[QUESTION]

63. Royal, Inc. discovered that equipment purchased on January 1, 2018 for \$300,000 will not last as long as originally estimated. The firm was depreciating the equipment at the rate of \$40,000 per year with an estimated salvage value of \$20,000. New estimates on January 1, 2021 indicate that the equipment will last a total of five years with no salvage value. How much should Royal, Inc. record as depreciation in 2021?

- a. \$40,000
- b. \$60,000

- c. \$90,000
- d. \$120,000

Answer: c

Feedback: $\$300,000 - (\$40,000 \times 3) = \$180,000$ (remaining book value) $\div 2$ (remaining useful life) = \$90,000

Essay and Computational Questions

[QUESTION]

91. In its accrual-basis income statement for the year ended December 31, 2018, Ralph Company reported revenue of \$2,565,000. Additional information was as follows:

Accounts receivable 12/31/17	\$418,500
Uncollectible accounts written off during 2018	17,200
Accounts receivable 12/31/18	391,700

Required:

Under the cash basis of net income determination, how much should Ralph report as revenue for 2018?

Answer:

Accrual basis revenue	\$2,565,000
+ Beginning accounts receivable balance	418,500
– Ending accounts receivable balance	(391,700)
– Write-offs of accounts receivable	<u>(17,200)</u>
Cash basis revenue (cash collections on accounts receivable)	<u>\$2,574,600</u>

Feedback: Under the cash basis of net income determination, the company would not regard its accounts receivable as revenue. To find cash basis revenue, add the decrease in accounts receivable to the revenue figure and subtract the write-offs to determine cash collections on accounts receivable.

Learning Objective: 02-01

[QUESTION]

92. John Hamilton, D.D.S. keeps his accounting records on the cash basis. During 2018 Dr. Hamilton collected \$220,000 in fees from his patients. At December 31, 2017, Dr. Hamilton had accounts receivable of \$30,000. At December 31, 2018 Dr. Hamilton had accounts receivable of \$35,000 and had collected deferred fee revenue of \$8,000.

Required:

On the accrual basis, what was Dr. Hamilton's patient service revenue for 2018?

Answer:

Cash basis revenue	\$220,000
– Beginning accounts receivable (12/31/17)	(30,000)
+ Ending accounts receivable (12/31/18)	35,000
– Deferred fee revenue on 12/31/18	<u>(8,000)</u>
= Accrual basis revenue	<u>\$217,000</u>

Feedback: To change Dr. Hamilton's revenue from cash basis to an accrual basis, add the recognized but uncollected accounts receivable and subtract the beginning accounts receivable collected in 2018 but recognized in 2017. Also, subtract fees collected in 2018 but not recognized until after 2018 (deferred fee revenue at 12/31/18).

[QUESTION]

93. Under Bart Company's accounting system, all insurance premiums paid are debited to prepaid insurance. For interim reports, Bart makes monthly estimated charges to insurance expense with credits to prepaid insurance. Additional information for the year ended December 31, 2018 is as follows:

Prepaid insurance at December 31, 2017	\$310,000
Charges to insurance expense during 2018, including a year-end adjustment of \$50,000	975,000
Unexpired insurance premiums at December 31, 2018	265,000

Required:

What was the total amount of insurance premiums paid by Bart during 2018?

Answer:

Charges to insurance expense during 2018	\$975,000
– Decrease in prepaid insurance (\$310,000 – \$265,000)	<u>(45,000)</u>
= Insurance premiums paid in 2018	<u>\$930,000</u>

Feedback: The total amount of insurance premiums paid in 2018 is equal to the insurance expense for 2018 less the decline in the balance in prepaid insurance.

[QUESTION]

94. Schlegel Department Store sells gift certificates—redeemable for store merchandise—that expire one year after their issuance. Schlegel has the following information pertaining to its gift certificates sales and redemptions:

Unredeemed certificates at 12/31/17	\$90,000
2018 sales	400,000

2018 redemptions of prior year sales	60,000
2018 redemptions of current year sales	325,000

Schlegel's experience indicates that 10% of gift certificates will not be redeemed. The company's policy is to record revenue on gift certificates when they are redeemed or expire.

Required:

In its 2018 income statement, what amount should Schlegel report as gift certificate revenue?

Answer:

2017 sales redeemed or expired in 2018	\$90,000
2018 sales redeemed in 2018	<u>325,000</u>
2018 gift certificate revenue	<u>\$415,000</u>

Feedback: Any 2017 certificates unredeemed at 1/1/18 will either be redeemed or expire in 2018 and thus should be included in 2018 net income along with the dollar amount of certificates sold and redeemed in 2018.

Topic: Income statement—Multiple-step

[QUESTION]

97. On August 1, 2018, Alpha Co. approved a plan to dispose of an unprofitable segment of its business. Alpha expected that the sale would occur on April 30, 2019, at an estimated gain of \$250,000. The segment had actual and estimated operating profits (losses) as follows:

Realized loss from 1/1/18 to 7/31/18	(\$400,000)
--------------------------------------	-------------

Realized loss from 8/1/18 to 12/31/18	(250,000)
---------------------------------------	-----------

Expected loss from 1/1/19 to 4/30/19	(300,000)
--------------------------------------	-----------

Assume Alpha's tax rate is 30%.

Required:

In its 2018 income statement, what should Alpha report as profit or loss from discontinued operations (net of tax effects)?

Answer:

Realized loss from 1/1/18 to 7/31/18	(\$400,000)
Realized loss from 8/1/18 to 12/31/18	<u>(250,000)</u>
Total pre-tax loss	(650,000)
Tax benefit at 30%	<u>195,000</u>

Loss from discontinued operations, net of tax effect **(\$455,000)**

Feedback: Under GAAP, results of operations on an operating segment or component of an entity classified as held for sale are to be reported in discontinued operations in the periods in which they occur (net of tax effects). None of the expected profit from operating the segment or component of the entity in 2019 or the estimated gain on sale is recognized in 2018. These amounts will be recognized in 2019 as they occur.

Topic: Discontinued operations

[QUESTION]

98. On November 15, 2018, Jones Co. sold a segment of its business for \$2,750,000. The net book value of the segment at the time of its disposal was \$2,900,000. Jones had pretax income from operations of \$1,750,000 for 2018 which included \$360,000 recognized by the discontinued segment prior to its disposal. Assume Jones' tax rate is 30%.

Required:

Prepare a partial income statement for Jones Co. for 2018, beginning with pretax income from continuing operations.

Answer:

Income from continuing operations (\$1,750,000 – \$360,000)	\$1,390,000
Income tax expense (\$1,390,000 × .30)	<u>417,000</u>
Income from continuing operations	973,000
Discontinued operations:	
Income from discontinued operations (net of taxes of \$108,000) from 1/1/18 through 11/15/18	252,000
Loss on disposal of discontinued operations (net of tax benefit of \$45,000)	<u>(105,000)</u>
Net income	<u>\$1,120,000</u>

Feedback: Sale price of segment – book value of segment = gain (loss) on disposal = \$2,750,000 – \$2,900,000 = \$(150,000) pretax loss.

[QUESTION]

99. Delta Co. began operations on January 1, 2018. During 2018 and 2019, the company used the weighted-average method for its inventory costing. In 2020, the company

Copyright © 2018 McGraw-Hill Education. All rights reserved. No reproduction or distribution without the prior written consent of McGraw-Hill Education.

changed its method of inventory costing to FIFO so that its financial statements would be more comparable to those of other firms in its industry. If the FIFO method had been used, Delta's cost of goods sold would have been \$45,000 less in 2018 and \$35,000 less in 2019. Delta's income statements, as originally presented, appear below. Delta's tax rate is 30%.

	2018	2019	2020
Sales	\$1,000,000	\$1,100,000	\$1,210,000
Cost of goods sold	<u>645,000</u>	<u>695,000</u>	<u>726,000</u>
Gross profit	355,000	405,000	484,000
Selling, general and administrative expenses	250,000	255,000	265,000
Depreciation expense	<u>55,000</u>	<u>55,000</u>	<u>55,000</u>
Income before tax	50,000	95,000	164,000
Income tax expense	<u>15,000</u>	<u>28,500</u>	<u>49,200</u>
Net income	<u>\$35,000</u>	<u>\$66,500</u>	<u>\$114,800</u>

Required:

Assume that for comparison purposes Delta presents 2018 and 2019 income statements in its 2020 annual report. Revise Delta's 2018 and 2019 income statements to appear as they should in the 2020 annual report.

Answer:

	2018	2019	2020
Sales	\$1,000,000	\$1,100,000	\$1,210,000
Cost of goods sold	<u>600,000</u>	<u>660,000</u>	<u>726,000</u>
Gross profit	400,000	440,000	484,000
Selling, general and administrative expenses	250,000	255,000	265,000
Depreciation expense	<u>55,000</u>	<u>55,000</u>	<u>55,000</u>
Income before taxes	95,000	130,000	164,000
Income tax expense	<u>28,500</u>	<u>39,000</u>	<u>49,200</u>
Net income	<u>\$66,500</u>	<u>\$91,000</u>	<u>\$114,800</u>

Feedback: Adjustment to inventory = cost of goods sold as originally reported under weighted-average – cost of goods sold under FIFO = (\$645,000 + \$695,000) – (\$600,000 + \$660,000) = \$80,000 over the two-year period of 2018 and 2019. Since pretax income—as restated for the two years—is increased by \$80,000, taxes on the increase @ 30% = \$24,000 total for the two years.

[QUESTION]

100. An analyst gathered the following information about a company whose fiscal year end is December 31, 2018.

Net income for the year was \$23.7 million.

Preferred stock dividends of \$3 million were paid for the year.

Common stock dividends of \$6 million were paid for the year.

There were 10 million shares of common stock outstanding on January 1, 2018.

The company issued 6 million new shares of common stock on July 1, 2018.

The capital structure does not include any potentially dilutive securities.

Required:

Calculate the company's basic earnings per share for 2018.

Answer:

Net income – Preferred stock dividend = $\$23.7 - \$3.0 = \$20.7$ million.

Weighted Average number of common shares = $(0.5 \times 10) + (0.5 \times 16) = 13$ million shares.

EPS = $\$20.7$ million net income \div 13 million shares = **\$1.59 per share.**

[QUESTION]

101. Primo Landscaping commenced its business on January 1, 2018. On December 31, 2018, Primo Landscaping did not record any adjusting entries with respect to the following transactions:

- a. During the first year of its operations, Primo purchased supplies in the amount of \$10,000 (debited to "Supplies expense"), and of this amount, \$3,000 were unused as of December 31, 2018.
- b. On March 15, 2018 Primo received \$36,000 for landscape maintenance services to be rendered for 24 months (beginning July 1, 2018). This amount was credited to "Landscaping revenue."
- c. The company's fuel bill for \$1,300 for the month of December 2018 was not received until January 15, 2019.
- d. The company borrowed \$100,000 from First Bank on April 1, 2018 at an interest rate of 12% per year. The principal, along with all of the interest, is due on March 30, 2019.
- e. On January 17, 2018 the company purchased a backhoe for \$65,000. The backhoe is expected to last for 10,000 hours and have no salvage value. During 2018, Primo operated the backhoe for 500 hours.

Required:

Complete the table below, showing the effect of the omission of each year-end adjusting entry on assets, liabilities, and net income. Use “OS” for overstated, “US” for understated, and “NE” for no effect.

Item Number	Effect of Omission	Assets	Liabilities	Net Income
a.	Direction of effect Dollar amount of effect			
b.	Direction of effect Dollar amount of effect			
c.	Direction of effect Dollar amount of effect			
d.	Direction of effect Dollar amount of effect			
e.	Direction of effect Dollar amount of effect			

Answer:

Item Number	Effect of Omission	Assets	Liabilities	Net Income
a.	Direction of effect Dollar amount of effect	US \$3,000	NE	US \$3,000
b.	Direction of effect Dollar amount of effect	NE	US \$27,000	OS \$27,000
c.	Direction of effect Dollar amount of effect	NE	US \$1,300	OS \$1,300
d.	Direction of effect Dollar amount of effect	NE	US \$9,000	OS \$9,000
e.	Direction of effect Dollar amount of effect	OS \$3,250	NE	OS \$3,250

Feedback: a. Asset not recorded = \$3,000 supplies on hand at 12/31/2018. b. Deferred revenue not adjusted for = \$1,500 per month for services to be rendered from 1/1/2019 to 6/30/2020. c. Fuel expense not recorded = \$1,300. d. Interest expense for 9 months not accrued = $\$100,000 \times 0.12 \times 9/12 = \$9,000$. e. Depreciation expense not recorded = $\$65,000 \div 100,000 \text{ hours} = \$6.50/\text{hour depreciation rate} \times 500 \text{ hours used in 2018} = \$3,250$.
