Chapter 2 The Accounting Cycle: During the Period

REVIEW QUESTIONS

Question 2-1 (LO 2-1)

External transactions are transactions between the company and a separate economic entity. Internal transactions do not include an exchange with a separate economic entity. Purchasing supplies from a local vendor is classified as an external transaction.

Question 2-2 (LO 2-1)

- 1. Use source documents to identify accounts affected by external transactions.
- 2. Analyze the impact of the transaction on the accounting equation.
- 3. Assess whether the transaction results in a debit or a credit to the account balance.
- 4. Record the transaction in the journal using debits and credits.
- 5. Post the transaction to the T-accounts in the general ledger.
- 6. Prepare a trial balance.

Question 2-3 (LO 2-2)

Dual effect refers to each transaction having an effect on at least two accounts of the accounting equation such that the accounting equation will always be in balance. If an economic event increases (decreases) one side of the equation, then it also increases (decreases) the other side of the equation by the same amount, or, it increases one account and decreases another account on the same side of the equation.

Question 2-4 (LO 2-2)

	Assets	=	Liabilities	+	Stockholders' equity
(a)	Increase	=	Increase	+	No change
(b)	Decrease	=	No change	+	Decrease
(c)	Increase	=	No change	+	Increase
(d)	No change*	=	No change	+	No change

* One asset (equipment) increases while another asset (cash) decreases.

Question 2-5 (LO 2-2)

Jerry is not correct. While it is possible for a transaction to increase one account and decrease another, dual effect simply indicates that at least two accounts will always be affected. However, the accounting equation must always remain in balance. It is not possible for one side of the equation to increase while the other side decreases.

Answers to Review Questions (continued)

Question 2-6 (LO 2-3)

Accounts	Normal balance
Assets	Debit
Liabilities	Credit
Stockholders' equity	Credit
Revenues	Credit
Expenses	Debit

Question 2-7 (LO 2-3)

Jenny is not correct. Any account can be debited or credited. Since an asset has a normal debit balance, it would be debited when it increases and credited when it decreases. Similarly, since a liability has a normal credit balance, it would be credited when it increases and debited when it decreases.

Question 2-8 (LO 2-3)

Accounts	Increase
(a) Cash	Debit
(b) Salaries payable	Credit
(c) Utilities expense	Debit
(d) Service revenue	Credit

Question 2-9 (LO 2-3)

Accounts	Decrease*
(a) Cash	Credit
(b) Salaries payable	Debit
(c) Utilities expense	Credit
(d) Service revenue	Debit

* Answers are opposite of those in Question 2-8

Answers to Review Questions (continued)

Question 2-10 (LO 2-3)

These statements are consistent. Retained earnings has three components – revenues, expenses, and dividends. Changing the balance of any of these components changes the balance of retained earnings. Retained earnings increases with a credit and decreases with a debit. Since expenses reduce retained earnings, an increase to an expense decreases retained earnings.

Question 2-11 (LO 2-4)

A journal provides a chronological record of all transactions affecting a firm. A journal entry is used to describe the format for recording a transaction.

Question 2-12 (LO 2-4)

Date	Debit	Credit
Account Name	Amount	Amount
(Description of transaction)		Amount

Question 2-13 (LO 2-4)

In each journal entry, the sum of all amounts debited equals the sum of all amounts credited.

Question 2-14 (LO 2-4)

(a)		Debit	Credit
Cash	Service Revenue (<i>Receive cash from providing servic</i>	1,200	1,200
(b)		Debit	Credit
Rent I	Expense Cash (Pay rent for the current month)	500	500
(c)		Debit	Credit
Buildi	ng Notes Payable	10,000	10,000

Answers to Review Questions (continued)

Question 2-15 (LO 2-4)

- (a) Purchase supplies by paying cash of \$20,000.
- (b) Provide services to customer on account for \$30,000.
- (c) Pay cash on accounts payable of \$10,000.

Question 2-16 (LO 2-5)

A T-account is an informal means to show the balance in an account. The left side is referred to as a *debit* and the right side is referred to as a *credit*.

Question 2-17 (LO 2-5)

Posting is the process of transferring the debit and credit information from the journal to individual accounts in the general ledger.

(a)	Sup	plies	C	ash
	20,000			20,000
(b)	Acc	ounts		
	Rece	ivable	Service	Revenue
	30,000			30,000
(a)	A a a a a a a a	a Davahla	C	aab
(c)	Account	s Payable	U	ash
	10,000			10,000

Question 2-18 (LO 2-6)

The general ledger is the collection of all accounts used to record the company's transactions. A chart of accounts is a listing of all account names.

Question 2-19 (LO 2-6)

A trial balance is a list of all accounts and their balances at a particular date. Balance refers to the fact that the sum of the accounts with debit balances should equal the sum of the accounts with credit balances.

Question 2-20 (LO 2-6)

Not necessarily. While total debits equaling total credits is a good indication that all accounts have been appropriately accounted for, the accounts could contain offsetting errors. For example, if one account with a debit (credit) balance is understated by the same amount that another account with a debit (credit) balance is overstated, the trial balance will show equal debit and credit totals.

BRIEF EXERCISES

Brief Exercise 2-1 (LO 2-1)

Proper order:

- (c) Use source documents to identify accounts affected by external transactions.
- (d) Analyze the impact of the transaction on the accounting equation.
- (b) Assess whether the impact of the transaction results in a debit or credit to the account balance.
- (f) Record transactions using debits and credits.
- (a) Post the transaction to the T-account in the general ledger.
- (e) Prepare a trial balance.

Brief Exercise 2-2 (LO 2-2)

						Possible
_	Assets	=	Liabilities	+ Sto	ockholders' Equity	(Yes/No)
(a)	Increase	=	Decrease	+	No change	No
	$(Cash \uparrow)$	(Ac	counts Payable	e↓)		
(b)	No change	=	Increase	+	Increase	No
(0)	110 01101180	(Sa		-	ervice Revenues \uparrow)	110
	_				_	
(c)	Decrease	=	No Change	+	Decrease	Yes
	$(Cash \downarrow)$			(Adv	ertising Expense ↑)	

Brief Exercise 2-3 (LO 2-2)

			Total Liabilities and
	Total Assets		Stockholders' Equity
Cash	\$ 7,200	Accounts Payable	\$ 1,700

Trial Balance

Accounts	Debit	Credit
Cash	\$ 7,300	
Accounts Receivable	2,100	
Equipment	10,400	
Accounts Payable		\$ 3,900
Deferred Revenue		1,100
Common Stock		11,000
Retained Earnings		3,900
Dividends	600	
Service Revenue		4,500
Salaries Expense	3,200	
Utilities Expense	800	
Totals	\$24,400	\$24,400

EXERCISES

Exercise 2-1 (LO 2-1)

- 1. d.
- 2. b.
- 3. a.
- 4. e.
- 5. c.

Exercise 2-2 (LO 2-2)

-	Assets	=	Liabilities	+	Stockholders' Equity
1.	Increase	=	No effect	+	Increase
2.	Increase	=	Increase	+	No effect
3.	Increase	=	No effect	+	Increase
4.	Decrease	=	No effect	+	Decrease
5.	Decrease	=	No effect	+	Decrease
6.	No effect*	=	No effect	+	No effect

* One asset (cash) increases while another asset (accounts receivable) decreases.

Exercise 2-3 (LO 2-2)

- 1. Issue 10,000 shares of common stock in exchange for \$32,000 in cash.
- 2. Purchase land for \$19,000. A note payable is signed for the full amount.
- Purchase storage containers for \$8,000.
- 4. Hire three employees for \$2,000 per month.
- 5. Receive cash of \$12,000 in rental fees for the current month.
- 6. Purchase office supplies for \$2,000 on account.
- 7. Pay employees \$6,000 for the first month's salaries.

Dual Effect

Assets increase	Stockholders' equity increases	
Assets	Liabilities	
increase	increase	
	ntainers) increases set (cash) decreases	

No effect on the accounting equation

Assets	Stockholders'
increase	equity increases
Assets	Liabilities
increase	increase

Assets decrease

Stockholders' equity decreases

Exercise 2-4 (LO 2-2)

Dual Effect

1.	Paint houses in the current month for \$15,000 on account.	Assets increase	Stockholders' equity increases
2.	Purchase painting equipment for \$16,000 cash.		pment) increases et (cash) decreases
3.	Purchase office supplies on account for \$2,500.	Assets increase	Liabilities increase
4.	Pay employee salaries of \$3,200 for the current month.	Assets decrease	Stockholders' equity decreases
5.	Purchase advertising to appear in the current month, \$1,200.	Assets decrease	Stockholders' equity decreases
6.	Pay office rent of \$4,400 for the current month.	Assets decrease	Stockholders' equity decreases
7.	Receive \$10,000 from customers in (1) above.	One asset (cash) inc asset (accounts rec	reases and another eivable) decreases

8. Receive cash of \$5,000 in advanceAssetsLiabilitiesfrom a customer that plans to have hisincreaseincreasehouse painted in the following month.increaseincrease

Exercise 2-5 (LO 2-2)

Transaction	Balance
Retained earnings, April 1	\$13,000
1. Issue common stock for cash, \$11,000	0
2. Provide services to customers on account, \$8,500.	+8,500
3. Provide services to customers in exchange for cash, \$3,200.	+3,200
4. Purchase equipment and pay cash, \$7,600.	
5. Pay rent for April, \$1,100.	-1,100
6. Pay employee salaries for April, \$3,500.	-3,500
7. Pay dividends to stockholders, \$2,000.	-2,000
Retained earnings, April 30	\$18,100

Exercise 2-6 (LO 2-3)

Del	oit or Credit	Account
1.	Debit	Cash
2.	Credit	Service Revenue
3.	Debit	Salaries Expense
4.	Credit	Accounts Payable
5.	Debit	Equipment
6.	Credit	Retained Earnings
7.	Debit	Utilities Expense
8.	Debit	Accounts Receivable
9.	Debit	Dividends
10.	Credit	Common Stock

Exercise 2-7 (LO 2-3)

	Account Debited	Account Credited
<i>Example: Purchase equipment in exchange for cash.</i>	Equipment	Cash
1. Pay a cash dividend.	Dividends	Cash
2. Pay rent in advance for the next three months.	Prepaid Rent	Cash
3. Provide services to customers on account.	Accounts Receivable	Service Revenue
4. Purchase office supplies on account.	Supplies	Accounts Payable
5. Pay salaries for the current month.	Salaries Expense	Cash
6. Issue common stock in exchange for cash.	Cash	Common Stock
 Collect cash from customers for services provided in (3) above. 	Cash	Accounts Receivable
8. Borrow cash from the bank and sign a note.	Cash	Notes Payable
9. Pay for the current month's utilities.	Utilities Expense	Cash
10. Pay for office supplies purchased in (4) above.	Accounts Payable	Cash

Exercise 2-8 (LO 2-4)

(1)		Debit	Credit
Equip	Cash (Purchase equipment with cash)	23,400	23,400
(2) Cash	Service Revenue (<i>Provide services for cash</i>)	6,800	6,800
(3) Rent	Expense Cash (Pay current month's rent)	1,300	1,300
(4) Suppl	lies Accounts Payable (Purchase office suppliers on acco	1,000 ount)	1,000
(5) Salar	ies Expense Cash (Pay current month's salaries)	2,100	2,100

Exercise 2-9 (LO 2-4)

- 1. Purchase equipment with cash, \$8,800.
- 2. Provide services to customers on account, \$3,200.
- 3. Pay current month's salaries, \$1,900.
- 4. Receive cash from customers in advance of services, \$1,500.
- 5. Pay dividends to stockholders, \$900.

_

Great Adventures, Inc. Trial Balance July 31, 2018

Accounts	Debit	Credit
Cash	\$ 9,000	
Prepaid Insurance	4,800	
Supplies	1,800	
Equipment	12,000	
Accounts Payable		\$ 1,800
Deferred Revenue		4,000
Common Stock		20,000
Service Revenue		4,300
Advertising Expense	1,000	
Legal Fees expense	1,500	
Totals	\$30,100	\$30,100

Requirement 1

Percentage change in total assets = (\$1,696,908 - \$1,694,164) / \$1,694,164 = 0.16%

Percentage change in net sales = (\$3,282,867 - \$3,305,802) / \$3,305,802 = -0.69%

The company is getting larger by asset size in a very small amount and sales are declining. The company may be changing its strategy.

Requirement 2

Percentage change in net income = (\$80,322 - \$82,983) / \$82,983 = -3.207%

Profitability has declined, but a quick review of the income statement shows that there was a negative effect on net income from a non-recurring loss on discontinued operations. Net income from continuing operations increased by 7%. Further reading of the annual report shows that the company had eliminated its children's division. This would support the suggestion in Requirement 1 above that the company may be changing its strategy to align its sales approach without those products.

Requirement 3

Based on the statement of stockholders' equity, American Eagle did not issue common stock in the most recent year.

Requirement 4

The terms "debit" and "credit" are not shown in the balance sheet. Asset accounts, such as cash, merchandise inventory, accounts receivable, and property and equipment, increase with a debit. Liability accounts, such as accounts payable, accrued rent, and other liabilities, increase with a credit. Stockholders' equity accounts, such as common stock and retained earnings, also increase with a credit.

Requirement 5

The terms "debit" and "credit" are not shown in the income statement. Expense accounts, such as cost of sales and selling, general, and administrative expenses, increase with a debit. Revenue accounts, such as net revenue, increase with a credit.

Requirement 1

Percentage change in total assets = (\$542,993 - \$546,293) / \$546,293 = -0.60%

Percentage change in net sales = (\$1,153,142 - \$1,128,001) / \$1,128,001 = 2.23%

The company is getting minimally smaller by asset size but sales are growing. The company may be using its assets more efficiently.

Requirement 2

Percentage change in net income = (\$162,564 - \$162,584) / \$162,584 = -0.01%

Since Sales have increased and net income has decreased slightly, expenses have not been maintained at a stable level. A quick look at the income statement shows that the increase in selling expenses may have been a strategy to push the increase in sales. In addition, General and administrative expenses have increased by 6.8%.

Requirement 3

Based on the statement of stockholders' equity, The Buckle did issue a small amount of common stock in the most recent year.

Requirement 4

The terms "debit" and "credit" are not shown in the balance sheet. Asset accounts, such as cash, inventory, accounts receivable, and property and equipment, increase with a debit. Liability accounts, such as accounts payable, accrued employee compensation, and income taxes payable, increase with a credit. Stockholders' equity accounts, such as common stock and retained earnings, also increase with a credit.

Requirement 5

The terms "debit" and "credit" are not shown in the income statement. Expense accounts, such as cost of sales and selling, general, and administrative expenses, increase with a debit. Revenue accounts, such as net sales, increase with a credit.

Buckle has a higher decline in terms of total assets, but greater growth in net sales. One reason for Buckle's growth could relate to the increase in selling expenses to drive an increase in sales. American Eagle, though with a slight decline in net sales, has a much larger increase in net income from continuing operations after having changed its business strategy by removing its children's business.

What is the issue?

Larry should understand that if he reports the additional \$75,000 of revenue, the company will no longer report a loss, but a profit of \$25,000 (ignoring any tax effects). Thus, the company's financial strength will be overstated.

Who are the parties affected?

Robert, the company's president, benefits from false reporting by maintaining the company's profitable appearance. The incentives could be income bonus plans, a desire to please stockholders, meeting analysts' earnings forecasts for the company, or maintaining good standing with creditors. Larry benefits from false reporting by keeping his friendship with Robert, keeping his job for the longer-term, and getting a free dinner tonight. However, if the false reporting is discovered by authorities, both parties face legal penalties and suffer reputational damage.

What factors should Larry consider in making his decision?

As the accountant, Larry should understand that his responsibilities are to accurately record and report the company's activities. Larry must be aware that Robert may have incentives for falsely reporting to Larry about the additional revenue. Without source documents, an important step in the measurement process, Larry should not record any transactions.

(Note to instructor: Answers are based on items in Apple's September 27, 2014 annual report. Dollar amounts are in millions)

Requirement 1

Accounts receivable = \$17,460. The accounts receivable account represents the amount owed to Apple by its customers.

Requirement 2

Accounts payable = 30,196. The accounts payable account represents the amount owed by Apple to its suppliers.

Requirement 3

Accrued expenses could include income taxes payable, salaries payable, interest payable, and rent payable.

Requirement 4

Common stock (including additional paid-in capital) = \$23,313. The common stock account represents capital contributed to the company by stockholders.

Requirement 5

Assets (\$231,839) = Liabilities (\$120,292) + Stockholders' equity (\$111,547)

Requirement 6

Net sales = \$182,795. The period of net sales is for the year ended September 27, 2014.

Requirement 7

Expenses include cost of sales; research and development; selling, general, and administrative; and provision for income taxes.

Requirement 8

Yes, the company's revenues exceed expenses. The difference is net income (\$39,510).

http://testbanklive.com/download/financial-accounting-4th-edition-spiceland-solutions-manual/ Chapter 2 - The Accounting Cycle: During the Period

Additional Perspective 2-7

For transaction (a):

Step 1. Analyze customer invoice.

Step 2. Determine assets increase and stockholders' equity increases (and revenues increase).

500

1,200

Step 3. Increase assets with a debit and increase revenues with a credit.

Step 4. Accounts Receivable

Service Revenue 500

(Provide services on account)

For transaction (b):

- Step 1. Analyze employee paycheck.
- Step 2. Determine assets decrease and stockholders' equity decreases (and expenses increase).
- Step 3. Decrease assets with a credit and increase expenses with a debit.
- Step 4. Salaries Expense

1,200

Cash (*Pav salary for the current month*)

For transaction (c):

Step 1. Analyze purchase receipt for equipment.

- Step 2. Determine one asset increases and another asset decreases.
- Step 3. Increase assets with a debit and decrease assets with a credit.

Step 4. Equipment 2,700

Cash

2,700

(Purchase office equipment)

Step 5. All transactions are posted to the general ledger accounts.

Step 6. A trial balance is prepared using the balance of each general ledger account. Total debits should equal total credits in the trial balance.
