Recording Business Transactions

Short Exercises

(5 min.) **S 2-1**

The transaction had a financial impact on the business and should be recorded. The payment for the computer was not an expense.

The payment related to the purchase of an asset, “Equipment,” because the computer is an economic resource of the business. The computer will provide benefit over more than one fiscal period.

Dear Sue,

This trial balance lists the accounts of Amusement Specialties, Inc., along with its balances at December 31, 2017. The trial balance is an internal document used by accountants. It is not the same as a balance sheet or an income statement. The balance sheet and the income statement are financial statements used by managers, creditors, and investors for decision making.

The fact that the trial balance is in balance does not mean that Amusement Specialties is a sound company. It merely means that total debits equal total credits in the company ledger. This says nothing about the soundness of the business. To compute Amusement Specialties' total assets add the asset account balances (Cash \$14,000 + Accounts receivable \$11,000 + Prepaid expenses \$4,000 + Equipment \$171,000 + Building \$100,000 = \$300,000); For total liabilities add the liability account balances (Accounts payable \$30,000 + Note payable \$120,000 = \$150,000). Net income or net loss for the current period is computed by subtracting total expenses from total revenue. During the current period, Amusement Specialties earned a net income of \$30,000 [service revenue of \$86,000 minus total expenses of \$56,000 (\$14,000 + \$3,000 + \$32,000 + \$7,000)]. Student responses may vary.

*Not a transaction of the business.

** A business-related event, but not a transaction to be recorded.

Req. 3

- a. The business has \$21,200 in cash. The cash balance takes into consideration all amounts received from all sources, including cash received from the issuance of shares. Share issuances go into the Common Shares account, which has nothing to do with Retained Earnings. Retained Earnings, on the other hand, holds the amounts of the revenues and the expenses, which may or may not be received or paid in cash. There is, therefore, no relationship between cash and retained earnings.**

- b. The business's total resources (total assets) are \$56,500 ($\$21,200 + \$10,000 + \$300 + \$25,000$). The business owes total liabilities of \$2,500, so the shareholder's ownership interest in the assets of the business is \$54,000 ($\$56,500 - \$2,500$, or $\$50,000 + \$4,000$).**

Dear Friend,

This trial balance lists all the accounts of Opera Tours Inc., along with their balances at December 31, 2017. The trial balance is an internal document used by accountants. It is not the same as a balance sheet and an income statement. The balance sheet and the income statement are financial statements used by managers, creditors, and investors for decision making.

The Balance Sheet is made up of the Asset, Liability and Shareholders' Equity accounts. These accounts make up the accounting equation; $\text{Assets} = \text{Liabilities} + \text{Shareholder's Equity}$.

The balance sheet accounts of Opera Tours Inc. are as follows:

<u>Assets</u>		<u>Liabilities</u>	
Cash	\$ 12,000	Accounts payable	\$105,000
Accounts receivable	45,000	Note payable	<u>92,000</u>
Prepaid expenses	4,000		197,000
Equipment	<u>231,000</u>	<u>Equity</u>	
	<u>\$292,000</u>	Common shares	30,000
		Retained earnings	<u>65,000*</u>
			<u>95,000</u>
			<u>\$292,000</u>

*(32,000 + 33,000)

The Income Statement is made up of Revenue and Expense Accounts. Revenue less Expenses equal Net Income (Loss). The income statement accounts of Opera Tours Inc. are as follows:

Service Revenue	\$139,000
<u>Expenses</u>	
Salary expense	69,000
Tour expenses	26,000
Rent expense	7,000
Advertising expense	<u>4,000</u>
	<u>106,000</u>
Net income	<u>\$ 33,000</u>

The fact that the trial balance is in balance does not mean that Opera Tours Inc. is a sound company. It merely means that total debits equal total credits in the company ledger. This says nothing about the soundness of the business. In this instance, Opera Tours Inc. had a net income of \$33,000 as per the Income Statement outlined above.

Student responses may vary.

*Not a transaction of the business.

** A business-related event, but not a transaction to be recorded.

Req. 3

- a. The business has \$36,450 in cash. The cash balance takes into consideration all amounts received from all sources, including cash received from issuing shares. Issuances of shares go into the Common Shares account, which has nothing to do with Retained Earnings. Retained Earnings, on the other hand, records the amounts of the revenues and the expenses, which may or may not be received or paid in cash. There is, therefore, no direct relationship between cash and retained earnings.**

- b. The business's total resources (total assets) are \$56,400 ($\$36,450 + \$4,000 + \$450 + \$15,500$). The business owes total liabilities of \$5,500, so Kohler's ownership interest in the assets of the business is \$50,900 ($\$56,400 - \$5,500$, or $\$50,000 + \900).**

Recommendation: Continue the business. Even though first-month net income falls below the target amount, the business should grow and should be able to earn monthly net income of \$10,000. Business startups require focus on non-revenue generating issues which will *not* continue into future months. Tipple needs to focus on generating revenue of at least \$13,100 per month.

Recommendation: Do not expand because both net income and total assets do not reach the target amounts. Boland's cousin made some mistakes, which will affect the decision to expand the business. One issue is the high cost of goods sold ($61\% = 22,000/36,000$). If this expense could be reduced the profit target would be achievable.

Ethical Issue 2

Issue	Is Beatrice Grand making decisions that take advantage of (abuse) the standing agreement between Community Charities (CC) and the Royal Bank of Canada (RBC)?
Stakeholders	Royal Bank of Canada (RBC) is the key stakeholder as its funds are being used. RBC Client representative who will determine whether bank can continue on this basis. Community charities is increasing overdraft position. Beatrice Grand, President, is expanding operations and initiating fundraising for CC.
Alternatives/Impact on stakeholders	RBC could be misled re Beatrice Grand's decisions that lead to the increasing overdraft of Community Charities' cash balance. RBC Client representative will be held accountable if ongoing negative bank balance is abuse of agreement with Community Charities. Community Charities may benefit from expansion and fundraising efforts; however, the organization's overdraft is also increasing. Beatrice Grand is making decisions on behalf of Community Charities which could have positive or negative consequences.
Decision	If RBC is aware of CC's expansion plans, the situation is ethically appropriate. This assumes RBC and CC are communicating openly. If RBC is unaware of Beatrice Grand's decisions, CC is abusing agreement with RBC. In this case, the situation is unethical.

Focus on Analysis

(20-30 min.) Canadian Tire Corporation

Req. 1

During 2014, Canadian Tire had more credit sales than it collected in cash from customers. This is determined by analyzing Trade and Other Receivables, as follows:

	(Millions)
Balance at the end of 2013.....	\$758.5
+ Sales during 2014	S
– Collections from customers during	<u>(C)</u>
= Balance at the end of 2014.....	<u>\$880.2</u>

Sales (S) must have exceeded Collections (C) because the total receivable balance increased during the year.

Req. 2

	(Millions)
Long-term debt:	
At end of 2013 (including current portion)	\$ 2,611.3
At end of 2014 (including current portion)	<u>2,719.1</u>
Increase in long-term debt during 2014	<u>\$ 107.8</u>

Long-term debt increased during 2014, so Canadian Tire must have taken on more long-term debt than it repaid during the year.

Req. 3

	2014	2013
Revenues (millions)	\$12,462.9	\$11,785.6
	Increase = \$677.3	
	5.7%	
Net Income (millions)	\$639.3	\$564.4
	Increase = \$74.9	
	13.3%	

Net Income increased more than Revenues by a healthy percentage. Most investors prefer this outcome because it means that a company was able to increase its revenues while holding the increase in expenses to a lower rate of increase compared to the increase in sales. In other words, the company was able to keep a higher percentage of its revenues in 2014 than it did in 2013.

Shareholders' Equity Accounts

Share capital	Owners' investment in the company
Retained earnings	Cumulative net income (loss) less dividends
Dividends	Distributions to owners
Revenues	Income from providing goods and services
Gains	Income outside the company' s normal operations
Expenses	Costs of operating a business
Losses	Expenses outside the company' s normal operations

Learning Objective Two

Illustrate the impact of business transactions on the accounting equation

Accounting for Business Transactions (1 of 14)

A transaction is an event that both affects the financial position of the business entity and can be reliably recorded.

Accounting for Business Transactions (2 of 14)

Transaction 1:

Students invest \$50,000 to begin Tara Inc., and the business issues share capital.

ASSETS				SHAREHOLDERS' EQUITY	TYPE OF SHAREHOLDERS' EQUITY TRANSACTION

Transactions and Financial Statements

Income Statement data appear as revenues and expenses under Retained Earnings. The revenues increase retained earnings; the expenses decrease retained earnings.

Balance Sheet data are composed of the ending balances of the assets, liabilities, and shareholders' equity

Statement of Retained Earnings repeats net income (or net loss) from the income statement. Dividends are subtracted. Ending retained earnings is the final result.

Double-Entry Accounting

Double-entry system of accounting uses debits and credits to record the dual effects of each business transaction.

$$\text{Assets} = \text{Liabilities} + \text{Shareholders' Equity}$$

The T-Account

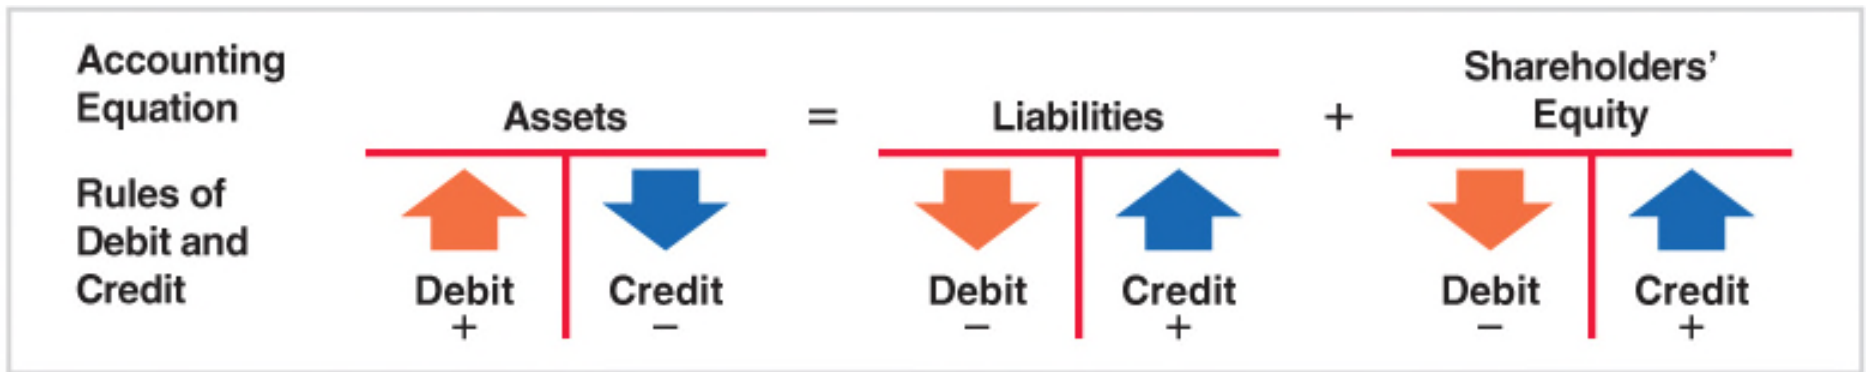

Account Title	
LEFT SIDE	RIGHT SIDE
Debit	Credit

The Rule of Debit & Credit

$$\begin{array}{ccc} \text{Debits} & = & \text{Credits} \\ \text{(Left side)} & & \text{(Right side)} \end{array}$$

$$\text{Assets} = \text{Liabilities} + \text{Shareholders' Equity}$$

Learning Objective Four

Record business transactions in the journal and post them to the ledger

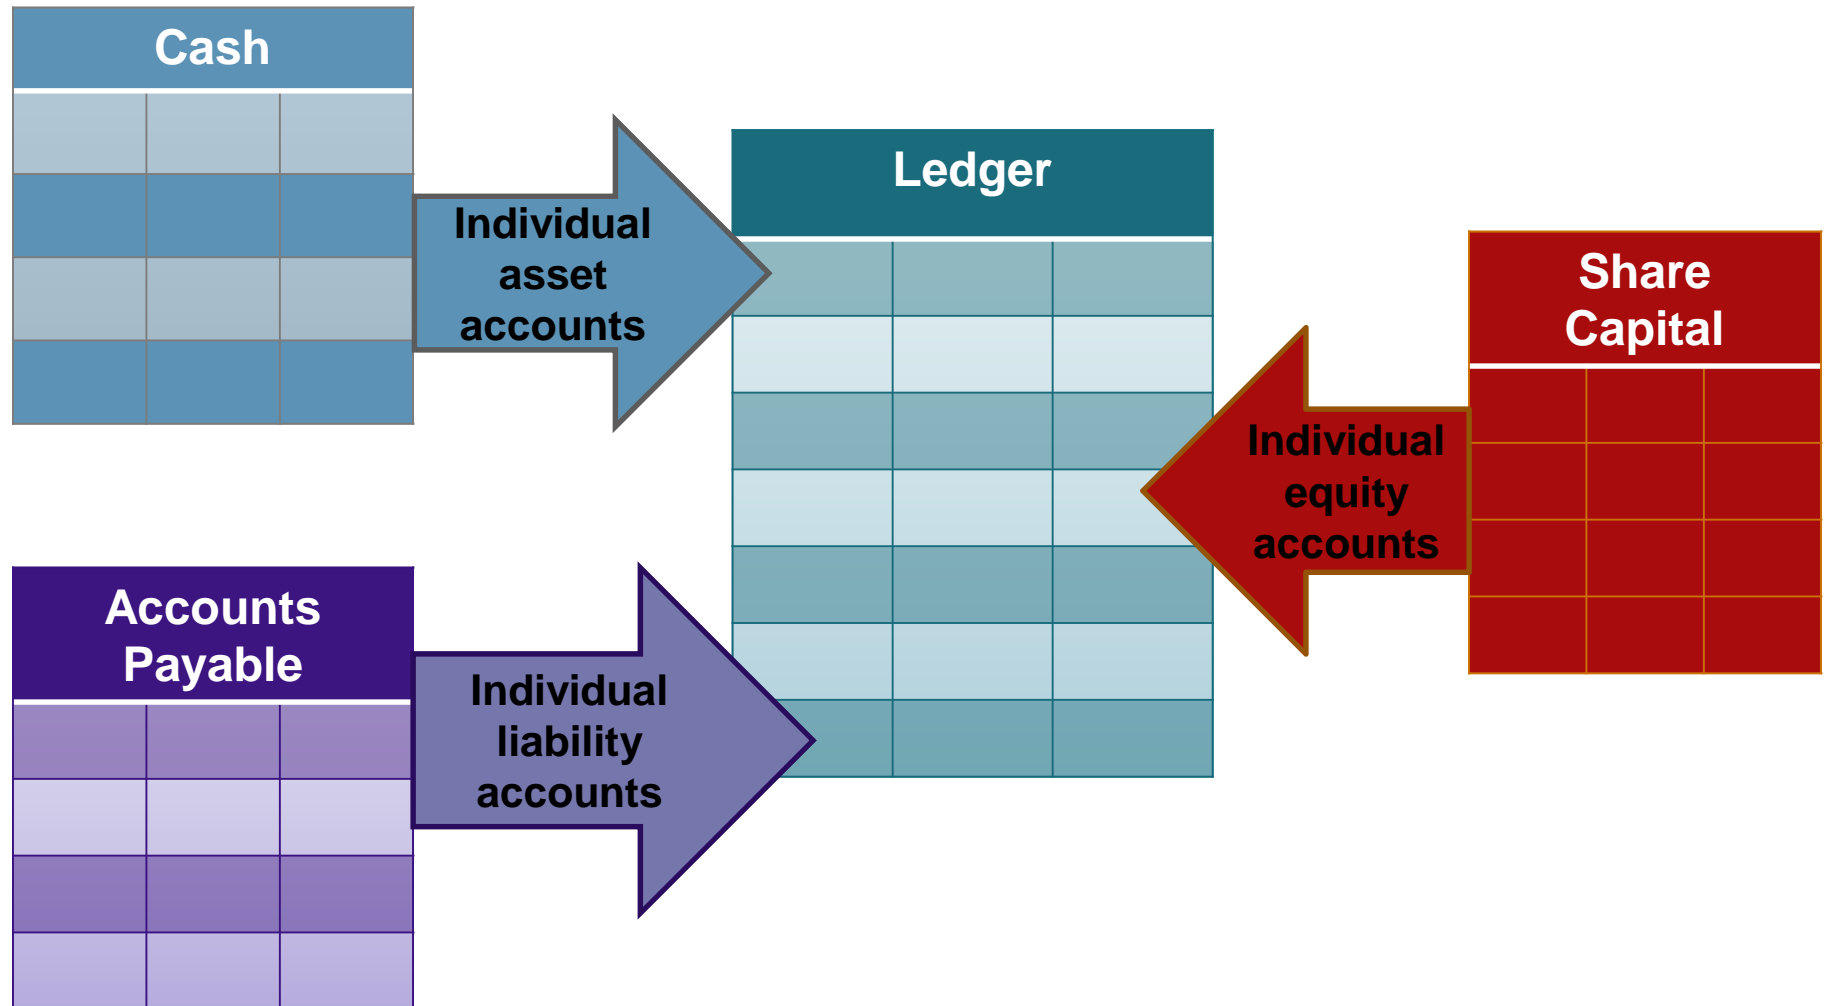

The Journal

- Chronological record of transactions
- Three steps
 - Specify each account affected by the transaction
 - Determine if each account is increased or decreased
 - Use debit credit rules
 - Record in journal

Journal Entry

JOURNAL			
Date	Accounts and explanation	Debit	Credit
Apr. 2	Cash	50,000	
	Share Capital		50,000
	<i>Issued common share</i>		

The Ledger

Learning Objective Five

Prepare and use a trial balance

Trial Balance

- Lists all accounts with their balances
- Assets listed first, then liabilities and shareholders' equity
- Shows that debits equal credits
- Usually prepared at the end of the period
- Facilitates preparation of the financial statements
