a source of funds and, indirectly, an increase in cash balances?

- A. A reduction in accounts receivable
- B. The repurchase of shares of the firm's stock
- C. A decrease in net income
- D. A reduction in notes payable

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

101. A firm's purchase of plant and equipment would be considered a

- A. use of cash for financing activities.
- B. use of cash for operating activities.
- C. source of cash for investment activities.
- D. use of cash for investment activities.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

102. An increase in investments in long-term securities will:

- A. increase cash flow from investing activities.
- B. decrease cash flow from investing activities.**
- C. increase cash flow from financing activities.
- D. decrease cash flow from financing activities.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

103. How many of the following items decrease cash flow in the Statement of Cash flows?

- Increase in accounts receivable
 - Increase in notes payable
 - Depreciation expense
 - Increase in investments
 - Decrease in accounts payable
 - Decrease in prepaid expenses
 - Dividend payment
 - Increase in accrued expenses
- A. 2 of these items decrease cash flow
 - B. 3 of these items decrease cash flow
 - C. 4 of these items decrease cash flow**
 - D. 5 of these items decrease cash flow

Bloom's: Remember

Difficulty: Challenge

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

104. Depreciation is a source of cash inflow because

- A. it is a tax-deductible non-cash expense.**
- B. it supplies cash for future asset purchases.
- C. it is a tax-deductible cash expense.
- D. it is a taxable expense.

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

105. Depreciation tends to

- A.** increase cash flow and decrease income.
- B. decrease cash flow and increase income.
- C. affect only cash flow.
- D. affect only income.

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

106. Preferred stock dividends _____ earnings available to common stockholders.

- A. increase
- B.** decrease
- C. do not effect
- D. not enough information to tell

Bloom's: Understand

Difficulty: Basic

Learning Objective: 02-01 The income statement measures profitability.

107. Free cash flow is equal to:

- A. cash flow from operating activities plus capital expenditures, minus dividends.
- B. cash flow from operating activities plus capital expenditures, plus dividends.
- C. cash flow from operating activities plus dividends, minus capital, expenditures.
- D.** cash flow from operating activities minus capital expenditures, minus dividends.

Bloom's: Understand

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

108. In the last decade, free cash flow has been associated with special financial activities such as:

- A. leveraged buyouts.
- B. ESOPs.
- C. stock options.
- D. golden parachutes.

Bloom's: Understand

Difficulty: Challenge

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

109. Free cash flow is equal to cash flow from operating activities

- A. plus capital expenditures, minus dividends.
- B. minus capital expenditures, plus dividends.
- C. plus capital expenditures, plus dividends.
- D. minus capital expenditures, minus dividends.

Bloom's: Remember

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

110. Given the following, what is free cash flow?

Cash flow from operating activities	\$200,000
Capital expenditures	50,000
Dividends	20,000

- A. \$150,000.
- B. \$270,000.
- C. \$180,000.
- D. \$130,000.

Feedback:	Cash flow from operations activities	\$200,000
	- Capital Expenditures	50,000
	- Common stock dividends	<u>20,000</u>
	Free cash flow	\$130,000

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

111. Assuming a tax rate of 40%, depreciation expenses of \$500,000 will

- A. reduce income by \$200,000.
- B. reduce taxes by \$200,000.**
- C. reduce taxes by \$500,000.
- D. have no effect on income or taxes, since depreciation is not a cash expense.

Tax savings from depreciation = Depreciation x tax rate = \$500,000 x .40 = \$200,000

AACSB: Analytic

Bloom's: Apply

Difficulty: Basic

Learning Objective: 02-05 Depreciation provides a tax reduction benefit that increases cash flow.

112. Assuming a tax rate of 40%, the after-tax cost of interest expense of \$1,000,000 is

- A. \$1,000,000
- B. \$140,000
- C. \$600,000**
- D. \$400,000

After tax cost of interest = Interest x (1 - tax rate) = \$1,000,000 x .60 = \$600,000

AACSB: Analytic

Bloom's: Apply

Difficulty: Basic

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

113. Assuming a tax rate of 30%, the after-tax cost of a \$100,000 dividend payment is

- A. \$100,000**
- B. \$70,000
- C. \$30,000
- D. none of these.

Dividends are not tax deductible.

AACSB: Analytic

Bloom's: Apply

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

114. Farah Snack Co. has earnings after taxes of \$150,000. Interest expense for the year was \$20,000; preferred dividends paid were \$20,000; and common dividends paid were \$30,000. Taxes were \$22,500. The firm has 100,000 shares of common stock outstanding. Earnings per share on the common stock was

- A. \$1.30
- B. \$1.10
- C. \$0.75
- D. \$0.80

Earnings after taxes - Preferred stock dividends = Earnings available to common

\$150,000 - \$20,000 = \$130,000 EAC

Earnings per share = Earnings available to common/number of shares outstanding

\$130,000/100,000 = \$1.30

AACSB: Analytic

Bloom's: Apply

Difficulty: Challenge

Learning Objective: 02-01 The income statement measures profitability.

115. Gerry Co. has a gross profit of \$1,200,000 and \$400,000 in depreciation expense. Selling and administrative expense is \$250,000. Given that the tax rate is 40 percent, compute the cash flow for Gerry Co.

- A. \$730,000
- B. \$550,000
- C. \$330,000
- D. None of these

Gross Profit.....	1,200,000
Selling and administrative expense.....	250,000
Depreciation expense	<u>400,000</u>

Learning Objective: 02-01 The income statement measures profitability.

118. A corporation can increase their earnings per share by

- A. increasing tax-deductible expenses
- B. increasing Treasury stock**
- C. decreasing depreciation
- D. decreasing retained earnings

AACSB: Analytic

Bloom's: Analyze

Difficulty: Challenge

Learning Objective: 02-02 The price-earnings ratio indicates the relative valuation of earnings.

119. Which factor(s) can cause an increase in the firm's P/E ratio?

- A. Falling earnings per share**
- B. When the economy is entering recession
- C. Increasing risk
- D. Increasing assets

AACSB: Analytic

Bloom's: Analyze

Difficulty: Intermediate

Learning Objective: 02-02 The price-earnings ratio indicates the relative valuation of earnings.

120. Which of the following would indicate an accurate Statement of Cash Flows?

- A. Net cash flow is equal to marketable securities balance
- B. Net cash flows from financing activities are equal to the change in stockholder's equity
- C. Net cash flow is equal to the ending cash balance
- D. Net cash flow is equal to the change in the cash balance**

AACSB: Analytic

Bloom's: Analyze

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

121. An increase of \$100,000 in inventory would result in an

- A.** Decrease of net cash flow
- B. Increase in net cash flow
- C. Decrease in marketable securities
- D. Increase in bonds payable

AACSB: Analytic

Bloom's: Analyze

Difficulty: Intermediate

Learning Objective: 02-04 The statement of cash flows indicates the change in the cash position of the firm.

122. Compute the net increase or decrease in cash flows if Star Corporation had \$250,000 in net income, \$30,000 in depreciation expense, a decrease of \$20,000 in A/R and an increase in bonds payable of \$50,000

- A. \$370,000
- B.** \$350,000
- C. \$280,000
- D. \$310,000

Change in cash flow = Net income + Depreciation + Decrease in A/R + Increase in bonds
= \$250,000 + \$30,000 + \$20,000 + \$50,000 = \$350,000.

Essay Questions

126. The following is the December 31, 2010 balance sheet for the Epics Corporation.

<u>Assets</u>		<u>Liabilities</u>	
Cash	\$ 70,000	Accounts Payable	\$ 100,000
Accounts Receivable	150,000	Notes Payable	120,000
Inventory	<u>280,000</u>	Bonds Payable	<u>300,000</u>
Total Current Assets	\$ 500,000	Total Liabilities	\$ 520,000
Plant and Equipment	\$ 1,250,000	Equity	
Less: Accum. Deprec.	<u>250,000</u>	Common Stock	300,000
Net Plant and Equipment	\$ 1,000,000	Paid In Capital	200,000
		Retained Earnings	<u>480,000</u>
Total Assets	\$ 1,500,000	Total Equity	\$ 980,000
		Total Liab. & Equity	\$ 1,500,000

Sales for 2010 were \$3,000,000, with the cost of goods sold being 60% of sales. Depreciation expense was 10% of the gross plant and equipment at the beginning of the year. Interest expense was 9% on the notes payable and 11% on the bonds payable. Selling and administrative expenses were \$200,000 and the firm's tax rate is 40%.

Prepare an income statement.

Income Statement

Sales	\$3,000,000
Less: Cost of Goods Sold	<u>1,800,000</u>
Gross Profit	1,200,000
Less: Selling and Administrative Expense	200,000
Depreciation expense	<u>125,000</u>
EBIT	875,000
Less: Interest Expense (10, 800 + 33, 000)	<u>43,800</u>
EBT	831,200
Less: Taxes (40%)	<u>332,480</u>
Net Earnings	\$498,720

Chapter 02 - Review of Accounting

Learning Objective: 02-03 The balance sheet shows assets and the financing of those assets with debt and equity.

127. Given the financial information for the A.E. Neuman Corporation,

a) Prepare a Statement of Cash Flows for the year ended December 31, 2010.

b) What is the dividend payout ratio for 2010?

c) If we increased the dividend payout ratio to 100%, what would happen to retained earnings at year end 2010?

A.E. Neuman Corporation - Year-end Balance Sheets

ASSETS	2009	2010
Cash	\$ 45,000	\$ 50,000
Marketable Securities	175,000	160,000
Accounts Receivable	140,000	110,000
Inventories	230,000	375,000
Investments	170,000	55,000
Plant and Equipment	1,500,000	1,750,000
Less Accumulated Depreciation	<u>-450,000</u>	<u>-600,000</u>
Net Plant and Equipment	850,000	950,000
Total Assets	\$1,810,000	\$1,900,000

LIABILITIES AND STOCKHOLDERS EQUITY

Accounts Payable	\$110,000	\$ 85,000
Notes Payable	150,000	140,000
Accrued Expenses	80,000	35,000
Income Taxes Payable	10,000	15,000
Bonds Payable	860,000	955,000
Common Stock (100,000 shares, \$1 par)	100,000	100,000
Capital Paid in Excess of Par	100,000	100,000
Retained Earnings	<u>400,000</u>	<u>470,000</u>
Total Liabilities and Stockholder's Equity	\$1,810,000	\$1,900,000

Chapter 02 - Review of Accounting

A.F. Neuman Corporation

Income Statement For Year Ended December 31, 2010

Sales	\$7,000,000
Less: Cost of Goods Sold	<u>4,200,000</u>
Gross Profit	2,800,000
Less: Selling and Administrative Expense	<u>260,000</u>
Operating Profit	2,540,000
Less: Depreciation Expense	<u>150,000</u>
Earnings Before Interest and Taxes	2,390,000
Less: Interest Expense	<u>160,000</u>
Earnings Before Taxes	2,230,000
Less: Taxes (50%)	<u>1,115,000</u>
Net Income	\$ 1,115,000
Dividends Paid	\$ 1,045,000

a)	Cash Flows from Operating Activities:		
	Net Income (earnings after taxes)	\$1,115,000	
	Adjustments:		
	Add back depreciation	150,000	
	Decrease in marketable securities	15,000	
	Decrease in accounts receivable	30,000	
	Increase in inventories	(145,000)	
	Decrease in accounts payable	(25,000)	
	Decrease in notes payable	(10,000)	
	Decrease in accrued expenses	(45,000)	
	Increase in incomes taxes payable	5,000	
	Total Adjustments		\$ (25,000)
	Net Cash Flows from Operating Activities		\$1,090,000
	Cash Flows from Investing Activities		
	Decrease in Investments	115,000	
	Increase in Plant & Equipment	(250,000)	
	Net Cash Flows from Investing Activities		(135,000)
	Cash Flows from Financing Activities		
	Increase in Bonds Payable	95,000	
	Dividends Paid	(1,045,000)	
	Net Cash Flows from Financing Activities		(950,000)

b)
$$\text{Dividend payout ratio} = \frac{\text{Dividends paid 2010}}{\text{Net Income 2010}} = \frac{\$1,045,000}{\$1,115,000} = 94\%$$

c) The 2010 value for retained earnings would decrease by \$70,000 to \$400,000. In addition, assets would have to decrease by \$70,000 or other liabilities would have to increase by the same amount.
