#### **Group Projects – Chapter 2: Recording Business Transactions**

Contact a local business and arrange with the owner to learn what accounts the business uses.

#### Required

- 1. Obtain a copy of the business's chart of accounts.
- 2. Prepare the business's financial statements for the most recent month, quarter, or year. You may use either made-up account balances or balances supplied by the owner.

If the business has a large number of accounts within a category, combine related accounts and report a single amount on the financial statements. For example, the company may have several cash accounts. Combine all cash amounts and report a single Cash amount on the balance sheet.

You will probably encounter numerous accounts that you have not yet learned. Deal with these as best you can. The chart of accounts given in Appendix B of your text will be helpful.

Keep in mind that the financial statements report the balances of the accounts listed in the company's chart of accounts. Therefore, the financial statements must be consistent with the chart of accounts.

#### Solutions to Group Projects – Chapter 2: Recording Business Transactions

Contact a local business and arrange with the owner to learn what accounts the business uses.

#### Required

1. Obtain a copy of the business's chart of accounts.

Student answers will vary widely, as the various groups use the charts of accounts of different businesses. The financial statements that the students prepare should be consistent with the business's chart of accounts.

2. Prepare the business's financial statements for the most recent month, quarter, or year. You may use either made-up account balances or balances supplied by the owner.

Because the students will be using the annual reports of real companies, the answers to this problem will vary widely.

If the business has a large number of accounts within a category, combine related accounts and report a single amount on the financial statements. For example, the company may have several cash accounts. Combine all cash amounts and report a single Cash amount on the balance sheet.

You will probably encounter numerous accounts that you have not yet learned. Deal with these as best you can. The chart of accounts given in Appendix B of your text will be helpful.

Keep in mind that the financial statements report the balances of the accounts listed in the company's chart of accounts. Therefore, the financial statements must be consistent with the chart of accounts.

### Chapter 2

### **Recording Business Transactions**

#### Questions

- 1. The basic shortcut device of accounting is the *T*-account. It resembles the letter T, and its left side is called the debit side and its right side the credit side.
- 2. The statement is false because debit means left and credit means right. Debits and credits are used to record increases and decreases in accounts, so debits can be increases or decreases depending on the type of account involved and likewise for credits.
- 3. Debits are on the left-hand side and credits are on the right-hand side. Depending upon which side of the equation you are on, debits will either increase or decrease an accounting equation item.

Assets Dr   Cr + -	=	Liabilities Dr   Cr - +	+	Owner's Equity Dr   Cr - +
				Capital Dr   Cr - +
				Revenues Dr   Cr - +
				Expenses Dr   Cr + -
				<u>Withdrawals</u> Dr   Cr + -

- 4. The three basic types of accounts are ASSETS, LIABILITIES, and OWNER'S EQUITY. Two additional types of accounts are REVENUES and EXPENSES. They are part of owner's equity; revenues increase owner's equity and expenses decrease owner's equity.
- 5. The dual effects of an owner's investment in her business are (1) an increase in the entity's cash and (2) an increase in the owner's equity.
- 6.

				Unadjusted
<b>Business Transaction</b>	Entry in	Posting to		Trial
Creates Source Document $\rightarrow$	Journal	$\rightarrow$ Ledger	$\rightarrow$	Balance

7. The normal balance of an account is the side of the account—debit or credit—that records increases. Also, an account's normal balance is the side of the account that usually has the account's balance.

8.	Account Type	Normal Balance
	Assets	Debit
	Liabilities	Credit
	Owner's equity	Credit
	Revenues	Credit
	Expenses	Debit

- 9. Posting transfers amounts from the journal to the ledger. This is important because the transaction entries in the journal do not accumulate all the information related to each account. The accounts in the ledger hold that information. The ledger groups together transactions that are similar. For example, all cash transaction from the journal are grouped together in the ledger. Therefore, the transfer of data to the accounts in the ledger—that is, posting from the journal to the ledger—makes it possible to determine the balance in each account. Posting comes after journalizing.
- 10.  $\pm$  a. Investment by owner  $\underline{0}$  e. Cash payment on account
  - + b. Invoice customer for services f. Withdrawal of cash by owner
  - $\underline{0}$  c. Purchase of supplies on credit  $\underline{0}$  g. Borrowing money on a note payable
  - d. Pay expenses with cash + h. Sale of services on account
- 11. Posting's four steps are (1) copy the date of a transaction from the journal to the ledger, (2) copy the journal page number from the journal to the ledger, (3) copy (post) the dollar amounts of the debit and the credit from the journal to the ledger, and (4) copy the account numbers from the ledger back to the journal to indicate that the transaction amount has been posted to the ledger. Step 3, transferring the transaction amount to the account, is the fundamental purpose of posting.

12.	Cash	Sam Westman, Capital
	Accounts Receivable	Sales Revenue
	Note Payable	Salary Expense

- 13. "Accounts Payable has a credit balance of \$2,800" means that the entity owes \$2,800 to its creditors on a debt that is not evidenced by a formal note payable.
- 14. The two business transactions are (1) Spiffy Cleaners providing laundry service and earning revenue and (2) Bobby Ng paying cash to Spiffy Cleaners. The business's earning of the revenue increases the owner's equity in the company, and Ng's payment of cash increases the business's cash.
- 15. The *ledger* is the group of actual accounts in use that contain a record of activity in those accounts. The *chart of accounts* is a list of all the accounts set up in the ledger with their account numbers.
- 16. Accountants prepare a trial balance to check the accuracy of postings to accounts and determine whether the total debits equal the total credits. It is a useful summary of all the accounts and their balances and serves as an early error-detection tool.
- 17. A compound journal entry is one that affects more than two accounts.
- 18. This error does *not* cause the trial balance to be out of balance because both the total debits and the total credits are overstated by the same amount, \$5,400 (\$6,000 \$600).
- 19. Collecting cash on account has no effect on total assets because the increase in cash, which increases total assets, is offset by the decrease in accounts receivable, which decreases total assets.
- 20. Both systems depend on the accuracy of the initial analysis of the transaction and require that the journal entry be recorded correctly. Thereafter, a number of errors could occur in a manual system (such as slides, transpositions, errors in calculating account balances); these errors will affect a manual trial balance. Most computerized systems will not allow you to post a journal entry if it does not balance. Once the journal entry has been correctly recorded, the computerized accounting system performs much the same actions as accountants do in a manual system. These routine tasks are accomplished faster and with less risk of error with a computer. The computer does not recognize debits and credits, only increases and decreases by account type.

(5 min.) **S 2-1** 

(5 min.) **S 2-2** 

"The basic summary device in accounting is the <u>account</u>. The left side is called the <u>debit</u> side, and the right side is called the <u>credit</u> side. We record transactions first in a <u>journal</u>. Then we post (copy the data) to the <u>ledger</u>. It is helpful to list all the accounts with their balances on a <u>trial balance</u>."

(10 min.) **S 2-3** 

<u>C</u>	1.	Credit	A.	Record of transactions
<u>D</u>	2.	Normal balance	B.	Always an asset
<u>G</u>	3.	Payable	C.	Right side of an account
<u>A</u>	4.	Journal	D.	Side of an account where increases are recorded
<u>B</u>	5.	Receivable	E.	Copying data from the journal to the ledger
<u>J</u>	6.	Capital	F.	Increases in equity from providing goods and services
<u>E</u>	7.	Posting	G.	Always a liability
<u>F</u>	8.	Revenue	Н.	Revenues – Expenses (where expenses exceed revenues)
<u>H</u>	9.	Net loss	I.	Grouping of accounts
Ī	10.	Ledger	J.	Owner's equity in the business

Credits are *increases* in these types of accounts:

- Liabilities
- Capital
- Revenues

Credits are *decreases* in these types of accounts:

- Assets
- Withdrawals
- Expenses

Debits are *increases* in these types of accounts:

- Assets
- Withdrawals
- Expenses

Debits are *decreases* in these types of accounts:

- Liabilities
- Capital
- Revenues

### (5-10 min.) **S 2-5**

- a. To decrease Accounts Payable: debit
- b. To increase Cash: debit
- c. To increase Notes Payable: credit
- d. To increase Office Supplies: debit
- e. To increase Equipment: debit
- f. To increase Accounts Payable: credit
- g. To increase Land: debit
- h. To increase Owner, Capital: credit

(5 min.) **S 2-6** 

Normal Balances are:

- a. Accounts Payable credit
- b. Withdrawals debit
- c. Utilities Expense debit
- d. Cash-debit
- e. Service Revenue credit
- f. Rent Expense debit
- g. Accounts Receivable debit

(5 min.) **S 2-7** 

	Debit	Credit

### (10 min.) **S 2-17**

Incorrect Unadjusted Trial Balance

i						
	Hunter Environmental Consulting Unadjusted Trial Balance April 30, 2016					
ACCOUNT NUMBER	ACCOUNT	DEBIT	CREDIT			
1100	Cash	\$172,000				
1200	Accounts receivable	10,000				
1400	Office supplies	7,000				
1900	Land	100,000				
2100	Accounts payable		\$ 2,000			
3000	Lisa Hunter, capital	250,000*				
3100	Lisa Hunter, withdrawals	6,000				
4000	Service revenue		55,000			
5100	Rent expense	4,000				
5200	Salary expense	6,500				
5300	Utilities expense	<u> </u>				
	Total	<u>\$557,000</u>	<u>\$57,000</u>			

\*Incorrect; should be listed as a credit.

To correct this error:

- 1. Take the difference between total debits and total credits: \$557,000 \$57,000 = \$500,000
- 2. Divide the error by 2:  $$500,000 \div 2 = $250,000$
- 3. Locate \$250,000 on the trial balance. This matched the balance in the Capital account. The Capital account should have a credit balance.

## (10 min.) **S 2-18**

Incorrect Unadjusted Trial Balance

Hunter Environmental Consulting Unadjusted Trial Balance April 30, 2016					
ACCOUNT NUMBER	ACCOUNT	DEBIT	CREDIT		
1100	Cash	\$172,000			
1200	Accounts receivable	10,000			
1400	Office supplies	7,000			
1900	Land	100,000			
2100	Accounts payable		\$ 2,000		
3000	Lisa Hunter capital		250,000		
3100	Lisa Hunter, withdrawals	6,000			
4000	Service revenue		55,000		
5100	Rent expense	4,000			
5200	Salary expense	6,500			
5300	Utilities expense	<u> </u>			
	Total	<u>\$305,650</u>	<u>\$307,000</u>		

\*Incorrect; should be listed as \$1,500.

To correct this error:

- 1. Take the difference between total debits and total credits: \$305,650 \$307,000 = \$1,350
- 2. Divide the error by 9:  $$1,350 \div 9 = $150$
- 3. Locate \$150 on the trial balance. Utilities expense shows as \$150. This is the wrong amount, because if you look at the ledger the amount is actually \$1,500.

#### Exercises

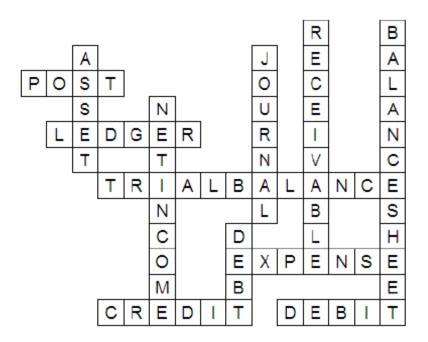

(10-15 min.) **E 2-1** 

TO: Office Manager

FROM: Student Name

Each time Prairie Tours received cash, accountants recorded the transaction in the *journal* by *debiting* the Cash account. Accountants recorded cash payments by making a journal entry that included a *credit* to Cash. Debits in the journal were *posted* as debits to the Cash account in the *ledger* and credits were posted as credits. At the end of the period, accountants listed each account, along with its balance, on the *trial balance*. Cash had a balance of \$57,800.

Instructional Note: Student responses may vary considerably.

(15 min.) **E 2-2** 

### (10-15 min.) E 2-3

Req. 1

Debit		Credit		Credit
ASSETS	=	LIABILITIES	+	OWNER'S EQUITY
\$75,500	=	\$46,300	+	\$28,500
(\$31,200 + \$4,000				
+ \$300 + \$40,000)		(\$1,300 + \$45,000)		

This accounting equation is out of balance because the complete equity balances are not shown. Net income or loss and withdrawals balances should be included in the equation.

#### Req. 2

Credit		Debit		Net Credit
REVENUES	_	EXPENSES	=	NET INCOME
\$7,600	_	\$5,100	=	\$2,500
	(\$400	+ \$1,500 + \$3,000 + \$	\$200)	

NET INCOME would represent a net *credit* because revenues (*credit* amounts) would exceed expenses (*debit* amounts).

NET LOSS would represent a net *debit* because expenses (*debit* amounts) would exceed revenues (*credit* amounts).

#### Req. 3

John Cassiar withdrew \$1,800 during the month.

Withdrawals are a *debit* amount.

	(continued) E 2-3
Req. 4	
Increase in owner's equity (credit amount)	
Net income	\$2,500
Decrease in owner's equity (debit amount)	
Withdrawals	1,800

### (10 min.) **E 2-4**

<u>\$ 700</u>

The type of account and its normal balance for each of these accounts is as follows:

Interest Revenue - revenue - credit a.

Net increase in owner's equity (*credit* amount)

- Accounts Payable liability credit b.
- Chapman Li, Capital equity credit c.
- Office Supplies asset debit d.
- Advertising Expense expense debit e.
- f. Service Revenue - revenue - credit
- Chapman Li, Withdrawals equity debit g.

#### Req. 4

(continued) E 2-18

(30-50 min.) E 2-19

### **Challenge Exercises**

a. Net income for March - Given as follows:

E	B. Fergu	s, Capital		
March Withdrawals	640	Feb. 28 Bal.	1,440	
		March Net	V	- \$1,600
		Income	X	= \$1,600
		Mar. 31 Bal.	2,400	

$$1,440 + X - 640 = 2,400$$
  
 $X = 1,600$ 

b. Total cash paid during March:

	Cas	sh		
Feb. 28 Bal.	1,800			
March Receipts	10,720	March Payments	Х	= \$10,880
Mar. 31 Bal.	1,640			
\$1,800 + \$10	·	= \$1,640 = \$10,880		

### (continued) E 2-19

#### c. Cash collections from customers during March:

	Accounts R	eceivable		
Feb. 28 Bal.	3,840			
March sales on account	12,160	March collections	х	= \$9,840
Mar. 31 Bal.	6,160			

\$3,840 + \$12,160 -	Х	=	\$6,160
	Х	=	\$9,840

d. Payments on account during March:

		Accounts Payable				
		Feb. 28 Bal.	2,080			
X = \$28	March payments	V	March purchases	500		
	on account	Χ	on account	508		
			Mar. 31 Bal.	2,560		

2,080 + 508 - X = 2,560X = 28 Req. 1 and 2

### Ethical Issue

Is Associated Charities Trust taking advantage of the bank's generosity or the other users of the charity?

Students who approve of the Associated Charities action can point out that the bank allows Associated Charities to overdraw its cash balance. In this view, Associated Charities is merely using a privilege the bank has granted. Most banks are civic-minded and are relatively generous with charitable organizations.

Students who disapprove may argue that Associated Charities is using the bank's money and presumably incurring interest charges. In this view, Associated Charities should curtail its spending until it has the money to cover its expenditures and maintain a positive balance. Alternatively, Associated Charities could sign a note payable to borrow the needed money. The related interest is the bank's compensation. By incurring this interest, the charity is essentially using future donations to pay the cost.

The bank is the key player in this case. Whether the bank approves or disapproves of the Associated Charities overdrafts is critical to the ethical decision. Approval by the bank turns the overdrafts into an unsecured loan to Associated Charities. Disapproval by the bank would no doubt be communicated to Mr. Glowa.

The other users (volunteers, recipients, donors, etc.) could also lose if the charity ends up in financial trouble.

Steps used to analyze ethical dilemmas:

- 1. Recognize an ethical situation and the ethical issues involved.
- 2. Identify and analyze the principal elements in the situation.
- 3. Identify the alternatives, and weigh the impact of each alternative on various users.

### **Problems**

### Group A

Req. 1 (transaction analysis)

(20-30 min.) **P 2-1A** Baycrest Cinema Company

Date		Analysis of Transactions
2016		
Nov.	1 1	Given in the problem; not required for Nov. 1 transaction. The expense Rent Expense is increased. Increases in expenses are recorded by debits; therefore, debit Rent Expense. The asset Cash is decreased. Decreases in assets are recorded by credits; therefore, credit Cash.

Req. 4

### (15-30 min.) P 2-5A

Dear Friend,

This trial balance lists the accounts of Archer Communications, along with their balances at December 31, 2017. The trial balance is an internal document used by accountants. It is not the same as a balance sheet or an income statement. The balance sheet and the income statement are financial statements used by managers, creditors, and potential investors for decision making.

The fact that the trial balance is in balance does not mean that Archer Communications is a sound company. It merely means that total debits equal total credits in the company ledger. This says nothing about the soundness of the business.

To compute Archer Communications' net income or net loss for the current period, subtract total expenses from service revenue. In this instance, Archer Communications earned net income of 55,000 [sales revenue of 151,000 minus total expenses of 96,000 (4,500 + 339,000 + 10,500 + 42,000)].

Instructional Note: Student responses may vary considerably.

# (15-20 min.) **P2-6A**

Minter Landscape Consulting

Minter Landscape Consulting						
Trial Balance						
June 30, 2017						
ACCOUNT	DEBIT	CREDIT				
Cash	\$ 2,900					
Accounts receivable	10,270					
Supplies	1,300					
Office furniture	3,600					
Land	44,600					
Accounts payable		\$ 4,200				
Notes payable		23,000				
R. Minter, capital		32,500				
R. Minter, withdrawals	2,900					
Consulting service revenue		10,300				
Advertising expense	600					
Rent expense	1,400					
Salary expense	2,100					
Utilities expense	330					
Total	<u>\$70,000</u>	<u>\$70,000</u>				

Explanations:

Cash: \$1,600 + \$1,300 = \$2,900Accounts receivable: \$10,000 - \$30 + \$300 = \$10,270Supplies: \$900 + \$400 = \$1,300Land: \$44,600 (amount given) Accounts payable: \$3,800 + \$400 = \$4,200R. Minter, capital: \$31,600 + \$900 = \$32,500R. Minter, withdrawals: \$2,000 + \$900 = \$2,900Consulting service revenue: \$7,300 + \$3,000 = \$10,300Advertising expense: \$600 (amount given) Rent expense: \$1,000 + \$200 + \$200 = \$1,400Utilities expense: \$410 - \$80 = \$330

#### Req. 4

## (15-30 min.) P 2-5B

Dear Friend,

This trial balance lists the accounts of Online Designs, along with their balances at December 31, 2017. The trial balance is an internal document used by accountants. It is not the same as a balance sheet or an income statement. The balance sheet and the income statement are financial statements used by managers, creditors, and potential investors for decision making.

The fact that the trial balance is in balance does not mean that Online Designs is a sound company. It merely means that total debits equal total credits in the company ledger. This says nothing about the soundness of the business. To compute Online Designs' net income or net loss for the current period, subtract total expenses from service revenue. As a matter of fact, Online Designs has experienced a net loss of 34,000 [service revenue of 130,000 minus total expenses of 154,000 (26,000 + 24,000 + 18,000 + 96,000)].

Instructional Note: Student responses may vary considerably.

## (15-20 min.) P 2-6B

Mackle Fitness

Mackle Fitne		
Trial Balance	ce	
July 31, 20 <sup>7</sup>	17	
ACCOUNT	DEBIT	CREDIT
Cash	\$ 41,000	
Accounts receivable	38,100	
Supplies	9,000	
Office furniture	19,500	
Fitness equipment	600,000	
Accounts payable		\$ 31,500
Notes payable		194,500
G. Mackle, capital		462,000
G. Mackle, withdrawals	75,000	
Service revenue		160,500
Advertising expense	4,500	
Rent expense	15,000	
Salary expense	42,500	
Utilities expense	3,900	
Total	<u>\$848,500</u>	<u>\$848,500</u>

Explanations: Cash: 47,000 - 6,000 = 41,000Accounts receivable: 30,000 - 900 + 9,000 = 38,100Supplies: 7,500 + 1,500 = 9,000Office furniture: 19,500 (amount given) Accounts payable: 30,000 + 1,500 = 31,500G. Mackle, capital: 442,500 + 19,500 = 462,000G. Mackle, withdrawals: 55,500 + 19,500 = 75,000Service revenue: 73,500 + 87,000 = 160,500Advertising expense: 4,500 (amount given) Rent expense: 9,000 + 33,000 + 33,000 = 15,000Utilities expense: 3,000 + 900 = 3,900

#### **Challenge Problems**

## (15-20 min.) **P 2-1C**

#### Req. 1

The students may need a hint. Use the statement of Owner's Equity as a model.

Owner's Equity	+	Owner's	_	Owner's equity	=	Income during
at the end of the		withdrawals or		at the beginning		the year
year		expenditures		of the year		
(A-L)				(A-L)		

In other words, Canada Revenue Agency values what Donna has at the end of the year and subtracts what she had at the beginning (\$8,000 in this case) plus an estimate of what she spent on herself during the year; the remainder is the income she must have earned during the year and the amount on which she should be taxed.

#### Req. 2

Note - no additional owner's investments have occurred.

The accounting concept is the accounting equation restated. Use the statement of Owner's Equity equation.

Beg OE	I	nvestment		Withdrawals		Net income		End OE
8,000	+	0	_	0	±	Х	=	?

# (15-20 min.) P 2-2C

While Jack Russell may know his income each year, he doesn't know where his income came from (crops? calves? lambs?) nor what expenses he incurred to earn the income. He doesn't know whether each part of his operation is profitable or not. He doesn't know whether he paid too much tax because of missing expenses he could have deducted.

A formal accounting system would allow Jack to keep track of revenues and expenses by product line. In other words, it would provide the details of his income.

It is true that such a system would be more costly in terms of time and money than the present system. Jack would have to assess whether the additional information is worth the additional cost. There are many inexpensive accounting packages available on the market that are easy to use. Continuing using the present system is a questionable decision as the cash basis is not acceptable as an accounting process.

(20-30 min.) P 2-3C

#### Req. 1

a.	Cash	180	
	Accounts Receivable		180
b.	Equipment	350	
	Supplies		350
c.	Ledger should be corrected by increasing Fees Income by \$80	)1	
d.	Ledger corrected by debiting Salaries Expense by \$900.		
e.	Ledger for Accounts Payable must be corrected by debiting		
	the account for $466 (206 + 260)$ .		
f.	K. Kala, Withdrawals	600	
	Salaries Expense		600

#### <u>Req.</u>2

Kala's Kabinet Konnection							
Trial Balance							
Decembe	December 31, 2017						
ACCOUNT	DEBIT	CREDIT					
Cash	\$3,020ª						
Accounts receivable	3,151 <sup>b</sup>						
Supplies	450°						
Equipment	3,350 <sup>d</sup>						
Accounts payable		2,200 <sup>e</sup>					
Notes payable		1,200					
K. Kala, capital		8,400 <sup>h</sup>					
K. Kala, withdrawals	400						
Fees income		3,181 <sup>f</sup>					
Salaries expense	3,700 <sup>g</sup>						
Office expense	<u>910</u>						
Total	<u>\$14,981</u>	<u>\$14,981</u>					

Explanations:

<sup>a.</sup> \$2,840 + \$180 = \$3,020

<sup>b.</sup> \$3,331 - \$180 = \$3,151

<sup>c.</sup> \$800 - \$350 = \$450

<sup>d.</sup> 3,000 + 350 = 3,350

<sup>e.</sup> \$2,666 - (\$206 + \$260) = \$2,200

<sup>f.</sup> \$2,380 + \$801 = \$3,181

<sup>g</sup> \$3,400 + \$900 - \$600 = \$3,700

<sup>h.</sup> This is the "plug" figure to balance the trial balance.

Advertising expense	1,200						
Commission expense	12,400						
Gas expense	1,000						
Interest expense	200						
Rent expense	800						
Utilities expense	600						
Total	<u>\$86,100</u>	<u>\$86,100</u>					

Req. 4 (Net income or loss for first month of operations)

Car Finders						
Income Statement						
For the Month Ended March 31, 20	17					
Revenue:						
Advising revenue		\$28,100				
Expenses:						
Advertising expense	\$1,200					
Commission expense	12,400					
Gas expense	1,000					
Interest expense	200					
Rent expense	800					
Utilities expense	600					
Total expenses		16,200				
Net income <u>\$11,900</u>						

Recommendations: Continue the business because expected net income exceeds the target amount. Consideration should be given for the fact that the income is not very high.

Car Finders

#### (15-30 min.) Decision Problem 2

- 1. Double-entry bookkeeping has the advantage that it records both sides (the "giving" side and the "receiving" side) of a business transaction. It is easy to spot errors in a double-entry system because total debits must always equal total credits.
- 2. The bank is not misusing the term *credit*. When you deposit money in the bank, the bank debits Cash (received from you) and credits Deposits Payable (to you). It is the liability account, Deposits Payable, that is the source of the term *credit*. This is why a bank *credit* is good for the depositor. It means you have more money in the bank.
- 3. Revenues are credits because they indicate an increase in owner's equity, which is a credit-balance account. Expenses are debits because they indicate a decrease in owner's equity. (Confusion arises with these relationships because of the other side of revenue and expense transactions. For example, Cash may be received for a revenue transaction. Cash is debited as Revenue is credited to account for the transaction. Cash may be paid for an expense transaction. Cash is credited as Expense is debited.)\*
  - \* *Instructional Note:* Students probably will not include this parenthetic information in their answers.

#### **Financial Statement Cases**

#### (10-15 min.) Financial Statement Case 1

- 1. Indigo Books & Music Inc. presents its financial statements in Canadian Dollars. This is called the "functional currency."
- 2. Amounts are recorded in thousands of dollars.
- 3. March 29, 2014 is the date of the most recent financial statement. In 2013 it was dated March 30.
- 4. Yes. The current financial statements follow Canadian generally accepted accounting principles for publicly accountable enterprises. Indigo is a publicly traded company so it must follow IFRS for all statements for fiscal years that start after January 1, 2011. It states so in Note 3. Basis of Preparation.

## (20-30 min.) Financial Statement Case 2

#### Req. 2

All amounts in millions of dollars

Journal								
DATE POST.								
201	3	ACCOUNT TITLES AND EXPLANATIONS	REF.	DEBIT	CREDIT			
Dec.	a.	Accounts Receivable		950				
		Service Revenue			950			
	b.	Goods and Services Purchased		1,100				
		Cash			1,100			
	C.	Financing Costs		447				
		Cash			447
