CHAPTER ONE

What is Multicultural Psychology?

1. A 2006 survey by Maton and colleagues indicated that ___% of psychology faculty in graduate programs are not ethnic minorities.
 - a. 33%
 - b. 55%
 - c. 66%
 - d. 88%

Answer: **d.**

Page Ref: **4**

2. According to the U.S. Bureau of the Census in 2007, _____ counties in the U.S. has a population that is more than 50% minority.
 - a. one in 3
 - b. one in 10
 - c. one in 30
 - d. one in 50

Answer: **b.**

Page Ref: **4**

3. The percentage of psychology articles published on people of color is
 - a. less than 5%
 - b. about 10%
 - c. about 30%
 - d. about 45%

Answer: **a.**

Page Ref: **4**

4. An emphasis on cultural and sociocultural influences is characteristic of:
 - a. cultural psychology
 - b. cross-cultural psychology
 - c. multicultural psychology
 - d. an etic approach

Answer: **c.**

Page Ref: **8**

5. Which of the following is NOT true about race?
- a. it involves a group of people with origins in a single geographic area
 - b. there is more genetic variation within than between racial groups
 - c. its meaning is socially constructed
 - d. there are genetic markers that distinguish racial groups

Answer: **d.**

Page Ref: **8**

6. A person who has internalized negative stereotypes about African Americans has a(n) _____ identity.
- a. internalization
 - b. oppressed minority
 - c. pre-encounter miseducation
 - d. immersion

Answer: **c.**

Page Ref: **11**

7. A person who is involved in an ethnic student organization and is considered a “militant” would likely be in the _____ stage of identity.
- a. contact
 - b. immersion-emersion
 - c. internalization
 - d. disintegration

Answer: **b.**

Page Ref: **11**

8. A humanist identity in Sellers’ Multidimensional Model of Racial Identity is similar to which of the following stages in Cross’ model of racial identity?
- a. autonomy
 - b. immersion-emersion
 - c. pre-encounter
 - d. encounter

Answer: **c.**

Page Ref: **14**

9. In which of Poston's (1990) stages of biracial identity does a person tend not to identify with one racial group over the other?
- a. enmeshment/denial
 - b. personal identity
 - c. moratorium
 - d. appreciation

Answer: **d.**

Page Ref: **15**

10. The optimal mode of functioning, according to LaFromboise, Coleman, and Gerton's (1993) models of acculturation, is:
- a. multicultural
 - b. fusion
 - c. alternation
 - d. acculturation

Answer: **c.**

Page Ref: **18**

CHAPTER TWO

Multicultural Research Methods

1. College samples are most representative of _____ young adults.
 - a. European American
 - b. African American
 - c. Latino American
 - d. Asian American

Answer: **d.**

Page Ref: **21**

2. Which of the following research procedures is least likely to be evidence of cultural competence?
 - a. Communicating in the participants' native language
 - b. Assessing the cultural competence of a research team
 - c. Including a diverse sample
 - d. Incorporating culture into a research design

Answer: **c.**

Page Ref: **23**

3. According to 2007 Pew survey, Internet research samples are likely to be most representative of
 - a. African Americans
 - b. Men of all ethnic groups
 - c. European Americans
 - d. Latino/a Americans

Answer: **d.**

Page Ref: **24**

4. If a group of Asian Americans is found to have a higher level of alexithymia (difficulty reading emotions) than a group of African Americans, the basis of the difference is
 - a. cultural
 - b. socioeconomic
 - c. response style
 - d. unknown

Answer: **d.**

Page Ref: **27**

5. Asking someone about what languages they speak before they participate in an experiment is an example of
- priming
 - nativity
 - test bias
 - a poorly designed study

Answer: **a.**

Page Ref: **25**

6. Questions about_____ have been found to facilitate Asian American women's math performance.
- single sex vs. coed dorms
 - generational status
 - being a worthy member of a racial group
 - about other people's views of Asian Americans

Answer: **b.**

Page Ref: **25**

7. "Thinking aloud" has been found to facilitate the problem-solving performance of European Americans but interfere with the problem-solving performance of Asian Americans. Thus, thinking aloud does not appear to have_____ equivalence for these two groups.
- Metric
 - Conceptual
 - Functional
 - Linguistic

Answer: **c.**

Page Ref: **28**

8. Across studies, Oyserman et al. (2002) found _____ to be the most individualistic.
- African Americans
 - American Indians
 - European Americans
 - Korean Americans

Answer: **a.**

Page Ref: **29**

9. Sue and colleagues (1991) found that clients who were ethnically matched with therapists had better treatment outcomes than clients who were ethnically mismatched with therapists. Ethnic match was a _____ of treatment outcome.
- a. mediator
 - b. moderator
 - c. disseminator
 - d. grounded theory

Answer: **b.**

Page Ref: **30-31**

10. Qualitative research approaches are likely to emphasize:
- a. the consistency of behavior across contexts
 - b. factor analyses
 - c. large groups
 - d. context

Answer: **d.**
