

Chapter 1: Thinking about Religion

The questions in this test bank have been updated and revised to reflect changes in *THINK World Religions*, 2nd edition. There is also a new system for identifying the difficulty of the questions. In this revision, the questions are now tagged according to the four levels of learning that help organize the text. Think of these four levels as moving from lower-level to higher-level cognitive reasoning. The four levels are:

REMEMBER: a question involving recall of key terms or factual material

UNDERSTAND: a question testing comprehension of more complex ideas

APPLY: a question applying sociological knowledge to some new situation

ANALYZE: a question requiring identifying elements of an argument and their interrelationship

The **45 questions** in this chapter's test bank are divided into five types of questions. As the table below shows, more than half of these questions are "Remember" questions and most questions fall within the lowest three levels of cognitive reasoning (Remember, Understand, and Apply). **Multiple Choice, True/False, Fill in the Blank,** and **Matching** questions span the broadest range of skills (the majority are "Remember" questions and the remainder are "Understand" questions). **Short Answer** questions span a broad range of skills (from "Remember" to "Analyze"). Finally, **Essay** questions are the most demanding because they include the highest levels of cognitive reasoning (from "Understand" to "Analyze").

Types of Questions**Easy to Difficult Level of Difficulty**

	Multiple Choice	True/False	Fill in the Blank	Matching	Short Answer	Essay	Total Questions
Remember	10	6	5	5	2	0	28
Understand	5	4	0	0	1	2	12
Apply	0	0	0	0	1	1	1
Analyze	0	0	0	0	1	2	4
Totals	15	10	5	5	5	5	45

Multiple Choice

1. Which of the following controversies is used by your textbook author to illustrate the relationship between religion and politics?

- A. Barack Obama as a secret Muslim
