2. Novartis created the Novartis Research Institute for Tropical Diseases in Singapore. The institute is unique because it is a not-for-profit organization that focuses on the discovery of new drugs for the treatment of neglected diseases, such as dengue fever and tuberculosis. This is not only good business, but also which of the following?
 - a. mandated by local court rulings
 - b. socially responsible
 - c. unrelated to any ethical motivation
 - d. environmental marketing

ANS: B

Social responsibility is the duty that business feels for the welfare of society. By helping developing nations, Novartis is helping to meet the needs of society.

REF: 27-28

OBJ: 02-9

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Higher Order

6. What is the term for the idea that socially responsible companies will outperform their peers by focusing on the world's social problems and viewing them as opportunities to build profit and help the world at the same time?
- sustainability
 - philanthropy
 - cause marketing
 - creative ethics

ANS: A

PTS: 1

REF: 27-28

OBJ: 02-9

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Remember

7. Which of the following statements best characterizes the theory of sustainability?
- Sustainability is an internal process in which companies match resources and objectives.
 - Sustainability is the idea that socially responsible companies will outperform their peers when they focus on the world's problems as marketing opportunities.
 - Sustainability cannot be socially responsible without a code of ethics and managerial support of that code.
 - Sustainability and ethical behaviour should never be viewed as the means of obtaining a competitive advantage.

ANS: B

Sustainability is the idea that socially responsible companies will outperform their peers by focusing on the world's social problems and viewing them as opportunities to build profit and help the world at the same time.

REF: 27-28

OBJ: 02-9

TOP: AACSB Reflective Thinking| TB&E Model Strategy

BLM: Higher Order

9. What are the four components of the pyramid of corporate social responsibility?
- sustainability, creativity, profit, and culture
 - economic, legal, ethical, and philanthropic
 - organizational, financial, social, and cultural
 - sustainability, legality, creativity, and competition

ANS: B

PTS: 1

REF: 27

OBJ: 02-9

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Remember

10. Which of the following statements best describes ethics?
- Ethics are the moral principles or values that generally govern the conduct of an individual.
 - Ethics is the standard of behaviour upon which legal actions will be made.
 - Ethics are unrelated to social behaviour.
 - Ethics and values are only situation-specific

ANS: A

PTS: 1

REF: 28

OBJ: 02-10

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Higher Order

11. Which of the following sayings best describes how people with conventional morality act?
- Don't put all of your eggs in one basket.
 - When in Rome, do as the Romans do.
 - Be wary of strangers bearing gifts.
 - A rolling stone gathers no moss.

ANS: B

PTS: 1

REF: 30

OBJ: 02-10

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Higher Order

12. Cheetera Johnson is a calculating, self-centred salesperson. She never engages in relationship marketing. She looks on any sales situation as a “win-lose” situation, and she believes any legal method she can use is justified when she wins. At which stage of ethical development is Johnson most likely to be?
- Pre-conventional morality
 - transformationalism
 - conventional morality
 - egocentrism

ANS: A

Preconventional morality is the most basic level of morality.

PTS: 1

REF: 30

OBJ: 02-10

TOP: AACSB Analytic| TB&E Model Research

BLM: Higher Order

13. Shannon Ross is a sales manager for Pampered Chef, a company that sells, through parties, kitchen tools and other aids for cooking. She is very concerned about making sure her salespeople understand the importance of treating each customer fairly and developing long-term relationships with them. She asks that before a sale is made, the salesperson should make sure customers can afford the items and are not buying due to social pressures. At which stage of ethical development is Ross most likely to be?
- preconventional morality
 - traditional morality
 - conventional morality
 - postconventional morality

ANS: D

Postconventional morality is that of the mature adult. At this level, the individual is more concerned about others than about him- or herself.

PTS: 1

REF: 30

OBJ: 02-10

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Higher Order

14. The use of ethical decision making is affected by which of the following?
- the influence of junior managers
 - the probability of harmful outcomes
 - depends on the number of countries to be affected
 - depends on the magnitude of possible consequences

ANS: D

PTS: 1

REF: 29-30

OBJ: 02-10

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Higher Order

15. Which of the following factors tends to influence ethical decision making and judgments?
- probability of a harmful outcome
 - length of time between the onset of consequences and legal action
 - level of multiculturalism
 - number of employees to be affected

ANS: A PTS: 1 REF: 29-30 OBJ: 02-10
TOP: AACSB Ethics| AACSB Diversity| TB&E Model Strategy
BLM: Higher Order

16. Like many other professional organizations and businesses, the Society of Civil Engineers has developed a formal, written guideline to help its members make better ethical decisions. This document would be best described by which of the following terms?
- behavioural practice
 - moral ruling
 - code of ethics
 - direction of value

ANS: C
While codes of ethics are most often defined as guidelines for businesses, they are also important moral guides for professional organizations.

PTS: 1 REF: 30 OBJ: 02-10
TOP: AACSB Ethics| TB&E Model Product BLM: Remember

17. Which of the following statements best describes the effect a code of ethics has on employees?
- A code helps employees avoid confusion when determining whether their decisions are ethical.
 - A code can be an effective external control on behaviour.
 - The process of formulating the code facilitates discussions that ultimately create weakened decisions.
 - A code helps employees identify what the law recognizes to be acceptable business practices.

ANS: A PTS: 1 REF: 30 OBJ: 02-10
TOP: AACSB Ethics| TB&E Model Strategy BLM: Higher Order

18. A human resources manager is creating a code of ethics for the employees of the retirement home she works for. Which of the following is an ethics principle she should keep in mind as she creates this code?
- a. The principles should not upset current retirement home workers and future job applicants.
 - b. The principles should be fair to administrative staff.
 - c. The principles of the code should be a result of input from senior management
 - d. Principles can deviate from common practices because of the prestigious nature of the facility.

ANS: A

An unethical code would presume that the company is an exception to a common practice in the industry.

PTS: 1 REF: 29-30 OBJ: 02-10

TOP: AACSB Ethics| TB&E Model Strategy

BLM: Higher Order

19. What is the term for a defined group that managers believe is most likely to buy a firm's product?
- a. target market
 - b. buying centre
 - c. aggregated unit
 - d. demographic sample

ANS: A PTS: 1 REF: 15 OBJ: 02-1

BLM: Remember

20. Johnson Publishing Company, the world's largest Caribbean-owned publishing company and home of *Rumpunch* magazine, has forged an alliance with Dan River, Inc., to create luxury bed and bath products for the newly developed Rumpunch Home brand. Rumpunch Home will use the publisher's long history and expertise to market to various demographics of the Caribbean market. Which of the following terms best describes who Rumpunch wants to sell to?
- a. target market
 - b. buying centre
 - c. aggregated unit
 - d. consumer cluster

ANS: A

A target market is a defined group that managers believe is most likely to buy a firm's product.

PTS: 1 REF: 15 OBJ: 02-1

TOP: AACSB Reflective Thinking| TB&E Model Customer

BLM: Higher Order

21. A target market is best characterized by which of the following statements?
- a. Target markets will remain stable over time, considering economic climates.
 - b. Target markets change over time as consumers drop in or out of the market, and as tastes change.
 - c. Target markets are not strongly affected by changes in the external environment.
 - d. Target markets cannot be specifically defined according to age, income, or location because these factors are continually changing.

ANS: B

Target markets are defined and described, but they are always changing in response to environmental changes.

PTS: 1

REF: 15

OBJ: 02-1

TOP: AACSB Reflective Thinking| TB&E Model Customer

BLM: Higher Order

22. Colourific is a relatively new competitor for Crayola colouring products. At the beginning of the new year for elementary students, the people buying school supplies is whom Colourific wants to sell to, they would be classified as which of the following?
- a. target market
 - b. buying centre
 - c. mass market
 - d. consumer sample

ANS: A

A target market is a defined group that managers believe is most likely to buy its products.

PTS: 1

REF: 15

OBJ: 02-1

TOP: AACSB Reflective Thinking| TB&E Model Marketing Plan

BLM: Higher Order

23. Which of the following is the most accurate description of the external environment?
- a. can be controlled in much the same manner as the internal marketing mix
 - b. cannot be influenced by marketing managers
 - c. only changes very slowly over time
 - d. must be continually monitored by marketing managers

ANS: D

PTS: 1

REF: 16

OBJ: 02-1

TOP: AACSB Reflective Thinking| TB&E Model Strategy

BLM: Higher Order

24. The external environment is a strong influence on a target market. What can it be a source of for the marketing manager?
- a. opportunities and threats
 - b. threats and strengths
 - c. environmental loopholes
 - d. opportunities and weaknesses

ANS: A

The external environment can provide opportunities to serve new and changing needs, as well as warnings about changes that could threaten the current position of the firm. Students will need to remember what a SWOT analysis is to answer this question.

PTS: 1

REF: 16

OBJ: 02-1

TOP: AACSB Reflective Thinking| TB&E Model Customer

BLM: Higher Order

25. What can marketing managers often influence, but NOT control?
- a. where advertising is placed
 - b. the external environment
 - c. the sales force
 - d. the distribution strategy

ANS: B

The external environment is basically uncontrollable, but the other answers are part of the marketing mix.

PTS: 1

OBJ: 02-2

TOP: AACSB Reflective Thinking| TB&E Model Strategy

BLM: Higher Order

26. As technology continues to offer more methods for shopping on the Internet, manufacturers and traditional retailers are finding themselves in direct competition with each other. In this case, manufacturers and retailers cannot intelligently plan for the future unless marketing managers understand which of the following?
- a. their competitive advantage
 - b. the latest technological innovations
 - c. how consumers are assimilating new technology
 - d. changing social attitudes toward shopping

ANS: C

PTS: 1

REF: 23-24

OBJ: 02-6

TOP: AACSB Technology| TB&E Model Online/Computer

BLM: Higher Order

27. What is apparently the most difficult external variable for marketing managers to forecast, influence, or integrate into marketing plans?
- a. technology
 - b. social factors
 - c. demography
 - d. competition

ANS: B

Social factors and changes are difficult to foresee, because they are usually slow and/or small changes. Also, it is very difficult for one company to affect social factors in any appreciable manner.

PTS: 1

REF: 16

OBJ: 02-2

TOP: AACSB Reflective Thinking| TB&E Model Marketing Plan

BLM: Higher Order

28. The newest Coca-Cola vending machines have interactive screens that run advertisements and allow users to obtain free photos of themselves and ringtones after they have bought a drink. The reason for the introduction of this new-style vending machine is to “allow the company to interact more directly with its digital-age customers.” Around the world, Coke and junk food, in general, are facing television advertising bans. By developing this machine, and by modifying its external environment through the use of technology, what has Coke engaged in?
- a. re-engineering
 - b. environmental management
 - c. social machinations
 - d. technology diversity

ANS: B

When a company implements strategies that attempt to shape the external environment within which it operates, it is engaging in environmental management.

30. Politicians tried to pass a bill requiring concert promoters and venue operators to print parental warnings on tickets and advertisements for concerts and shows by performers whose recordings have already been given content advisory labels. Promoters and venue operators prevented the passage of this bill that would have required them to make value judgments they felt ill equipped to make. What were the concert promoters and venue operators engaging in?
- a. internal marketing
 - b. illegal practices
 - c. environmental management
 - d. corporate espionage

ANS: C

Attempting to influence external environmental factors is known as environmental management.

PTS: 1

REF: 16

OBJ: 02-1

TOP: AACSB Reflective Thinking| TB&E Model Promotion

BLM: Higher Order

31. Consumers buying lumber are increasingly asking the retailers from whom they are buying the products if the lumber is from a nation that is destroying its environment. As a result, commercial buyers are asking Indonesian suppliers the same questions. Approximately 80 percent of the lumber produced in Indonesia is illegally logged. Two logging companies in Indonesia are putting computerized bar codes on their logs to show they were legally harvested. The companies hope this coding will provide evidence that they are engaging in which of the following?
- a. proactive evaluation
 - b. transactional control
 - c. synergistic control
 - d. environmental management

ANS: D

Attempting to influence external environmental factors is environmental management.

TOP: AACSB Diversity| TB&E Model Product

BLM: Remember

41. More and more people piecing together a variety of interests, products, and services and not conforming to traditional stereotypes. What are they enjoying?
- a. well-defined segments
 - b. component lifestyles
 - c. simple multipurpose products
 - d. conformity and cohesiveness

ANS: B

PTS: 1

REF: 16

OBJ: 02-2

TOP: AACSB Reflective Thinking| TB&E Model Product| TB&E Model Customer

BLM: Remember

42. Donna Lassiter is a college teacher. She is also a rock climbing expert, a foster parent, and an accomplished violinist. Her other interests include glass blowing, gourmet cooking, and classic movies. How would marketers categorize Lassiter?
- a. as fitting into a caregiver segment
 - b. as a member of the typical education-based target segment
 - c. as not belonging to any target market
 - d. as having a component lifestyle

ANS: D

A component lifestyle pieces together products and services that fit a variety of interests and needs, and does not conform to a certain stereotype.

PTS: 1

REF: 16-17

OBJ: 02-2

TOP: AACSB Reflective Thinking| TB&E Model Customer

BLM: Higher Order

43. Anderson owns three dogs, loves to cook, is a member of a city arts commission, enjoys talk radio, likes to ride motorcycles, and is a rodeo competitor. All of these diverse needs and interests influence his choices of the goods and services he buys. What does Anderson have?
- a component lifestyle
 - a demographically oriented lifestyle
 - a multicultural orientation
 - a fragmented-market orientation

ANS: A

Component lifestyles are the practice of choosing goods and services that meet one's diverse needs and interests rather than conforming to a single, traditional lifestyle.

PTS: 1

REF: 16-17

OBJ: 02-2

TOP: AACSB Reflective Thinking| TB&E Model Customer

BLM: Higher Order

44. Why has the component lifestyle of many of today's consumers proven to be such a challenge to marketers?
- People with component lifestyles expect multi-tiered pricing.
 - The needs of people with component lifestyles are in constant flux.
 - Communication with people who have component lifestyles is very difficult.
 - There are no specialized lifestyle magazines that reach small segments of markets.

ANS: C

Communication with complex and diverse consumers is the challenge presented by component lifestyles.

In their desire to boost ratings, television news programs have done just about everything. One famous example is the *Fifth Estate* segment about General Motors' 1973–1987 pickup trucks, which was entitled "Waiting to Explode?" The 15-minute segment contained a short, dramatic portion that featured two side-impact tests that the *Fifth Estate* had run to purportedly demonstrate what could happen when the GM pickup trucks were struck in the side. GM sued the *Fifth Estate* alleging defamation and damage to its reputation. GM argued that the *Fifth Estate* segment was an unscientific demonstration, was inappropriate, and did not support the position that GM's trucks were defective. The *Fifth Estate* admitted that the crash was rigged and apologized to GM and the *Fifth Estate* viewers.

110. Refer to the *Fifth Estate* and GM. The *Fifth Estate* executives have to be concerned with the long-range welfare of the network and its relationships with viewers. What is this concern called?
- a. consumerism
 - b. corporate social responsibility
 - c. ethical dilemma
 - d. conventional morality

ANS: B

Corporate social responsibility is the concern of business for social welfare. This concern is demonstrated by managers considering the long-range best interests of the company and its relationship to the society within which it operates.

PTS: 1

REF: 27-28

ESSAY

1. According to Celia Moore, an IBM corporate manager, corporate social responsibility is "a core business issue for IBM." What does she mean by this statement?

ANS:

Corporate social responsibility is the concern of business for social welfare. This concern is demonstrated by managers who consider the long-range best interests of the company and the company's relationship to the society within which it operates. Moore simply means all IBM managers realize that being socially responsible is good business, and all are committed to this mission.

3. Describe the pyramid of corporate social responsibility. Include a description of the pyramid theory and all of its components.

ANS:

The pyramid of corporate social responsibility portrays four kinds of responsibility:

economic, legal, ethical, and philanthropic. Economic performance is the foundation for the structure, because if the company does not make a profit, then the other three responsibilities are moot. While maintaining a profit, business is expected to obey the law, do what is ethically right, and be a good corporate citizen.

- Philanthropic responsibilities are to be a good corporate citizen, contribute resources to the community, and improve the quality of life.
- Ethical responsibilities are to be ethical; to do what is right, just, and fair; and to avoid harm.
- Legal responsibilities are to obey the law, which is society's codification of right and wrong, and play by the rules of the game.
- Economic responsibilities are to be profitable; because profit is the foundation on which all other responsibilities rest.

4. A recent study of marketing professionals found their ethical judgments were influenced by several factors. List four of these factors. How do these factors contribute to the ethical environment of a marketing organization?

ANS:

Ethical judgments were influenced by these factors:

1. *The extent of ethical problems within the organization:* The healthier the ethical environment, the greater the likelihood that marketers will take a strong stand against questionable practices.
2. *Top-management actions on ethics:* Top management can have a profound influence on the ethical behaviour of marketing professionals by performing actions that encourage ethical behaviour or discourage unethical behaviour. Setting an example communicates an ethical philosophy.
3. *Potential magnitude of the consequences:* The greater the harm, the more likely marketers will recognize that the action is unethical.
4. *Social consensus:* The greater the degree of agreement among other marketers that an action is harmful, the more likely that marketers will recognize it as unethical.
5. *Probability of harmful outcomes:* Higher probabilities of harmful outcomes mean that marketers are more likely to realize that the actions are unethical.
6. *Length of time between the decision and the onset of consequences:* The shorter the time frame between the action and the onset of negative consequence, the more likely the marketer is to realize it was unethical.
7. *Number of people to be affected:* The more people affected by a negative outcome, the more likely that marketers will recognize the decision as unethical.

5. You are an ethics consultant, and a group of managers have asked you for some guidelines to determine the ethicality of a decision. You tell the managers that one cannot guarantee the rightness of a decision, but a checklist can improve the chances of a decision being ethical. What are six questions you would tell the managers to put on this checklist?

ANS:

Students' answers may vary. Review Learning Objective 3.2. Examples include:

Does my decision treat me or my company as an exception to a common practice or convention?

Do I think I have the authority to break a rule?

Would I offend customers by telling them about my decision?

Would I offend qualified job applicants by telling them about my decision?

Have I made this decision without input from others, so important issues might be overlooked?

Does my decision benefit one person or group but hurt or not benefit other individuals or groups?

Will my decision create conflict between people or groups in the company?

Will I have to pull rank (use coercion) to enact my decision?

Would I prefer to avoid the consequences of this decision?

Did I avoid truthfully answering any of the above questions by telling myself that I could get away with it?

6. What is environmental scanning? Give an example of an opportunity and a threat that environmental scanning might identify for a suntan lotion company.

ANS:

Environmental scanning occurs when a company creates a team of specialists to collect and evaluate environmental information. This process allows marketing managers to understand the external environment so that plans for the future can be made. The objective of gathering environmental data is to identify future market opportunities and threats.

Threats that might be identified for a suntan lotion company include fear of skin cancer by sunbathers, other health concerns, or lack of leisure time to spend in the sun. Opportunities might include the need for sun-blockers, waterproof formulas, or children's skin protection products. Another opportunity might be the status element associated with a tan.

9. What is a component lifestyle? Describe how a college student follows a component lifestyle. Use specific examples.

ANS:

Component lifestyles mean that citizens are choosing products and services that meet diverse needs and interests rather than conforming to traditional stereotypes. Component lifestyles increase the complexity of consumers' buying habits.

Although the stereotypical student adopts a "student lifestyle" and makes purchases related to this lifestyle (textbooks, school supplies, pizzas, and so on), each student may also purchase according to alternative lifestyles. These may include hobbies, outside jobs, a family situation, or other interests. The student may also be a gourmet cook, fitness enthusiast, skier, or computer buff.

PTS: 1 REF: 16-17 OBJ: 02-4

TOP: AACSB Reflective Thinking| AACSB Analytic| TB&E Model Strategy

10. What are baby boomers? List and describe the four groups into which baby boomers have been subdivided.

ANS:

Baby boomers are defined as people born between 1946 and 1964. They are the largest demographic segment in the population today, but their influence varies depending upon further segmentation within the baby boomer segment. The four segments are (1) “looking for balance” boomers, (2) “confident and living well” boomers, (3) “at ease” boomers, and (4) “overwhelmed” boomers.

“Looking for balance” boomers represent an excellent market for companies that can offer them time-saving products. Companies engaged in travel-related food service and businesses will find key opportunities in this segment.

“Confident and living well” boomers have the highest income and relish the chance to be the first to purchase a new product. They are technologically oriented and care about what is trendy. Travel is one of their favourite activities.

“At ease” boomers do not worry about the future. They express the least interest in luxury products and don’t travel much. The segment is primarily home-centric. They are not interested in new products.

“Overwhelmed” boomers have the lowest income. They worry about the future. Health is a big concern for them. They are also the least sociable segment. They do not readily accept new technology.

TOP: AACSB Diversity| AACSB Analytic | TB&E Model Customer| TB&E Model Strategy

11. Define multiculturalism and discuss its impact on the marketing function.

ANS:

A multicultural society is characterized by two or more large racial and ethnic groups as opposed to one dominant racial or ethnic group. Multiculturalism occurs when all ethnic groups in an area are roughly equally represented. It means that various ethnic groups can no longer be expected to assimilate into existing national culture. This means that marketers must create specialized programs to target specific ethnic groups. From a marketing perspective, multiculturalism increases the complexity of the marketing function. Demand for goods and services will often be culture-driven. Within the large ethnic markets, the marketing mix will be further complicated by many submarkets.

PTS: 1 REF: 20-21 OBJ: 02-6
TOP: AACSB Diversity| AACSB Analytic| TB&E Model Customer| TB&E Model Strategy

12. One component of the external environment marketing managers must understand and react to is the economic environment. Briefly describe the four economic areas of greatest concern to marketers and the marketing implications of trends in these four areas.

ANS:

Rising incomes: Incomes are rising in Canada, primarily due to dual-income families. Increases in disposable and discretionary income allow families and individuals to afford the “good life.” Marketers can now concentrate efforts on higher-quality, higher-priced goods and services.

Purchasing power: This is also known as the cost of living. When income is higher than the cost of living, people have more discretionary income to spend on nonessential items.

Inflation: In recent years, Canada has not experienced high inflation; instead, prices do not rise quickly, employment levels are high, and purchasing power is up. Again, this allows marketers to concentrate efforts on higher-priced goods and services. During periods of inflation, marketers should be aware that brand loyalty decreases and consumers stock up on bargain products; consequently, pricing strategies should be monitored carefully.

Recession: This period of economic activity is when income, production, and employment fall, which reduces demand. Marketers can counter these effects with value-improved products, customer service, replacement parts, and price freezes.

PTS: 1 REF: 21-22 OBJ: 02-7
TOP: AACSB Analytic| TB&E Model Strategy

13. Describe inflation and recession. Present a marketing strategy that would allow a company to continue operating in an inflationary period and in a recessionary period.

ANS:

Inflation is a measure of the decrease in the value of money, expressed as the percentage reduction in value since the previous year. It may result in decreased purchasing power. Marketers should be aware brand loyalty will decrease, and consumers will tend to stock up. This means short-term promotions (coupons and sales) will be effective. Additionally, marketers should carefully evaluate pricing strategies because consumers will try to make the most economical purchases possible.

A recession is a period of economic activity when income, production, and employment tend to fall, all of which reduce demand. Marketers can try to improve existing products, because a recession increases demand for products and services that (1) are economic and efficient, (2) offer value, (3) help organizations streamline practices/procedures, and (4) improve customer service. Marketers can also offer replacement parts to postpone purchasing new equipment and materials. Finally, marketers should stabilize prices and promote the product’s value.

Chapter 2 – The Marketing Environment, Social Responsibility, and Ethics

14. Miracle Sealant Company is a business that makes and sells environmentally safe products to preserve the beauty of tile and stone used on floors, in bathrooms, and on kitchen countertops. Assume Miracle Sealant is operating in an economic recession. What three marketing strategies can it use to survive this decline in economic activity? Give examples of specific actions the company can take for each of the strategies.

ANS:

Students' examples will vary.

Miracle Sealant can improve its existing products by offering promotional videos for do-it-yourselfers. It can add new products to its product lines, such as grout, brushes, and paint specifically designed for use on tile and stone.

The company can maintain and expand its customer service by offering financial incentives to its retailers to order more or by extending more credit.

The company can emphasize top-of-the-line products and promote product value. It can emphasize the fact that its products are not harmful to the environment.

15. You are a young entrepreneur who has recently received a multimillion-dollar research grant for studying ways to improve urban life. Discuss the difference between basic and applied research, and give specific examples of each type of research your new company will conduct.

ANS:

Basic research (or pure research) attempts to expand the frontiers of knowledge but is not aimed at a specific, pragmatic problem. This type of research would explore broad issues of defining the good and bad points of life in Canada. This research could also explore values as well as social or demographic change, or issues in any of the variables of the external environment. Applied research attempts to develop new or improved products. Students could provide specific examples of products that can help improve life in Canada, such as solar cars, energy-efficient or nonpolluting motors, products that work faster to save time, or nonfat products to save calories. Many products would be high-tech in nature.
