Chapter 2: Pioneering Philosophers of Mind: Descartes, Locke, and Leibniz

MULTIPLE CHOICE

- 1. The ideas that young Descartes had at Ulm, which transformed his life and really started him on his vocation as a philosopher and scientist, were primarily about
 - a. the reflex.
 - b. the mind-body dichotomy.
 - c. a method for obtaining knowledge.
 - d. the passions.

ANS: C DIF: Moderate OBJ: Understand Descartes's philosophy.

- 2. The hydraulically operated mechanical statues at St. Germain were important to Descartes because
 - a. the mythological scenes they represented directed his attention toward important psychological problems.
 - b. they suggested the idea that animal bodies could be understood mechanistically as automata.
 - c. they inspired him to construct some experimental hydraulic models of his own.
 - d. they suggested the idea that blood constantly circulates through the body.

ANS: B DIF: Easy

OBJ: Describe the influences on Descartes's philosophy.

- 3. Descartes's mathematical invention, which integrated algebra and geometry, is called
 - a. analytic geometry.
 - b. Cartesian analysis.
 - c. differential calculus.

	d.	diop	otric.									
	AN	NS:	A	DIF:	Easy	OBJ:	Understand Descartes's philosophy.					
4.	Th	e firs	t rule of De	scartes's	method, pr	oviding	the equivalent of the geometric axi-					
	oms, was to											
	a.	dou	bt everythin	g.								
	b.	keep precise records of all observations.										
	c.	systematically manipulate one variable at a time.										
	d.	d. proceed deductively by syllogistic reasoning.										
	AN	NS:	A	DIF:	Easy	OBJ:	Understand Descartes's philosophy.					
5.	Th	e onl	y "simple n	atures" I	Descartes di	scerned	when he applied his method to the					
	ana	alysis	s of the phys	sical wor	ld were the	concep	ts of					
	a.	subj	ects and ob	jects.								
	b.	sens	sations and 1	perception	ons.							
	c.	min	ds and bodi	es.								
	d.	exte	ension and n	notion.								
	AN	NS:	D	DIF:	Moderate	OBJ:	Understand Descartes's philosophy.					
6.	Ac	cord	ing to Desca	artes's pl	nysics, the e	ntire ph	ysical universe is made up of					
	a.	fire,	air, water,	and earth	1.							
	b.	invi	sible particl	es of "fi	re," invisibl	e partic	les of "air," and visible particles of					
		mat	erial "earth.	,,								
	c.	mat	erial particle	es separa	ited by void							
	d.	seve	eral kinds of	element	tary atoms t	hat coul	ld combine to form an almost infinite					
		vari	ety of differ	ent com	pounds.							

	ANS: B	DIF: Modera	nte OBJ:	Understand Descartes's philosophy.							
7.	In the Treatis	se of Man, Desca	rtes provided	mechanistic explanations for all the							
	following functions EXCEPT										
	a. reason.										
	b. memory.										
	c. sensation.										
	d. imaginati	ion.									
	ANS: A	DIF: Easy	OBJ:	Understand Descartes's philosophy.							
8.	In Descartes'	's theory of the re	eflex mechanis	sm, stimuli are transmitted to the brain by							
	means of, and responses are initiated by										
	a. columns of "light" particles; the dispersion of heat to the proper muscle										
	b. hydraulic pressure in a sensory nerve; hydraulic pressure in a motor nerve										
	c. tugs and pulls on filaments through nerves; the flow of animal spirits through the										
	nerves an	nd into the muscl	es								
	d. hydraulic pressure in the fluid within the nerve; tugs on the filaments within the										
	nerves, co	onnected to the n	nuscles								
	ANS: C	DIF: Difficu	lt OBJ:	Understand Descartes's philosophy.							
9.	Descartes acc	counted mechani	stically for em	notional influences on behavior by							
	postulating										
	a. currents a	and "commotions	s" in the reserv	voir of animal spirits.							
	b. learned re	eactions to extern	nal stimuli.								
	c. variations	s in the intensity	with which st	imuli strike the senses.							
	d. an "emot	ional" soul.									

	ANS:	A	DIF:	Easy	OBJ:	Understand Descartes's philosophy.					
10.	Descar	tes hyp	othesiz	ed that the sta	ate of	occurs when the brain is					
	relatively emptied of animal spirits, so that its nerve fibers are slack and only										
	infrequently capable of transmitting stimulation.										
	a. depression										
	b. passion										
	c. refl	c. reflection and memory									
	d. slee	ep and o	lreamir	ng							
	ANS:	D	DIF:	Easy	OBJ:	Understand Descartes's philosophy.					
11.	When I	Descart	es foun	d he could do	oubt everyt	hing except the reality of his doubting					
	itself, he gained immediate reassurance of the										
	a. trustworthiness of his senses.										
	b. immortality of his soul.										
	c. rea	lity of h	is ratio	onal mind.							
	d. exi	stence (of the n	naterial world	l .						
	ANS:	C	DIF:	Moderate	OBJ:	Understand Descartes's philosophy.					
12.	Descar	tes beli	eved th	at concepts s	uch as "uni	ty," "infinity," or "perfection," which					
	cannot	be repr	esented	l by single se	nsory impr	essions, were which of the following?					
	a. abs	traction	is creat	ed out of mai	ny different	sensory experiences					
	b. inn	ate idea	s of the	e rational sou	ıl						
	c. illu	sions h	aving n	o basis in rea	ality						
	d. rev	erberati	ons in	nerves contir	nuing after	the cessation of sensory impressions					
	ANS:	В	DIF:	Difficult	OBJ:	Understand Descartes's philosophy.					

13.	Descartes believed that the										
	a. body usually dominates the mind.										
	b. mind usually dominates the body.										
	c.	boo	ly really	is the	mind.						
	d.	boo	ly and n	nind in	teract and m	utually influ	nence each other, with neither always				
		dor	ninating	Ţ.							
	AN	IS:	D	DIF:	Moderate	OBJ:	Understand Descartes's philosophy.				
14.	De	scar	tes belie	eved th	at animals w	ere					
	a.	ide	ntical to	huma	ns in most es	sential qual	ities.				
	b.	me	chanical	l auton	nata, lacking	consciousn	ess.				
	c. psychologically similar to human beings, except less complicated.										
	d.	so o	differen	t from	human begin	s as to be w	vorthless as scientific subjects.				
	AN	IS:	В	DIF:	Moderate	OBJ:	Understand Descartes's philosophy.				
15.	Wł	nere	did Des	cartes	localize the 1	most import	ant interactions between the body and				
	the	sou	1?								
	a.	thro	oughout	the bra	ain						
	b.	thro	oughout	the bo	dy						
	c.	in t	he pinea	al gland	d						
	d.	nov	where, b	ecause	they cannot	interact in	space				
	AN	IS:	C	DIF:	Moderate	OBJ:	Understand Descartes's philosophy.				
16.	Ac	cord	ling to I	Descart	es's theory o	f visual per	ception, the				
	a.	mir	nd's con	scious	perception b	ears no nec	essary relationship to the real observed				
		obj	ect.								

	b. mind's conscious perception is a nearly perfect replica of the real observed object.
	c. relationship between perception and object is inconsequential, so long as mechanical action is initiated.
	d. conscious perception is an inverted, double copy of the observed object.
	ANS: B DIF: Difficult OBJ: Understand Descartes's philosophy.
17.	Descartes hypothesized that when the pineal gland is moved by eddies and currents in
	the cerebrospinal fluid that surrounds it,
	a. it causes all the nerves in the brain to be more open to the passage of animal spir-
	its.
	b. the soul becomes conscious of a passion.
	c. the soul becomes conscious of an innate idea.
	d. the body is immediately set into motion.
	ANS: B DIF: Difficult OBJ: Understand Descartes's philosophy.
18.	Since Descartes's time, research has shown that
	a. his theory of the body's mechanism was prophetically right in most respects.
	b. his mechanistic theories were almost completely nonsense.
	c. his theory of bodily mechanism was wrong in details but highly productive in its
	general implications.
	d. the body and mind do interact in the middle of the brain.
	ANS: C DIF: Moderate OBJ: Understand Descartes's philosophy.
19.	According to Galileo, the characteristics of material particles—shape, quantity, and
	motion—were called

	a. how the immaterial mind and the material body interacted.									
	b. his theory of doubt.									
	c. the importance of the reflex in his theory of mind.									
	d. his theory of emotion.									
	ANS: A DIF: Moderate									
	OBJ: Identify the similarities and differences between philosophers.									
23.	Descartes's Treatise on the Passions of the Soul (1649) was highly influenced by his									
	correspondence with									
	a. Marin Mersenne.									
	b. Princess Elizabeth of Bohemia.									
	c. Galileo.									
	d. William Harvey.									
	ANS: B DIF: Moderate									
	OBJ: Describe the influences on Descartes's philosophy.									
24.	Descartes believed that the passions were the									
	a. conscious experiences of the body's emotions.									
	b. unconscious experience of the body's emotions.									
	c. consciousness of a separation between the mind and body.									
	d. body's unconscious reaction to emotions before they became conscious.									
	ANS: A DIF: Easy OBJ: Understand Descartes's philosophy.									
25.	When Gottfried Leibniz first read John Locke's Essay Concerning Human									
	Understanding, what was his reaction?									
	a. He was impressed but felt that Locke's empiricism went too far.									

	b. He was impressed but felt that Locke's rationalism went too far.									
	c. He was disdainful and felt that Locke's reputation was greatly overrated.									
	d. He saw Locke as a natural ally and began a fruitful correspondence with him.									
	ANS: A DIF: Difficult									
	OBJ: Identify the similarities and differences between philosophers.									
26.	Locke's and Leibniz's careers were alike in that both of them were									
	a. trained as lawyers.									
	b. trained as physicians.									
	c. dependent on wealthy patrons.									
	d. independently wealthy.									
	ANS: C DIF: Easy									
	OBJ: Identify the similarities and differences between philosophers.									
27.	Who was an early scientist who initiated the practice of bringing together groups of									
	investigators for scientific discussions?									
	a. John Locke									
	b. William Molyneux									
	c. Anthony Ashley Cooper									
	d. Robert Boyle									
	ANS: D DIF: Moderate OBJ: Describe the influences on Locke's									
	philosophy.									
28.	Locke's initial purpose in writing his Essay Concerning Human Understanding was									
	to discover									
	a. how to evaluate differing religious doctrines.									

	b.	wn	at kind of c	огтест кі	nowledge the n	uman m	ind was and was not capable of ac-					
	quiring.											
	c. what kind of governmental system would produce the greatest general welfar											
	d.	wh	what philosophical system was best supported by the new scientific research.									
	Aì	NS:	В	DIF:	Moderate	OBJ:	Understand Locke's philosophy.					
29.	Lo	cke	withheld pu	ıblicatio	n of <i>Two Treat</i>	ises of C	Government and Essay Concerning					
	Human Understanding for many years primarily because											
	a. he was unable prove his hypotheses.											
	b. he felt it would be politically dangerous to publish them.											
	c. the Whig party did not support his ideas.											
	d. his employer Shaftesbury did not agree with them.											
	Aì	NS:	В	DIF:	Moderate	OBJ:	Describe the influences on Locke's					
	ph	ilosc	phy.									
30.	Lo	cke'	s Essay Con	ncerning	g Human Unde	rstandin	g asserted that the mind is					
	a.	fur	nished with	all of its	s ideas from ex	perience	2.					
	b.	like	e a veined s	lab of m	arble.							
	c.	con	stantly acti	ve.								
	d.	d. full of innate ideas.										
	Αľ	NS:	A	DIF:	Moderate	OBJ:	Understand Locke's philosophy.					
31.					Moderate e defined as	OBJ:	Understand Locke's philosophy.					
31.	Lo	cke'	s Simple Id	eas wer								
31.	Lo a.	ide	s Simple Id	eas were	e defined as	ssociatio	ons.					
31.	Lo a. b.	ide	s Simple Id as based on as based on	eas were stupid o	e defined as	ssociations of the	ons.					

	d.	one	e's earliest i	deas bas	ed on elementa	ry sens	ations such as redness or coldness.
	AN	NS:	D	DIF:	Moderate	OBJ:	Understand Locke's philosophy.
32.	Lo	cke'	s Complex	Ideas wo	ere defined as		
	a.	idea	as produced	l when s	imple ideas are	combin	ned by the mind in varying combina-
		tior	ıs.				
	b.	the	resulting th	oughts v	when simple ide	eas are l	broken down into their minute de-
		tail	s.				
	c.	imp	oressions su	ich as re	dness, loudness	, coldne	ess, or saltiness.
	d.	spe	cific results	s of critic	cal thinking and	l proble	m solving.
	AN	NS:	A	DIF:	Moderate	OBJ:	Understand Locke's philosophy.
33.	Wł	nen v	we recogniz	e the dif	fference (disagr	reement) between things, for example
	dif	ferei	ntiating son	nething l	olack from som	ething v	white, Locke would say we are using
	wh	at ty	pe of know	ledge?			
	a.	intu	iitive know	ledge			
	b.	sim	ple knowle	dge			
	c.	con	nplex know	ledge			
	d.	den	nonstrative	knowled	lge		
	AN	NS:	A	DIF:	Moderate	OBJ:	Understand Locke's philosophy.
34.	Lo	cke :	suggested a		as a meta	phor for	r the human mind at birth.
	a.	tab	ula rasa or	blank sl	ate		
	b.	me	chanical sta	tue			
	c.	vei	ned slab of	marble			
	d.	me	chanical cal	lculating	machine		

	AN	S:	A	DIF:	Easy	OBJ:	Understand Locke's philosophy.			
35.	5. For Locke, the largest amount of human knowledge was of which type?									
	a.									
	b.	den	nonstrative							
	c.	sens	sitive							
	d.	prac	ctical							
	AN	S:	C	DIF:	Moderate	OBJ:	Understand Locke's philosophy.			
36.	For	Loc	cke, the prin	nary qua	alities of objects	S				
	a.	a. truly exist within the objects themselves.								
	b.	b. are imposed on objects by our senses.								
	c. are contrary to Descartes's "simple natures."									
	d.	are	the foundat	ion of co	omplex ideas.					
	AN	S:	A	DIF:	Moderate	OBJ:	Understand Locke's philosophy.			
37.	In I	Lock	e's termino	ology, se	nsory impression	ons sucl	h as sounds, colors, temperatures,			
	tast	es, a	and odors a	re called						
	a.	prin	nary qualiti	es.						
	b.	seco	ondary qual	ities.						
	c.	sens	sitive qualit	ies.						
	d.	sim	ple natures.							
	AN	S:	В	DIF:	Moderate	OBJ:	Understand Locke's philosophy.			
38.	Loc	ke's	s version of	the Soc	ial Contract Th	eory di	ffered from that of his predecessor			
	Hol	bbes	in which w	vay?						
	a.	Hoł	bes saw the	e contrac	ct as a formal w	ritten d	ocument, whereas for Locke it was			

	a more informal agreement between the government and the governed.								
b.	Locke saw the contract as a formal written document, whereas for Hobbes it was								
	a more informal agreement between the government and the governed.								
c.	Locke's version assumed the contract was a more rational choice by the gov-								
	erned, who could break the contract under conditions of severe governmental								
	abuse.								
d.	Locke's version assumed that the authority granted to the government by the gov-								
	erned was absolute and had to be obeyed under all circumstances.								
ΑN	S: C DIF: Difficult								
OE	3J: Identify the similarities and differences between philosophers.								
All	of the following are considered members of the "British associationist" tradition								
of	mental philosophy EXCEPT								
a.	George Berkeley.								
b.	Richard Busby.								
c.	David Hume.								
d.	David Hartley.								
ΑN	S: B DIF: Easy OBJ: Understand Locke's philosophy.								
Th	e hypothetical question of whether a man who was blind from birth but suddenly								
gra	inted the gift of sight would immediately be able to distinguish a sphere from a								
cuł	be without touching them was posed to Locke by, whose answer was								
a.	Thomas Willis; no he could not								
b.	Gottfried Leibniz; yes he could								

39.

40.

	c. Got	ttfried Leib	niz; no h	e could not					
	d. Wil	lliam Molyı	neux; no	he could not					
	ANS:	D	DIF:	Difficult	OBJ:	Understand Locke's philosophy.			
41.	Which	two import	ant math	ematical disc	overies w	vere made by Leibniz as a young			
	man in	Paris?							
	a. bin	ary arithme	tic and tl	ne infinitesim	nal calculu	ıs			
	b. ana	lytic geome	etry and	the infinitesin	nal calcul	lus			
	c. symbolic logic and functional trigonometry								
	d. bin	ary arithme	tic and a	nalytic geom	etry				
	ANS:	A	DIF:	Moderate	OBJ:	Identify Leibniz's contributions.			
42.	Leibniz	z met and w	as impre	essed by the p	hilosoph	er, whose pantheism			
held that									
	a. Hu	me; God is	an indep	endent being	that cont	rols the universe			
	b. Spi	noza; God	is the ent	tire universe					
	c. Hu	me; there is	no God						
	d. Spi	noza; there	are man	y Gods					
	ANS:	В	DIF:	Difficult	OBJ: I	Describe the influences on Leibniz's			
	philoso	phy.							
43.	Which	of the follo	wing is l	least consister	nt with L	eibniz's conception of the universe?			
	a. It is	composed	of mater	rial particles i	in motion	and their interaction with each oth-			
	er.								
	b. It is	a hierarchi	ically org	ganized orgar	nic entity.				
	c. Its	major featu	res inclu	de continuity	and char	ige.			
	42.	d. Will ANS: 41. Which man in a. bin. b. ana c. syn d. bin. ANS: 42. Leibniz held tha a. Hun b. Spi c. Hun d. Spi ANS: philoso 43. Which a. It is er. b. It is	d. William Molyn ANS: D 41. Which two import man in Paris? a. binary arithme b. analytic geome c. symbolic logic d. binary arithme ANS: A 42. Leibniz met and wheld that	d. William Molyneux; no ANS: D DIF: 41. Which two important math man in Paris? a. binary arithmetic and the b. analytic geometry and c. symbolic logic and fund. binary arithmetic and a ANS: A DIF: 42. Leibniz met and was impresheld that a. Hume; God is an indep b. Spinoza; God is the enternal c. Hume; there is no God d. Spinoza; there are man ANS: B DIF: philosophy. 43. Which of the following is it a. It is composed of materials.	ANS: D DIF: Difficult 41. Which two important mathematical discoman in Paris? a. binary arithmetic and the infinitesime b. analytic geometry and the infinitesime c. symbolic logic and functional trigoned. binary arithmetic and analytic geometry and the infinitesime c. symbolic logic and functional trigoned. binary arithmetic and analytic geometry and the infinitesime c. symbolic logic and functional trigoned. Binary arithmetic and analytic geometry and the infinitesime c. symbolic logic and functional trigoned. ANS: A DIF: Moderate 42. Leibniz met and was impressed by the public that a. Hume; God is an independent being b. Spinoza; God is the entire universe c. Hume; there is no God d. Spinoza; there are many Gods ANS: B DIF: Difficult philosophy. 43. Which of the following is least consister a. It is composed of material particles in the comp	d. William Molyneux; no he could not ANS: D DIF: Difficult OBJ: 41. Which two important mathematical discoveries water man in Paris? a. binary arithmetic and the infinitesimal calculates. symbolic logic and functional trigonometry. d. binary arithmetic and analytic geometry. ANS: A DIF: Moderate OBJ: 42. Leibniz met and was impressed by the philosophe held that a. Hume; God is an independent being that contour b. Spinoza; God is the entire universe. c. Hume; there is no God. d. Spinoza; there are many Gods. ANS: B DIF: Difficult OBJ: In philosophy. 43. Which of the following is least consistent with L. a. It is composed of material particles in motion er. b. It is a hierarchically organized organic entity.			

	d.	It w	vas partly ir	nspired b	y a view th	rough a	mic	croscope.		
	AN	NS:	A	DIF:	Difficult	OBJ:	Un	nderstand Leibniz's physical theory.		
44.	Wl	hich	of the follo	wing is	NOT part o	of Leibn	iz's	definition of monads?		
	a.	The	ey are units	that con	tain within	themse	lves	directed energies or forces.		
	b.	The	ey are units	that hav	e capacitie	s to perc	eive	e and register impressions of the res	t	
		of t	the world.							
	c.	. They are the ultimate units making up the universe.								
	d.	The	ey are infini	itely divi	isible into e	ever sma	ller	parts.		
	AN	NS:	D	DIF:	Moderate	OBJ:	Un	nderstand Leibniz's physical theory.		
45.	Le	ibniz	z's sentient	monads	are presun	nably do	mina	ant in, while rational		
	mo	onad	s reside in _		·					
	a.	pla	nts; higher	animals						
	b.	ani	mals; huma	n beings	\$					
	c.	eve	erything in t	he unive	erse; humar	n beings				
	d.	all	plants and a	animals;	God					
	AN	NS:	В	DIF:	Moderate	OI	3J:	Identify Leibniz's philosophy.		
46.	Le	ibniz	z defined ap	percept	ion as the					
	a.	pro	cess by wh	ich perce	eptions are	accomp	anie	ed by self-awareness and interpreted		
		in t	erms of und	derlying	laws and p	rinciples	S.			
	b.	pro	cess by wh	ich sensa	ations in co	onscious	ness	are responded to in light of prior		
		lear	rning and ex	xperienc	e.					
	c.	exp	periencing o	of two or	more ideas	s, either	sim	ultaneously or in rapid succession.		
	d.	con	nbination o	r associa	tion of two	simple	r ide	eas into a more complex one.		

	ANS:	A	DIF:	Moderate	OBJ:	Identify Leibniz's philosophy.
47.	Leibni	z referred to	the rule	es of arithmetic	, the geo	ometrical axioms, and the rules of
	logic a	s examples	of what	he called		
	a. nec	cessary truth	ıs.			
	b. rati	ional monac	ds.			
	c. pri	mary qualit	ies.			
	d. inn	ate ideas.				
	ANS:	A	DIF:	Easy	OBJ:	Identify Leibniz's philosophy.
48.	In Leib	oniz's New	Essays o	n Human Unde	erstandi	ng he likened his own position to
	that of		_ and Lo	ocke's position	to that	of
	a. Pla	to; Socrates	S			
	b. Ar	istotle; Soci	rates			
	c. Ari	istotle; Plato	O			
	d. Pla	to; Aristotle	e			
	ANS:	D	DIF:	Moderate	OBJ:	Comparison of Locke and Leibniz.
49.	Leibni	z agreed wi	th Locke	e that "There is	nothing	g in the intellect that was not first in
	the sen	ises," with t	he excep	otion of what?		
	a. the	emotions				
	b. the	mind itself	•			
	c. the	bare mona	ds			
	d. ima	agination				
	ANS:	В	DIF:	Easy		
	OBJ:	Identify th	ne simila	rities and differ	rences b	etween philosophers.

50.	Leibniz proposed all of the following features of "minute perceptions" EXCEPT
	a. they are characteristic of bare monads.
	b. they can be responsible for unconscious motivational effects.
	c. they are experienced only by animals and humans.
	d. when aggregated in large numbers, they can become conscious.
	ANS: C DIF: Moderate OBJ: Identify Leibniz's philosophy.
51.	Which of the following was one of Leibniz's favorite metaphors for the human mind
	at birth?
	a. an unwound clock
	b. a blank slate
	c. an architect's plan
	d. a veined slab of marble
	ANS: D DIF: Easy OBJ: Identify Leibniz's philosophy.
MA	TCHING
	Match the description with the appropriate element of Descartes's philosophy.
	a. clear yellowish fluid that fills the brain cavities
	b. conscious awareness of one's emotions
	c. ideas that derive from the nature of the thinking soul itself
	d. properties of physical phenomena that could not be analyzed or doubted
1.	simple natures
2.	animal spirits
3.	innate ideas
4.	passions

- 1. ANS: D DIF: Moderate OBJ: Understand Descartes's philosophy.
- 2. ANS: A DIF: Moderate OBJ: Understand Descartes's philosophy.
- 3. ANS: C DIF: Moderate OBJ: Understand Descartes's philosophy.
- 4. ANS: B DIF: Moderate OBJ: Understand Descartes's philosophy.

Match the publication with its author.

- a. An Essay Concerning Human Understanding
- b. New Essays on Human Understanding
- c. Discourse on Method
- 5. Descartes
- 6. Leibniz
- 7. Locke
- 5. ANS: C DIF: Moderate
 - OBJ: Identify the similarities and differences among philosophers.
- 6. ANS: B DIF: Moderate
 - OBJ: Identify the similarities and differences among philosophers.
- 7. ANS: A DIF: Moderate
 - OBJ: Identify the similarities and differences among philosophers.

Match the description with the appropriate element of Locke's philosophy.

- a. knowledge obtained through deductive reasoning
- b. knowledge obtained through patterns of sensory experiences
- c. knowledge obtained through perceptions that are immediately obvious and true
- 8. demonstrative knowledge
- 9. intuitive knowledge

- 10. sensitive knowledge
- 8. ANS: A DIF: Easy OBJ: Understand Locke's philosophy.
- 9. ANS: C DIF: Easy OBJ: Understand Locke's philosophy.
- 10. ANS: B DIF: Easy OBJ: Understand Locke's philosophy.

Match the description with the appropriate element of Locke's philosophy.

- a. experiences of objects in the external world
- b. experiences of the mind's own operations
- c. ideas that come from basic sensations or reflections
- d. the linking together of similar or contiguously experienced ideas
- 11. association of ideas
- 12. reflections
- 13. sensations
- 14. simple ideas
- 11. ANS: D DIF: Moderate OBJ: Understand Locke's philosophy.
- 12. ANS: B DIF: Moderate OBJ: Understand Locke's philosophy.
- 13. ANS: A DIF: Moderate OBJ: Understand Locke's philosophy.
- 14. ANS: E DIF: Moderate OBJ: Understand Locke's philosophy.

Match the achievement with the philosopher.

- a. developed analytic geometry
- b. developed infinitesimal calculus
- c. served as physician to Sir Anthony Ashley Cooper
- 15. Descartes
- 16. Leibniz

17.	Locke
15.	ANS: A DIF: Easy
	OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.
16.	ANS: B DIF: Easy
	OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.
17.	ANS: C DIF: Easy
	OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.
	Match the description with the appropriate element of Leibniz's theory of monads.
	a. form material objects when clustered together
	b. controls and contains the entirety of the universe
	c. possess capacity for simple perception
	d. the soul or mind of human beings
18.	bare monads
19.	rational monads
20.	sentient monads
21.	supreme monad
18.	ANS: A DIF: Moderate
	OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.
19.	ANS: D DIF: Moderate
	OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.
20.	ANS: C DIF: Moderate
	OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.
21.	ANS: B DIF: Moderate

OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke. Match the female correspondent with the philosopher. a. Lady Damaris Cudworth Masham b. Princess Elizabeth of Bohemia c. Sophie the Countess Palatine and Sophie Charlotte 22. Descartes 23. Leibniz 24. Locke 22. ANS: В DIF: Difficult OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke. 23. ANS: \mathbf{C} DIF: Difficult OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke. 24. ANS: A DIF: Difficult OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke. Match the philosopher with the term with which he is associated. Benedict Spinoza b. George Berkeley c. René Descartes d. Thomas Hobbes 25. British associationism 26. interactive dualism

27. pantheism

28. social contract

25. ANS: B DIF: Moderate

OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.

26. ANS: C DIF: Moderate

OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.

27. ANS: A DIF: Moderate

OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.

28. ANS: D DIF: Moderate

OBJ: Describe the influences on the philosophies of Descartes, Leibniz, and Locke.

Match the definition with the philosophical term.

- a. basic units of the universe conceived as energetic and purposeful entities with capacity for awareness
- ideas consciously experienced and rationally analyzed in terms of underlying principals and laws
- c. innate principles for analyzing experiences logically and mathematically
- d. extended particles and motion, conceived as the most elementary properties of physical phenomena
- 29. apperception
- 30. monads
- 31. necessary truths
- 32. simple natures

29. ANS: B DIF: Moderate

OBJ: Understand Descartes's philosophy; Identify Leibniz's philosophy.

30. ANS: A DIF: Moderate

	OBJ:	Understand Descartes's philosophy; Identify Leibniz's philosophy.							
31.	ANS:	C DIF: Moderate							
	OBJ:	Understand Descartes's philosophy; Identify Leibniz's philosophy.							
32.	ANS:	D DIF: Moderate							
	OBJ:	Understand Descartes's philosophy; Identify Leibniz's philosophy.							
	Match the	e analogy, model, or metaphor with the philosopher.							
	a. mind	as block of veined marble							
	b. the in	experienced mind as "white paper void of all characters"							
	c. "the s	soul of beasts is nothing but their blood"							
33.	Descartes								
34.	Leibniz								
35.	Locke								
33.	ANS:	C DIF: Easy							
	OBJ:	Identify the similarities and differences between philosophers.							
34.	ANS:	A DIF: Easy							
	OBJ:	Identify the similarities and differences between philosophers.							
35.	ANS:	B DIF: Easy							
	OBJ:	Identify the similarities and differences between philosophers.							
SH	ORT ANS	WER							
1.	According	to Descartes, in what sense are nonhuman animals and human beings simi-							
	lar and dif	ferent?							
	ANS:								
	All animal	bodies, including human bodies, could be explained mechanistically in							

terms similar to but more complicated than mechanical statues. All nonhuman animals could be fully understood in these mechanistic terms. In the case of human beings, only the body could be explained in mechanical terms, the human soul or mind could not. Descartes understood the human mind and body as separate but interacting entities, a position known as interactive dualism.

DIF: Moderate OBJ: Understand Descartes's philosophy.

2. Describe the different kinds of knowledge outlined by Locke.

ANS:

Intuitive knowledge: perceptions that are immediate and certain, such as that black is different from white.

demonstrative knowledge: derived from logical deductive reasoning starting with intuitively obvious axioms and leading to conclusions that were not originally obvious; exemplified by geometric proofs.

sensitive knowledge: derived from the association of ideas based on sensations from the external empirical world; it is less certainly true than the other kinds because it may be based accidental or misleading associations.

DIF: Easy OBJ: Understand Locke's philosophy.

3. Describe Leibniz's theory of monads and its components.

ANS:

Monads: energetic and purposeful units with some conscious awareness that form the most fundamental component parts of the universe; bare monads: the most numerous kind of monads, which have a faint capacity for awareness and when assembled in large numbers make up physical objects; sentient monads: have the capacity for con-

scious sensation and perception of material objects and for memory, and form the soul of animals; *rational monads*: the soul or mind of human beings with consciousness capable of apperception; *supreme monad*: the equivalent of God, contains and controls the entirety of the universe.

DIF: Difficult OBJ: Identify Leibniz's philosophy.

4. Describe how the theories of mind of Locke and Leibniz are similar and different.

ANS:

According to Locke, the mind is a blank slate (*tabula rasa*) at birth and human beings gain knowledge through empirical experiences of the world. Leibniz accepted that some knowledge occurs as Locke described but likened the mind at birth not to a blank slate but to a veined block of marble predisposed to respond to a sculptor's chiseling by breaking along certain inherent fault lines. While Locke held that there is nothing in the mind that was not first in the senses, Leibniz added to this: *except the mind itself*. Locke saw the mind as not constantly active, while Leibniz argued that the mind is constantly active.

DIF: Moderate OBJ: Identify the similarities and differences between philosophers.

5. William Molyneux described a hypothetical case of man blind from birth who had learned to distinguish a ball from a cube by the sense of touch. He then posed the question: If suddenly granted vision, would the man be able to tell these two objects apart without touching them? Describe Locke's response to this question and his rationale for his answer.

ANS:

Locke responded no, the man would not be able to distinguish the ball from the cube.

Pioneers of Psychology 5th Edition Fancher Test Bank

Full Download: http://alibabadownload.com/product/pioneers-of-psychology-5th-edition-fancher-test-bank/

According to Locke, the ideas created by new visual sensations could not be part of the man's complex ideas of a ball and a cube until these new ideas became associated with the older ideas that were based on touch.

DIF: Moderate OBJ: Understand Locke's philosophy.
