Chapter 2 Analyzing and Recording Transactions

Chapter Opening Critical Thinking Challenge Questions*

Alexandre Bilodeau experienced a huge setback in achieving his goal of winning gold in the 2006 Olympics. In the face of this challenge, he reflected on the experience, set his personal goal and had a daily action plan to achieve it. These same steps can be applied to your life. For instance, you may experience a setback in this accounting course. For instance, you may not perform as well on a homework assignment or exam as you would have liked. Like Alexandre Bilodeau, take a moment to understand why you may have experience this setback, commit to a personal goal and have a detailed action plan to achieve it. This may include reading the chapters before class, setting aside a few hours each day to work on the homework, meeting up with a friend once a week to discuss challenging topics and going to office hours. You can also learn from Alexandre Bilodeau's determination in pursuing your career and in facing challenges in the workplace.

Concept Review Questions

1. Welcome to Lululemon! We are happy to have you as a co-op student. The fundamental steps in the accounting process are those involved in the accounting cycle: Analyze transactions to determine if an economic exchange has taken place and, if so, journalize and post the transaction. An unadjusted trial balance is then prepared to help identify potential adjustments. Appropriate adjusting entries are journalized and posted and an adjusted trial balance is generated from which the financial statements are prepared. Closing entries are then journalized and posted. Finally, a post-closing trial balance is prepared.

The accounting cycle helps Lululemon keep track of its business activities. These business transactions include buying fabric, selling yoga clothing and paying employees. The accounting cycle helps produce financial statements which provide Lululemon the information to make good business decisions.

2. An account receivable is an amount due to a company, but the amount can be increased by the customer (debtor) by making additional purchases. An account receivable is not a single document but represents the result of several written, oral, or implied promises to pay the creditor. A note receivable is a formal document that specifies the fixed amount due to a company on a fixed date or on demand.
3. Four different asset accounts would include any of the following from Danier's June 28, 2014 balance sheet: Cash, Accounts receivable, Income taxes recoverable, Inventories, Prepaid expenses, Property and equipment, Computer software and Deferred income tax asset. Three different liability accounts would include any of the following: Payables and accruals (same as Accounts payable and accrued liabilities), Deferred revenue, Sales return provision and Deferred lease inducements and rent liability.
4. A debit will decrease and a credit will increase the following accounts: Accounts Payable, Owner's capital and Revenue. Answers will vary, but can include liability (accounts payable, notes payable, unearned revenue and bank loan), owner's capital and revenue accounts.
5. Three debit balance accounts from WestJet's December 31, 2014 balance sheet might include any of the following: Cash and cash equivalents; Restricted cash; Accounts receivable; Prepaid expenses, deposits and other; Inventory; Assets held for sale; Property and equipment; Intangible assets; or Other assets. Three credit balance accounts might include any of the following: Accounts payable and accrued liabilities; Advance ticket sales; Non-refundable guest credits; Current portion of maintenance provisions; Current portion of long-term debt; Maintenance provisions; Long-term debt; Other liabilities; Deferred income tax; Share capital; Equity reserves; Hedge reserves; or Retained earnings.

6. When a company sells services or goods, they will exchange their service or good for cash. When the company sells services or goods, they earn revenue. In the account equation, Cash (Asset) increases and Revenue (Equity) increases. If the customer does not pay today, the company records an accounts receivable instead of cash. Accounts receivable holds value for the company because it is a promise from the customer to pay in the future. When the customer pays cash, the company no longer has an accounts receivable. With the accounting equation, Accounts receivable (Asset) increases and Revenue (Equity) increases.

Account	(1) Type of account	(2) Normal Balance	(3) Financial statement	(4) Time period
Accounts receivable	Asset	Debit	Balance Sheet	A specific point in time
Revenue	Equity	Credit	Income Statement	Period of time

7. Owner's withdrawals are when a business owner takes out money that was earned in the business for personal use. An example is when an owner needs to take out money for a personal vacation. An expense occurs when a cost is needed to run the normal operations of the business. An example is that a business needs to pay its employees for selling clothes at a retail store.

Account	(5) Type of account	(6) Normal Balance	(7) Financial statement
Owner's withdrawals	Equity	Debit	Statement of Changes in Equity
Expense	Equity	Debit	Income Statement

8. Debited accounts are recorded first. The credited accounts are indented.
9. A transaction should first be recorded in a journal to create a complete record of the transaction in one place. Then the transaction is posted to the ledger where entries are summarized by type, i.e., cash, accounts payable, interest expense, etc., to enable analysis by account. This arrangement also means that fewer errors will be made in the accounts.
10. Accounting software is a tool that makes recording accounting transactions easier. You are still the "brain" behind the accounting. You will need to decide when to record a transaction, how to record the transaction, how to interpret the financial statements and what business decisions to make. Knowing how to record accounting manually will help you understand the entire accounting process and what happens behind the software. There are errors in software programs. Over relying on a software program can result in large errors. When you are writing a report using the computer, you still need to know how to write paragraphs and how to explain your content. Just like accounting software, the computer is only a tool.
11. Not preparing a trial balance can cause errors in the financial statements. The trial balance helps to identify and correct errors. If the debits do not equal the credits in the trial balance, this is a clue that errors need to be corrected.

12. The title of the financial statements must have the 1) company name, 2) the name of the financial statement and 3) the date. Dollar signs are used beside the first number in each column and on the total. Some numbers are indented to show a list of similar numbers in a category. For instance, all expenses are indented. This formatting makes the financial statements easier to read. Indentations do not represent debits and credits. The financial statements do not have debits and credits like the trial balance.

Quick Study 2-15

**Vahn Landscaping
Trial Balance
January 31, 2017**

Acct. No.	Account	Debit	Credit
101	Cash.....	\$ 7,000	
163	Equipment.....	9,000	
233	Unearned revenue.....		\$ 2,000
301	Brea Vahn, capital.....		14,000
302	Brea Vahn, withdrawals.....	1,000	
401	Revenue.....		11,000
640	Rent expense	6,000	
690	Utilities expense	<u>4,000</u>	
	Totals.....	<u>\$27,000</u>	<u>\$27,000</u>

Quick Study 2-16

The correct answer is c. If a \$2,250 debit to Rent Expense is incorrectly posted as a credit, the effect is to understate the Rent Expense debit balance by \$4,500. This causes the Debit column total on the trial balance to be \$4,500 less than the Credit column total.

Quick Study 2-17

1. Subtract total debits in the trial balance from total credits
 $24,250 - 21,550 = 2,700$
2. Divide the difference by 9
 $2,700 \div 9 = 300$
3. The quotient equals the difference between the two transposed numbers.
300 is the difference between the two transposed numbers.
4. The number of digits in the quotient tells us the location of the transposition
Look for a difference of 3 between the third number from the right and the fourth number from the right.

Through a process of elimination, the incorrect value is Rent Expense for \$4,100. The correct value must be \$1,400.

Proof: Recalculate the trial balance replacing \$1,400 for the incorrect \$4,100 and the trial balance now balances at \$21,550.

Quick Study 2-18

1. Subtract total debits in the trial balance from total credits

$$728 - 503 = 225$$

2. Divide the difference by 9

$$225 \div 9 = 25$$

The quotient equals the incorrect number.

Through a review of the values in the trial balance, the incorrect value is Notes Payable for \$25. The correct value must be \$250.

Proof: Recalculate the trial balance replacing \$250 for the incorrect \$25 and the trial balance now balances at \$728.

EXERCISES**Exercise 2-1 (30 minutes)**

		(a) Basic Account	(b) Financial Statement	(c) Normal Balance	(d) Effect of a Debit	(e) Effect of a Credit
a.	Cash	Asset	Balance Sheet	Debit	Increase	Decrease
b.	Supplies	Asset	Balance Sheet	Debit	Increase	Decrease
c.	Accounts Payable	Liability	Balance Sheet	Credit	Decrease	Increase
d.	Yoojin Chang, Capital Account	Owner's Capital	Balance Sheet and The Statement of Changes in Equity	Credit	Decrease	Increase
e.	Yoojin Chang, Withdrawals	Withdrawals	The Statement of Changes in Equity	Debit	Increase	Decrease
f.	Design Revenue	Revenue	Income Statement	Credit	Decrease	Increase
g.	Salaries Expense	Expense	Income Statement	Debit	Increase	Decrease
h.	Accounts Receivable	Asset	Balance Sheet	Debit	Increase	Decrease
i.	Notes Payable	Liability	Balance Sheet	Credit	Decrease	Increase
j.	Prepaid insurance	Asset	Balance Sheet	Debit	Increase	Decrease

Exercise 2-2

a.	Analysis	Assets increase. Equity increases.
	Journal entry analysis	Debit the cash account for \$15,000. Credit the Christina Reis, Capital account in equity for \$15,000
b.	Analysis	Assets increase. Liabilities increase.
	Journal entry analysis	Debit the Equipment account for \$2,000. Credit the Accounts Payable account for \$2,000.
c.	Analysis	Assets increase. Assets decrease.
	Journal entry analysis	Debit the Equipment account for \$500. Credit the Cash account for \$500.
d.	Analysis	Assets increase. Equity increases from Revenue.
	Journal entry analysis	Debit the Cash account for \$1,000. Credit the Revenue account for \$1,000.
e.	Analysis	Assets increase. Equity increases from Revenue.
	Journal entry analysis	Debit the Accounts Receivable account for \$700. Credit the Revenue account for \$700.
f.	Analysis	Assets decrease. Liabilities decrease.
	Journal entry analysis	Debit the Accounts Payable account for \$1,000. Credit the Cash account for \$1,000.
g.	Analysis	Assets increase. Assets decrease.
	Journal entry analysis	Debit the Cash account for \$300. Credit the Accounts Receivable account for \$300.

Exercise 2-3

	Date		Account Titles and Explanation	Debit	Credit
a.	Sept.	1	Cash.....	15,000	
			Christina Reis, Capital		15,000
			<i>Investment by owner.....</i>		
b.	Sept.	12	Equipment	2,000	
			Accounts Payable		2,000
			<i>Purchased equipment on credit.</i>		
c.	Sept.	13	Equipment	500	
			Cash		500
			<i>Purchased equipment with cash.</i>		
d.	Sept.	18	Cash.....	1,000	
			Revenue		1,000
			<i>Provided service for cash.</i>		
e.	Sept.	21	Accounts receivable	700	
			Revenue		700
			<i>Provided service on account.....</i>

(g) 300					
Bal. 14,800		Bal. 400		Bal. 2,500	

Accounts Payable 201		Christina Reis, Capital 301		Revenue 403	
(f) 1,000	2,000 (b)		15,000 (a)		1,000 (d)
					700 (e)
	1,000 Bal.		15,000 Bal.		1,700 Bal.

3. The account balance for each T-account is shown above. The accounting equation (Assets = Liabilities + Equity) is proved as follows: \$17,700 = \$1,000 + \$16,700

Exercise 2-5 (30 minutes)

a.	Analysis	Assets increase. Equity increases.		
	Journal entry analysis	Debit the Cash account for \$32,600. Credit the William Curtis, Capital account for \$32,600.		
	Journal Entry			
	Date	Account Description	Debit	Credit
	Oct. 2	Cash	32,600	
		William Curtis, Capital		32,600
		<i>Investment by owner.</i>		
b.	Analysis	Assets increase. Assets decrease.		
	Journal entry analysis	Debit the Supplies account for \$925. Credit the Cash account for \$925.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 4	Office Supplies	925	
		Cash		925
		<i>Purchased supplies for cash.</i>		

Exercise 2-5 (Continued)				
c.	Analysis	Assets increase. Liabilities increase.		
	Journal entry analysis	Debit the Office Equipment account by \$13,600. Credit the Accounts Payable account by \$13,600.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 6	Office Equipment	13,600	
		Accounts payable		13,600
		<i>Purchased office equipment on credit.</i>		
d.	Analysis	Assets increase. Equity increases.		
	Journal entry analysis	Debit the Cash account for \$3,000. Credit the Revenue account for \$3,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 10	Cash	3,000	
		Revenue		3,000
		<i>Cash collected for services provided.</i>		
e.	Analysis	Assets decrease. Liabilities decrease.		
	Journal entry analysis	Debit the Accounts Payable account for \$13,600. Credit the Cash account for \$13,600.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 12	Accounts Payable	13,600	
		Cash		13,600
		<i>Paid office equipment with cash.</i>		

Exercise 2-5 (Continued)				
f.	Analysis	Assets increase. Equity increases.		
	Journal entry analysis	Debit the Accounts Receivable account by \$5,400. Credit the Revenue account by \$5,400.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 16	Accounts Receivable	5,400	
		Revenue		5,400
		<i>Customer billed for services provided.</i>		
g.	Analysis	Assets decrease. Equity decreases.		
	Journal entry analysis	Debit the Rent Expense account for \$3,500. Credit the Cash account for \$3,500.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 18	Rent Expense	3,500	
		Cash		3,500
		<i>Paid October rent with cash.</i>		
h.	Analysis	Assets increase. Assets decrease.		
	Journal entry analysis	Debit the Cash account for \$5,400. Credit the Accounts Receivable account for \$5,400.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 26	Cash	5,400	
		Accounts Receivable		5,400
		<i>Collected amounts owing on account.</i>		

Exercise 2-5 (Concluded)				
i.	Analysis	Assets decrease. Equity decreases.		
	Journal entry analysis	Debit the William Curtis, Withdrawal account for \$5,000. Credit the Cash account for \$5,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Oct. 31	William Curtis, Withdrawals	5,000	
		Cash		5,000
		Withdrawal of cash by owner.		

Exercise 2-6 (20 minutes)

Cash			
(a)	32,600	925	(b)
(d)	3,000	13,600	(e)
(h)	5,400	3,500	(g)
		5,000	(i)
Balance	17,975		

Accounts Receivable			
(f)	5,400	5,400	(h)
Balance	0		

Office Supplies		
(b)	925	
Balance	925	

Office Equipment		
(c)	13,600	
Balance	13,600	

Accounts Payable			
(e)	13,600	13,600	(c)
		0	Balance

William Curtis, Capital			
		32,600	(a)
		32,600	Balance

William Curtis, Withdrawals			
(i)	5,000		
Balance	5,000		

Revenue			
		3,000	(d)
		5,400	(f)
		8,400	Balance

Rent Expense			
(g)	3,500		
Balance	3,500		

Exercise 2-7 (20 minutes)

b.	Accounts Receivable	2,700	
	Services Revenue		2,700
	<i>Provided services on credit.</i>		
c.	Cash	3,150	
	Services Revenue		3,150
	<i>Provided services for cash.</i>		

Revenues are inflows of assets (or decreases in liabilities) received in exchange for goods or services provided to customers. The other transactions did not create revenues for the following reasons:

- a. This transaction brought in cash, but it was an owner investment in the company.
- d. This transaction brought in cash, but it also created a liability because the services have not yet been provided to the client.
- e. This transaction changed the form of the asset from accounts receivable to cash. Total assets were not increased. Revenue was not generated.
- f. This transaction brought cash into the company and increased assets, but it also increased a liability by the same amount.

Exercise 2-8 (20 minutes)

b.	Salaries Expense	1,125	
	Cash		1,125
	<i>Paid the salary of the receptionist.</i>		
d.	Utilities Expense	930	
	Cash		930
	<i>Paid the utilities bill for the office.</i>		

Expenses are outflows or using up of assets (or the creation of liabilities) that occur in the process of providing goods or services to customers. The transactions labelled a, c, and e were not expenses for the following reasons:

- a. This transaction decreased assets in settlement of a previously existing liability. Thus, the using up of assets did not reduce equity.
- c. This transaction was the purchase of an asset. The form of the company's assets changed, but total assets did not change, and the equity did not decrease.
- e. This transaction was a distribution of cash to the owner. Even though equity decreased, the decrease did not occur in the process of providing goods or services to customers.

Exercise 2-9 (45 minutes)**Part 2**

GENERAL JOURNAL					Page 1
Date		Account Titles and Explanation	PR	Debit	Credit
2017					
July	1	Cash.....	101	5,000	
		Manny Gill, Capital.....	301		5,000

Exercise 2-9 (continued)

Part 4

**Wild West Secure
Trial Balance
July 31, 2017**

Acct. No.	Account Title	Debit	Credit
101	Cash	\$11,250	
106	Accounts receivable	1,500	
150	Equipment.....	2,500	
201	Accounts payable.....		\$ 2,500
301	Manny Gill, capital.....		5,000
302	Manny Gill, withdrawals.....	250	
401	Revenue		11,500
501	Expenses	<u>3,500</u>	
	Totals.....	<u>\$19,000</u>	<u>\$19,000</u>

Exercise 2-9 (concluded)

Part 5

**Wild West Secure
Income Statement
For Month Ended July 31, 2017**

Revenue	\$11,500
Expenses	<u>3,500</u>
Profit.....	<u>\$ 8,000</u>

**Wild West Secure
Statement of Changes in Equity
For Month Ended July 31, 2017**

Manny Gill, capital, July 1	\$ 0
Add: Investments by owner	\$5,000
Profit.....	<u>8,000</u>
Total	<u>13,000</u>
Less: Withdrawals by owner	<u>250</u>
Manny Gill, capital, July 31	<u>\$12,750</u>

*The arrows are
imaginary but
emphasize the
link between
statements.*

**Wild West Secure
Balance Sheet
July 31, 2017**

Assets		Liabilities	
Cash.....	\$11,250	Accounts payable	\$ 2,500
Accounts receivable	1,500		
Equipment	<u>2,500</u>		
		Equity	
		Manny Gill, capital.....	<u>12,750</u>
		Total liabilities and	
Total assets	<u>\$15,250</u>	equity	<u>\$15,250</u>

Analysis component:

Accounts receivable result from credit sales to customers (debit accounts receivable and credit a revenue). Sales, or revenue, is part of equity. As revenues on account are recorded, assets on the left side of the accounting equation increase and equity on the opposite side of the accounting equation also increases. Therefore, accounts receivable are financed by, or created by, an equity transaction.

Exercise 2-10 (10 minutes)

Note: Students could choose any account number within the specified range.

Account Number	Account Name
101	Cash
115	Accounts Receivable
160	Office Equipment
210	Accounts Payable
215	Unearned Revenue
310	Aaron Paquette, Capital
320	Aaron Paquette, Withdrawals
410	Consulting Revenues
510	Salaries Expense
520	Rent Expense
530	Utilities Expense

Exercise 2-11 (30 minutes)

1.		General Journal			Page G1

Exercise 2-11 (Concluded)

4.

Paquette Advisors
Income Statement
For Two Months Ended February 28, 2017

Revenues:

Consulting revenues \$50,200

Operating expenses:

Salaries expense \$20,000

Rent expense 7,500

Utilities expense 1,000

Total operating expenses 28,500

Profit..... \$21,700

*The arrows are imaginary
but emphasize the link
between statements.*

5.

Paquette Advisors
Statement of Changes in Equity
For Two Months Ended February 28, 2017

Aaron Paquette, capital, March 1 \$ 0

Add: Investments by owner \$ 9,500

Profit..... 21,700 31,200

Total \$31,200

Less: Withdrawals by owner 5,000

Aaron Paquette, capital, February 28..... \$26,200

6.

Paquette Advisors
Balance Sheet
February 28, 2017

Assets

Cash..... \$ 9,100

Accounts receivable 3,800

Office equipment..... 22,500

Total assets \$35,400

Liabilities

Accounts payable \$ 3,000

Unearned revenue..... 6,200

Total liabilities \$ 9,200

Equity

Aaron Paquette, capital 26,200

Total liabilities and equity \$35,400

Analysis component:

Unearned revenue occurs when cash is received from a customer in advance of the work being done. The collection is not recorded as revenue because it has not been earned until the work is done. Unearned revenue is therefore a liability because the business owes the customer a service (or work). For example, WestJet receives cash from customers in advance of the customer actually flying and records it as advance ticket revenue, a type of unearned revenue. These cash collections are recorded as advance ticket revenue, a liability, because the cash doesn't belong to WestJet until they have earned it which occurs when the customer takes their flight.

Exercise 2-12 (30 minutes)

a.	Cash	7,000	
	Equipment.....	5,600	
	Automobiles	11,000	
	Jerry Steiner, Capital.....		23,600
	<i>The owner invested cash, an automobile, and equipment.</i>

	Cash	101			3,000
	<i>Paid month-end salaries.</i>				
31	Toshi Sato, Withdrawals.....	302	750		
	Cash	101			750
	<i>Toshi Sato withdrew cash for personal use.</i>				

Analysis component:

All of the details regarding a transaction, such as serial numbers or invoice numbers, form part of the journal entry recorded in the journal and provide a chronological picture of what has happened in the business. The general ledger does not accommodate these kinds of very necessary details. Therefore, we need to journalize to ensure important details are readily available.

The general ledger summarizes by account all of the transactions recorded in the journal. For example, without the ledger, we would not be able to determine the balance in cash without going through the journal and adding/subtracting all of the individual transactions. The ledger allows us to have account balance information.

In summary, although it appears that journalizing and posting are recording the same information twice, the journal and ledger each serve different and important functions in the accounting system.

Exercise 2-15 (25 minutes)

General Journal					Page G1
Date	Account Titles and Explanation	PR	Debit		Credit
2017					
Aug. 1	Cash	101	20,000

THE PIXEL SHOP
Trial Balance
August 31, 2017

Acct No.	Account Title	Debit	Credit
101	Cash	\$ 14,000	
124	Office supplies	1,800	
131	Prepaid rent	12,000	
167	Photography equipment	42,000	
301	Joseph Eetok, capital.....		\$62,000
401	Photography revenue.....		9,200
690	Utilities expense	<u>1,400</u>	
	Totals	<u>\$71,200</u>	<u>\$71,200</u>

Analysis component:

The trial balance is not a financial statement; it is an internal working paper used to verify that debits and credits in the general ledger are equal and to review account balances. The trial balance format does not readily communicate information such as financial performance and financial position, information that is desired by external decision makers. Financial statements are used for external reporting because the formats of these communicate information desired by external users. For example, the income statement reports financial performance while the balance sheet reports financial position.

Exercise 2-17 (20 minutes)

Cash 101				Office Supplies 124		Prepaid Rent 131	
Aug. 1	20,000	12,000	Aug. 1	Aug. 5	1,800	Aug. 1	12,000
20	9,200	1,800	5				
		1,400	31				
Bal	14,000						

Photography Equipment 167		Joseph Eetok, Capital 301	
Aug. 1	42,000	62,000	Aug. 1

Photography Revenue 401		Utilities Expense 690	
	9,200 Aug. 20	Aug. 31	1,400

THE PIXEL SHOP
Trial Balance
August 31, 2017

Acct. No.	Account Title	Debit	Credit
101	Cash	\$14,000	
124	Office supplies.....	1,800	
131	Prepaid rent	12,000	
167	Photography equipment	42,000	
301	Joseph Eetok, capital.....		\$62,000
401	Photography revenue.....		9,200
690	Utilities expense	1,400	
	Totals	<u>\$71,200</u>	<u>\$71,200</u>

Exercise 2-17 (Concluded)

Analysis component:

The trial balance is an internal working paper used to verify that debits and credits in the general ledger are equal and to review account balances. The trial balance format does not readily communicate information such as financial performance and financial position, information that is desired by external decision makers. Financial statements are used for external reporting because the formats of these communicate information desired by external users. For example, the income statement reports financial performance while the balance sheet reports financial position

Exercise 2-18 (20 minutes)

Extreme Hockey
Income Statement
For Year Ended December 31, 2017

Revenues:		
Consulting revenue		\$18,000
Operating expenses:		
Wages expense	\$29,000	
Rent expense	<u>8,000</u>	
Total operating expenses		<u>37,000</u>
Loss		<u>\$19,000</u>

Extreme Hockey
Statement of Changes in Equity
For Year Ended December 31, 2017

Ryan Roy, capital, January 1		\$ 0
Add: Investments by owner		<u>50,000</u>
Total		<u>\$50,000</u>
Less: Withdrawals by owner	\$2,000	
Loss	<u>19,000</u>	<u>21,000</u>
Ryan Roy, capital, December 31		<u>\$29,000</u>

The arrows are imaginary
but emphasize the link
between statements.

Extreme Hockey
Balance Sheet
December 31, 2017

Assets		Liabilities	
Cash	\$18,000	Accounts payable	\$ 17,300
Accounts receivable	5,200	Notes payable	<u>47,000</u>
Prepaid rent	13,000	Total liabilities	<u>\$ 64,300</u>
Machinery	<u>57,100</u>	Equity	
		Ryan Roy, capital	<u>29,000</u>
		Total liabilities and	
Total assets	<u>\$93,300</u>	equity	<u>\$ 93,300</u>

Analysis component:

Losses cause equity to decrease. If equity decreases, either assets have to decrease and/or liabilities must increase to keep the balance sheet in balance. Therefore, if Extreme Hockey's Consulting continues to experience losses, there are two short-term alternatives available to prevent a decrease in assets. First, the business could borrow which would increase liabilities and temporarily increase assets until payments had to be made. Second, Ryan Roy, the owner, could invest additional assets into the business which would increase equity and assets. However, for the long-term, the owner does not want to support the business through continual investments; the business must be able to support itself through positive performance (profit).

Exercise 2-19 (20 minutes)

JenCo
Income Statement
For Month Ended March 31, 2017

Revenues:	
Service revenue.....	\$1,650
Operating expenses:	
Salaries expense.....	\$ 800
Interest expense.....	<u>10</u>
Total operating expenses	<u>810</u>
Profit.....	<u>\$ 840</u>

JenCo
Statement of Changes in Equity
For Month Ended March 31, 2017

Marie Jensen, capital, March 1	\$ 0
Add: Investment by owner.....	\$2,050
Profit.....	<u>840</u>
Total	<u>2,890</u>
Less: Withdrawal by owner	<u>1,500</u>
Marie Jensen, capital, March 31	<u>\$1,390</u>

JenCo
Balance Sheet
March 31, 2017

Assets		Liabilities	
Cash	\$ 500	Accounts payable	\$ 500
Accounts receivable	1,950	Unearned service revenue.....	460
Prepaid insurance	300	Notes payable.....	<u>1,100</u>
Equipment	<u>700</u>	Total liabilities	<u>\$2,060</u>
Total assets		Equity	
	<u>\$3,450</u>	Marie Jensen, capital	<u>1,390</u>
		Total liabilities and equity	<u>\$3,450</u>

The arrows are imaginary but emphasize the link between statements.

Exercise 2-20 (20 minutes)

**Media Marketing Services
Income Statement
For Month Ended March 31, 2017**

Revenues:	
Revenue	\$126,000
Operating expenses:	
Wages expense	\$146,000
Office supplies expense	<u>7,000</u>
Total operating expenses	<u>153,000</u>
Loss	<u>\$ 27,000</u>

**Media Marketing Services
Statement of Changes in Equity
For Month Ended March 31, 2017**

Sam Smith, capital, March 1	\$87,000*
Add: Investment by owner	<u>35,000</u>
Total	\$122,000
Less: Withdrawal by owner	\$ 18,000
Loss	<u>27,000</u>
Sam Smith, capital, March 31	<u>\$77,000</u>

**Media Marketing Services
Balance Sheet
March 31, 2017**

<i>Assets</i>		<i>Liabilities</i>	
Cash	\$ 17,000	Accounts payable	\$ 46,000
Accounts receivable ...	3,000	Notes payable	<u>114,000</u>
Office supplies	3,000	Total liabilities	\$ 160,000
Building	80,000		
Land	84,000		
Machinery	<u>50,000</u>		
Total assets	<u>\$237,000</u>		

<i>Equity</i>	
Sam Smith, capital	<u>77,000</u>
Total liabilities and equity	<u>\$237,000</u>

*The arrows are imaginary
but emphasize the link
between statements.*

***\$122,000 March 31/14 Balance - \$35,000 invested in March = \$87,000 March 1/14 Balance**

Exercise 2-21 (20 minutes)

	<i>Description</i>	<i>(1) Difference Between Debit and Credit Columns</i>	<i>(2) Column With the Larger Total</i>	<i>(3) Identify Account(s) Incorrectly Stated</i>	<i>(4) Amount That Account(s) is Overstated or Understated</i>
a.	A \$2,400 debit to Rent Expense was posted as a \$1,590 debit.	\$810	Credit	Rent Expense	Rent Expense is understated by \$810
b.	A \$42,000 debit to Machinery was posted as a debit to Accounts Payable.	\$0	—	Machinery Accounts Payable	Machinery is understated by \$42,000 and Accounts Payable is understated by \$42,000
c.	A \$4,950 credit to Services Revenue was posted as a \$495 credit.	\$4,455	Debit	Services Revenue	Services Revenue is understated by \$4,455
d.	A \$1,440 debit to Store Supplies was not posted at all.	\$1,440	Credit	Store Supplies	Store Supplies is understated by \$1,440
e.	A \$2,250 debit to Prepaid Insurance was posted as a debit to Insurance Expense.	\$0	—	Prepaid Insurance Insurance Expense	Prepaid Insurance is understated by \$2,250 and Insurance Expense is overstated by \$2,250
f.	A \$4,050 credit to Cash was posted twice as two credits to the Cash account.	\$4,050	Credit	Cash	Cash is understated by \$4,050
g.	A \$9,900 debit to the owner's withdrawals account was debited to the owner's capital account.	\$0	—	Owner's Capital Owner's Withdrawals	Owner's Capital account is understated by \$9,900 Owner's Withdrawals is understated by \$9,900

Exercise 2-22 (15 minutes)

- a. 1. Dr = Cr
2. Accounts Receivable is understated (too low) by \$3,500 and Revenue is understated by \$3,500.
- b. 1. Dr = Cr
2. Accounts Payable is overstated (too high) by \$600 and Cash is overstated by \$600.
- c. 1. Dr ≠ Cr
2. Cash is overstated by \$180.
- d. 1. Dr ≠ Cr
2. Accounts Receivable is overstated by \$750.
- e. 1. Dr = Cr
2. Accounts Payable is understated by \$2,000 and Equipment is understated by \$2,000.

Exercise 2-23 (15 minutes)

Case A:

- 1. Subtract total debits in the trial balance from total credits
 $5,010 - 4,290 = 720$
- 2. Divide the difference by 9
 $720 \div 9 = 80$
- 3. The quotient equals the difference between the two transposed numbers.
80 is the difference between the two transposed numbers.
- 4. The number of digits in the quotient tells us the location of the transposition.
Look for a difference of 8 between the second number from the right and the third number from the right.

Through a process of elimination, the incorrect value is Accounts Payable of \$190. The correct value must be \$910.

Proof: Recalculate the trial balance replacing \$910 for the incorrect \$190 and the trial balance now balances at \$5,010.

Exercise 2-23 (*concluded*)

Case B:

1. Subtract total debits in the trial balance from total credits
 $34,400 - 28,100 = 6,300$
2. Divide the difference by 9 to reveal a slide error
 $6,300 \div 9 = 700$
3. The quotient identifies a slide error and equals the correct value.

Through a process of elimination, the incorrect value is Withdrawals for \$7,000. The correct value must be \$700.

Proof: Recalculate the trial balance replacing \$700 for the incorrect \$7,000 and the trial balance now balances at \$28,100.

Case C:

1. Subtract total debits in the trial balance from total credits
 $942 - 906 = 36$
2. Divide the difference by 9
 $36 \div 9 = 4$
3. The quotient equals the difference between the two transposed numbers.
4 is the difference between the two transposed numbers.
4. The number of digits in the quotient tells us the location of the transposition.
Look for a difference of 4 between the first number from the right and the second number from the right.

Through a process of elimination, the incorrect value is Cash for \$59. The correct value must be \$95.

Proof: Recalculate the trial balance replacing \$95 for the incorrect \$59 and the trial balance now balances at \$942.

PROBLEMS

Problem 2-1A (30 minutes)

Nov 1	Analysis	Assets increase. Equity increases.		
	Journal entry analysis	Debit the Cash account for \$200,000. Debit the Aircraft Equipment account for \$50,000. Credit the Tobias Eaden, Capital account for \$250,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 1	Cash	200,000	
		Aircraft Equipment	50,000	
		Tobias Eaden, Capital		250,000
		<i>Owner investment of cash and equipment.</i>		
Nov 3	Analysis	Assets increase and assets decrease. Liabilities increase.		
	Journal entry analysis	Debit the Land account for \$400,000. Debit the Building account for \$100,000. Credit the Cash account for \$125,000. Credit the Long-Term Notes Payable account for 375,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 3	Land	400,000	
		Building	100,000	
		Cash		125,000
		Long-Term Notes Payable		375,000
		<i>Purchased Land and Building with Cash and a long-term Notes Payable.</i>		

Problem 2-1A (Continued)				
Nov 7	Analysis	Assets increase. Equity increase.		
	Journal entry analysis	Debit the Airplane account for \$200,000. Credit the Tobias Eaden account for \$200,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 7	Airplane	200,000	
		Tobias Eaden, Capital		200,000
		<i>Owner investment of asset.</i>		
Nov 9	Analysis	Assets increase. Liabilities increase.		
	Journal entry analysis	Debit the Supplies account for \$5,000. Credit the Accounts Payable account for \$5,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 9	Supplies	5,000	
		Accounts Payable		5,000
		<i>Purchased supplies on credit.</i>		
Nov 13	Analysis	Assets increase. Equity increases.		
	Journal entry analysis	Debit the Accounts Receivable account for \$16,000. Credit the Revenue account for \$16,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 13	Accounts Receivable	16,000	
		Revenue		16,000
		<i>Billed customer for services provided.</i>		

Problem 2-1A (Continued)				
Nov 17	Analysis	Assets decrease. Equity decreases.		
	Journal entry analysis	Debit the Wages Expense account for \$3,000. Credit the Cash account for \$3,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 17	Wages Expense	3,000	
		Cash		3,000
		<i>Paid wages.</i>		
Nov 21	Analysis	No Transaction required.		
	Journal entry analysis			
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
		No Transaction required.		
Nov 23	Analysis	Assets decrease. Liabilities decrease.		
	Journal entry analysis	Debit the Liabilities account for \$2,500. Credit the Cash account for \$2,500.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 23	Accounts Payable	2,500	
		Cash		2,500
		<i>Paid accounts payable.</i>		

Problem 2-1A (Concluded)				
Nov 27	Analysis	Assets increase. Assets decrease.		
	Journal entry analysis	Debit the Aircraft equipment (new) account for \$20,000. Credit the Cash account for \$15,000. Credit the Aircraft equipment (old) account for \$5,000.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 27	Aircraft equipment (new)	20,000	
		Cash		15,000
		Aircraft equipment (old)		5,000
		Purchase of aircraft equipment.		
Nov 30	Analysis	Assets decrease. Equity decreases.		
	Journal entry analysis	Debit the Tobias Eaden, Withdrawal account for \$3,200. Credit the Cash account for \$3,200.		
	Journal Entry			
	Date	Account Titles and Explanation	Debit	Credit
	Nov 30	Tobias Eaden, Withdrawals	3,200	
		Cash		3,200
		Withdrawal of cash by owner.

HR Solutions
Trial Balance
May 31, 2017

Acct. No.	Account Title	Debit	Credit
101	Cash	\$ 19,100	
106	Accounts receivable.....	8,480	
124	Office supplies.....	6,400	
128	Prepaid insurance	7,500	
131	Prepaid rent	14,400	
163	Office equipment	72,000	
201	Accounts payable.....		\$ 16,000
301	Elizabeth Wong, capital		123,000
302	Elizabeth Wong, withdrawals	5,000	
403	Services revenue		29,280
623	Wages expense.....	34,000	
690	Utilities expense	1,400	
	Totals	<u>\$168,280</u>	<u>\$168,280</u>

Analysis component:

Equity represents how much of HR Solutions' assets belong to the owner, Elizabeth Wong. Services Revenue is an equity account because as revenues are realized, the business's net worth (assets – liabilities, or equity) increases either through the receipt of an asset (cash or accounts receivable) or satisfying a liability (unearned revenues). Utilities Expense is an equity account because as expenses are realized, net worth (what belongs to the owner) decreases either through the use of an asset (such as prepaid insurance) or increase in a liability (such as rent payable). Elizabeth Wong, Withdrawals is an equity account because as the owner withdraws assets, Elizabeth Wong's equity in the business (what belongs to the owner) decreases. The owner's objective is for the business to generate sufficient revenues to cover all expenses, provide sufficient assets for the purpose of withdrawals, and at the same time maintain or preferably increase equity (because excess revenues remained after deducting expenses and withdrawals).

Problem 2-7B (concluded)**Part 4**

WiCOM SERVICING
Trial Balance
November 30, 2017

Acct. No.	Account Title	Debit	Credit
101	Cash	\$ 7,850	
106	Accounts receivable.....	6,400	
124	Office supplies.....	3,350	
128	Prepaid insurance	3,750	
131	Prepaid rent	21,000	
163	Office equipment	28,000	
201	Accounts payable.....		\$ 1,700
301	Tait Unger, capital		81,000
302	Tait Unger, withdrawals	5,300	
401	Service revenue		13,600
680	Wages expense	19,000	
690	Utilities expense	1,650	
	Totals	<u>\$96,300</u>	<u>\$96,300</u>

Analysis component:

The November 29 purchase of office supplies is recorded as a debit to an asset account because they have not yet been used. Assets are economic resources held by the business. The supplies will remain on the books as an asset until they are used. Once used, the supplies will become an expense.

TOUR-ALONG
Balance Sheet
November 30, 2017

Assets		Liabilities	
Cash	\$15,050	Accounts payable.....	\$33,000
Office supplies	1,700	Notes payable	<u>48,000</u>
Office equipment.....	<u>70,000</u>	Total liabilities	<u>\$81,000</u>
		Equity	
		Ike Petrov, capital.....	<u>5,750</u>
		Total liabilities and	
Total assets	<u>\$86,750</u>	equity	<u>\$86,750</u>

Analysis component:

The \$8,000 October 31 balance in Ike Petrov, Capital represents investments made by the owner, Ike Petrov, into the business.

Problem 2-13B

LINCOLN LANDSCAPING
Income Statement
For Three Months Ended July 31, 2017

Revenues:	
Revenue	\$29,100
Operating expenses:	
Wages expense	\$59,000
Advertising expense	1,750
Rental expense	1,100
Repairs expense	<u>930</u>
Total operating expenses	<u>62,780</u>
Loss	<u>\$33,680</u>

LINCOLN LANDSCAPING	
Statement of Changes in Equity	
For Three Months Ended July 31, 2017	
Brielle Lincoln, capital, May 1	\$ 0
Add: Investments by owner	<u>65,000</u>
Total	<u>65,000</u>
Less: Withdrawals by owner	\$ 8,950
Loss	<u>33,680</u>
Brielle Lincoln, capital, July 31	<u>\$22,370</u>

The arrows are
imaginary but
emphasize the link
between
statements.

LINCOLN LANDSCAPING			
Balance Sheet			
July 31, 2017			
Assets		Liabilities	
Cash	\$ 23,720	Accounts payable	\$ 37,500
Accounts receivable	18,600	Unearned revenue	2,800
Prepaid insurance	13,750	Long-term notes payable	<u>58,000</u>
Equipment	<u>64,600</u>	Total liabilities	<u>\$98,300</u>
		Equity	
		Brielle Lincoln, capital	<u>22,370</u>
		Total liabilities and	
Total assets	<u>\$120,670</u>	equity	<u>\$120,670</u>

Analysis component:

- a) Assets financed by debt = $(\$98,300 / \$120,670) \times 100 = 81.5\%$
b) Assets financed by equity = $(\$22,370 / \$120,670) \times 100 = 18.5\%$

ANALYTICAL AND REVIEW PROBLEMS

A&R Problem 2-1 (35 minutes)

YOUNG ENGINEERING
Trial Balance
March 31, 2017

Account Title	Debit	Credit
Cash.....	\$26,660	
Office supplies	660	
Prepaid insurance.....	3,200	
Office equipment.....	16,500	
Accounts payable		\$16,500
Carlos Young, capital		17,000
Carlos Young, withdrawals	3,740	
Consulting revenue.....		24,000
Rent expense.....	6,740	
Totals	<u>\$57,500</u>	<u>\$57,500</u>

1. Purchased \$660 of office supplies for cash.
2. Paid \$3,200 insurance premium in advance.
3. Purchased \$16,500 office equipment on credit.
4. Carlos Young invested \$17,000 cash in the business.
5. Carlos Young withdrew \$3,740 cash from the business for personal use.
6. Earned \$24,000 in consulting services and was paid in cash.
7. Paid \$6,740 rent expense with cash.

A&R 2-2 (30 minutes)

Designer Drycleaning
Statement of Changes in Equity
For Months Ended

	April 30, 2017	March 31, 2017
Christopher Dior, capital, beginning.....	\$ 34,400	\$ 0
Add: Investment by owner	0	10,000
Profit.....	<u>48,500⁴</u>	<u>25,400³</u>
Total	\$ 82,900	\$35,400
Less: Withdrawals by owner	<u>25,100</u>	<u>1,000</u>
Christopher Dior, capital, ending	<u>\$57,800</u>	<u>\$34,400</u>

Designer Drycleaning
Balance Sheet

	April 30, 2017	March 31, 2017		April 30, 2017	March 31, 2017
Assets			Liabilities		
Cash.....	\$ 7,000	\$ 3,000	Accounts payable.....	\$ 700	\$ 500
Cleaning supplies	3,500	900	Notes payable	<u>40,000</u>	<u>15,000</u>
Prepaid rent.....	12,000	16,000	Total liabilities	\$40,700	\$15,500
Equipment	<u>76,000</u>	<u>30,000</u>	Equity		
			Christopher Dior, capital.....	<u>57,800²</u>	<u>34,400¹</u>
			Total liabilities and equity	<u>\$98,500</u>	<u>\$49,900</u>
Total assets	<u>\$98,500</u>	<u>\$49,900</u>			

Calculations:

1. $49,900 - 15,500 = 34,400$
2. $98,500 - 40,700 = 57,800$
3. $34,400 + 1,000 - 10,000 = 25,400$
4. $57,800 + 25,100 - 34,400 = 48,500$

Analysis component:

- a. Liabilities increased because of the \$200 increase in accounts payable and the \$25,000 increase in notes payable used, most probably, to finance the purchase of equipment (equipment increased by \$46,000).
- b. Equity increased by a larger amount in March than April because the owner invested \$10,000 during March and nothing during April. Also, during April, the owner made a withdrawal of \$25,100 and only \$1,000 in March. Profit in April was almost twice as much as that reported for March but the large withdrawal and no investments during April caused equity to increase by a smaller amount than in March.

ETHICS CHALLENGE

This problem emphasizes the importance of source documents.

1. There are advantages to the process proposed by the manager. They include improved customer service, less delays, and less work for you. However, you should have serious concerns about the potential for fraud. In particular, there is no control over the possibility of embezzlement by the manager because there are no source documents* being prepared at the time of sale. The manager could steal cash and simply prepare sales receipts to match the remaining cash.

This case involves a conflict between the need for efficiency and the need for control in the form of source documents*. While it makes sense to take and process sales receipts quickly, this efficiency is being accomplished by a shortcut that greatly weakens control over cash receipts. That is, cash could be received and lost because there would be no source documents to verify the sales and cash received.

**Recall from Chapter 1 that source documents identify and describe transactions entering the accounting process and are the source of accounting information, whether in paper or electronic form.*

2. The manager's explanation that the owner does not arrive until 3:00 p.m. suggests that the owner does not know about the proposed shortcut. Thus, the new employee is faced with the dilemma of deciding whether to accept the manager's instructions, to confront the manager with the argument that the shortcut seems wrong, or to ask the owner to confirm the instructions. Each of these alternatives involves personal risk.

Initially, the best thing may be to simply work as instructed for a while in order to get an idea of whether the shortcut is being abused by the manager and perhaps to find out discreetly whether the owner knows about it. The relationship that develops between you and the manager may be of a nature that will allow you to explain your concern and convince the manager that the shortcut should be avoided. Even if the manager is not abusing this shortcut, there are other reasons for doing away with it, such as maintaining accurate records for tax reports and gathering marketing information. Also, the shortcut may result in fraud by other employees who might not be as honest as you and the manager.

If you conclude that the manager is committing fraud, you should report the situation to the owner as quickly as possible.

FFS 2-1

McALLISTER SURVEYING
Income Statement
For Month Ended May 31, 2017

Revenue:		
Surveying fees earned		\$18,000
Operating expenses:		
Advertising expense	\$3,200	
Rent expense	3,100	
Salaries expense	3,000	
Insurance expense	900	
Telephone expense	600	
Utilities expense	<u>300</u>	
Total operating expenses		<u>11,100</u>
Profit		<u>\$ 6,900</u>

McALLISTER SURVEYING
Statement of Changes in Equity
For Month Ended May 31, 2017

Travis McAllister, capital, May 1		\$75,000
Add: Investments by owner	\$3,000	
Profit	<u>6,900</u>	<u>9,900</u>
Total		\$84,900
Less: Withdrawals by owner		<u>6,000</u>
Travis McAllister, capital, May 31		<u>\$78,900</u>

McALLISTER SURVEYING
Balance Sheet
May 31, 2017

Assets		Liabilities	
Cash	\$ 3,900	Accounts payable	\$ 2,400
Accounts receivable	2,700	Unearned surveying fees	6,000
Office supplies	300	Short-term notes payable	<u>48,000</u>
Prepaid insurance	1,800	Total liabilities	\$ 56,400
Prepaid rent	4,200		
Surveying equipment	5,400		
Buildings	81,000	Equity	
Land	<u>36,000</u>	Travis McAllister, capital	<u>78,900</u>
Total assets	<u>\$135,300</u>	Total liabilities and equity	<u>\$135,300</u>

Analysis component:

Withdrawals are how an owner takes assets out of the business for personal use.

McAllister Surveying realized a \$6,900 profit during the month which caused equity to

increase. It is reasonable for the owner to benefit from that profit by making a withdrawal even though withdrawals cause equity to decrease.

Accounts Receivable	XXX	
Guest Revenues		XXX
<i>Provided services to customers on account.</i>		
Cash	XXX	
Guest Revenues		XXX
<i>Provided services to customers for cash.</i>		

1(a)(ii) Revenues affect the balance sheet because they cause equity to increase.

1(a)(iii) The Revenue Recognition Principle assures us that revenues on the income statement are for the year ended December 31, 2014.

1(b)(i)

Interest Expense	XXX	
Cash		XXX
<i>Paid interest expense..</i>		

1(b)(ii) Yes, expenses affect the balance sheet because they cause equity to decrease.

2(a) *Advance ticket sales* represent airline tickets sold in advance to customers.

2(b)

Cash	XXX	
Advance Ticket Sales		XXX
<i>Cash received in advance from customers for airline tickets sold</i>		

Critical Thinking Question

CT 2-1

Note to instructor: *Student responses will vary and therefore the answer here is only suggested and not inclusive of all possibilities; it is presented in point form for brevity.*

Problem(s):

- information that is available does not provide adequate detail to enable analysis and resulting decision making (from the Western Canadian Sales Division Manager's perspective; from the perspective of the sales and admin staff, the limited detail would make recording information very straightforward/easy since there are only 2 accounts — 1 revenue and 1 expense)

Goal(s)*:

- Sales Division Manager would want to maximize sales, minimize costs, and at the same time accurately record and report with sufficient detail to assist decision making process

Assumption(s)/Principle(s):

- division results have been deteriorating but because of a lack of detail, appropriate questions were not being asked and consequently inappropriate decisions were likely being made
- the disclosure principle (introduced in Chapter 6) requires that appropriate detail be provided and the materiality principle (introduced in Chapter 7) suggests that anything of significance be disclosed/reported

Facts:

- as presented in the sales reports
- by converting the dollars to percentages, we see that from July to September, although profit is increasing in total dollars, expenses are increasing as a percentage of sales causing profit to shrink as a percentage of sales which is unfavourable

Prairie Insurance – Western Canadian Division Sales Report Month Ended						
	Sept. 30, 2017	%	Aug. 31, 2017	%	July 31, 2017	%
Sales revenue	\$680,000	100	\$510,000	100	\$440,000	100
Expenses	544,000	80	382,500	75	321,200	73
Profit	\$136,000	20	\$127,500	25	\$118,800	27

CT 2-1 (*concluded*)

Conclusion(s)/Consequence(s):

- more revenue and expense accounts are required to provide sufficient detail to allow appropriate monitoring/questions and resulting decisions; this will require a restructuring of the accounting including submission of expense reports which requires resources including expertise

***The goal is highly dependent on “perspective.”**

CHAPTER 2

ANALYZING AND RECORDING TRANSACTIONS

<u>Related Assignment Materials</u>			
<i>Student Learning Objectives</i>	<i>Quick Studies</i>	<i>Exercises</i>	<i>Problems</i>
1. Explain the accounting cycle.			2-12A, 2-12B
2. Describe an account, its use, and its relationship to the ledger.	2-1	2-1	
3. Define debits and credits and explain their role in double-entry accounting.	2-2, 2-3, 2-4, 2-12, 2-13, 2-16	2-1, 2-2, 2-5, 2-6, 2-7, 2-8, 2-9, 2-11, 2-12, 2-13, 2-15, 2-16, 2-17, 2-21, 2-22	2-1A, 2-3A, 2-4A, 2-7A, 2-10A, 2-12A, 2-14A, 2-1B, 2-3B, 2-4B, 2-7B, 2-10B, 2-12B, 2-14B
4. Describe a chart of accounts and its relationship to the ledger.	2-5	2-10	2-5A, 2-7A, 2-10A, 2-12A, 2-5B, 2-7B, 2-10B, 2-12B
5. Analyze the impact of transactions on accounts	2-6, 2-7, 2-8, 2-9, 2-10, 2-11, 2-12, 2-13, 2-14, 2-16	2-2, 2-3, 2-4, 2-5, 2-6, 2-7, 2-8, 2-9, 2-11, 2-12, 2-13, 2-14, 2-15, 2-16, 2-17, 2-21, 2-22	2-1A, 2-2A, 2-3A, 2-4A, 2-5A, 2-7A, 2-10A, 2-12A, 2-14A, 2-1B, 2-2B, 2-3B, 2-4B, 2-7B, 2-10B, 2-12B, 2-14B
6. Record transactions in a journal and post entries to a ledger.	2-15, 2-16, 2-17, 2-18	2-9, 2-11, 2-16, 2-17, 2-18, 2-19, 2-20, 2-21, 2-22, 2-23	2-5A, 2-6A, 2-7A, 2-8A, 2-9A, 2-10A, 2-11A, 2-12A, 2-13A, 2-14A, 2-5B, 2-6B, 2-7B, 2-8B, 2-9B, 2-10B, 2-11B, 2-12B, 2-13B, 2-14B

Note: The Cumulative Comprehension Problem, for Echo Systems, a computer service business, covers many of these learning objectives. This problem can be solved manually or with an accounting software package. The problem will continue in Chapters 3, 4, and 5.

Note: Various other Analytical & Review Problems may be assigned for student enrichment.

Chapter Outline

I. The Accounting Cycle (LO1)

The steps followed in preparing financial statements. Emphasize that this is a process which is

Chapter Outline

consistently followed.

II. Accounts and the Chart of Accounts (LO2 and LO4)

An *account* is a detailed record of increases and decreases in a specific asset, liability, equity, revenue or expense item. A ledger is a record containing all accounts used by a business.

There should be a separate account for each item on the income statement and balance sheet.

The major types of accounts are:

1. *Asset accounts* are resources controlled by an organization that have current and future benefits. Includes the following: Cash, Accounts Receivable, Notes Receivable, Prepaid Expenses, Supplies, Equipment, Buildings, and Land.
2. *Liability accounts* are obligations to transfer assets or provide services to other entities. Accounts Payable, Notes Payable, Mortgage Payable are examples.
Unearned Revenues are another form of liability which results when customers pay in advance for products or services.
Other Liabilities include wages payable, taxes payable and interest payable.
3. *Equity Accounts* include Owner Capital, Owner Withdrawals, and a separate account for each type of Revenue and Expense. The owner capital account will be used for owner investments only. Students often try to keep using this account at this point. It should be pointed out that this account's transactions will be very few in comparison with the revenue and expense accounts. Owner withdrawals is also a new concept for students at this point.

The chart of accounts is a list of all the accounts.

III. Debits and Credits (LO3)

A T-account is a helpful learning tool representing all accounts in the ledger. It shows the effects of transactions and events on specific accounts.

1. The *left* side of an account is called the *debit* side. A debit is an entry on the left side of an account.
2. The *right* side of an account is called the *credit* side. A credit is an entry on the right side of an account.
3. An account balance is the difference between the increases and decreases recorded in an account. Otherwise explained, the account balance is the difference between the increases (including the beginning balance) and decreases recorded in an account

Assets are on the *left side* of the fundamental accounting equation. Therefore the left or *debit* side of the T-account is the normal balance for assets.

Liabilities and equity are on the *right side* therefore the right or the credit side is the normal balance for liabilities and equity.

Withdrawals, revenues, and expenses are essentially changes in owner's equity but it is necessary to set-up temporary accounts for each of these items to accumulate data for statements. Withdrawals and expense accounts represent decreases in owner's equity therefore they are assigned debit balances. *Revenue* accounts represent increases in owner's equity and therefore they are assigned credit balances.

Double-entry accounting is an accounting system that records the effects of transactions and other events in at least two accounts with equal debts and credits. The total amount

Chapter Outline

debited must equal the total amount credited. Therefore, the sum of the debit account balances in the ledger must equal the sum of the credit account balances. (Note: It is extremely important for students to practice analyzing each of the basic transactions into debits and credits.)

Note: It is crucial that students understand basic debit-credit theory. After introducing the rules, illustrative transactions can be presented by:

- Analyzing the transaction
- Determining the types of accounts affected (asset, liability, equity, revenue, expense)
- Determining which accounts increase and/or decrease
- Converting the increase/decrease to debit/credit.

Note: Students often try to identify debit with decrease and credit with increase.

Try to keep them on task by saying that debit only means LEFT and credit only means RIGHT at this point.

IV. Recording and Posting Transactions (LO5)

To help avoid errors, accounting systems first record transactions in a journal. The process of recording the transactions in a journal is called *journalizing*.

A *General Journal* is the most flexible type of journal because it can be used to record any type of transaction. Each journal entry must contain equal debits and credits.

A general journal entry will include:

1. Date of the transaction
2. Titles of affected accounts
3. Dollar amount of each debit and credit
4. Explanation

Posting is the process of copying journal entry information from the journal to the accounts in the ledger. Actual accounting systems use balance column accounts rather than T-accounts in the ledger. A balance column account has debit and credit columns for recording entries and a third column for showing the balance of the account after each entry is posted. It is possible for accounts to have abnormal balances. It is helpful to stress to students that the entering of the Posting Reference information should be the last step. In this way, it is easy to see where one left off if posting is interrupted. Exhibit 2.13 is very helpful, however, usually requires some explanation before students are able to see what is being done with the posting process.

The posting process is commonly done using a computer program in today's business environment.

The Trial Balance (LO6)

- A. A trial balance is a summary of the ledger that lists the accounts and their balances. The total debit balances should equal the total credit balances. Two columns are used, one for debit balances and one for credit balances.
- B. One purpose for preparing a trial balance is to test for the equality of the debit and credit account balances. Another reason is to simplify the task of preparing the financial statements.

Chapter Outline

- C. When a trial balance does not balance (the columns are not equal), an error has occurred in one of the following steps:
1. Preparing the journal entries
 2. Posting the journal entries to the ledger.
 3. Calculating account balances.
 4. Copying account balances to the trial balance.
 5. Totaling the trial balance columns.
- Any errors must be located and corrected before preparing the financial statements.

Note: Correcting errors

1. Errors must be corrected. Do not erase journal entries or postings in accounts. This may indicate an effort to conceal something.
2. For errors discovered before posting and/or for incorrect amounts posted, correct by ruling a single line through the incorrect data and writing in the correct data.
3. For incorrect account postings—record a correcting journal entry and provide a complete explanation.

Note: Formatting conventions

1. Commas to indicate thousands of dollars and decimal points to separate dollars and cents are not necessary except on unruled paper.
2. Dollar signs are not used in journals and ledgers but are required on financial reports—before the first amount in each column of figures and before the first amount appearing after a ruled line that indicates an addition or subtraction.

I. VISUAL #2-1

THREE PARTS OF AN ACCOUNT

(1) ACCOUNT TITLE	
Left Side	Right Side
Called	Called
(2) DEBIT	(3) CREDIT

Rules for using accounts

Accounts are assigned balance sides (Debit or Credit)

To increase any account, use the balance side

To decrease any account, use the side opposite the balance

Finding account balances

If total debits = total credits, the account balance is zero.

If total debits are greater than total credits, the account has a debit balance equal to the difference of the two totals.

If total credits are greater than total debits, the account has a credit balance equal to the difference of the two totals.

General account use rules

- To increase any account, use balance side.
- To decrease any account, use side opposite the balance

ANALYZING AND RECORDING TRANSACTIONS

<u>Related Assignment Materials</u>			
<i>Student Learning Objectives</i>	<i>Quick Studies</i>	<i>Exercises</i>	<i>Problems</i>
1. Explain the accounting cycle.			2-12A, 2-12B
2. Describe an account, its use, and its relationship to the ledger.	2-1	2-1	
3. Define debits and credits and explain their role in double-entry accounting.	2-2, 2-3, 2-4, 2-12, 2-13, 2-16	2-1, 2-2, 2-5, 2-6, 2-7, 2-8, 2-9, 2-11, 2-12, 2-13, 2-15, 2-16, 2-17, 2-21, 2-22	2-1A, 2-3A, 2-4A, 2-7A, 2-10A, 2-12A, 2-14A, 2-1B, 2-3B, 2-4B, 2-7B, 2-10B, 2-12B, 2-14B
4. Describe a chart of accounts and its relationship to the ledger.	2-5	2-10	2-5A, 2-7A, 2-10A, 2-12A, 2-5B, 2-7B, 2-10B, 2-12B
5. Analyze the impact of transactions on accounts	2-6, 2-7, 2-8, 2-9, 2-10, 2-11, 2-12, 2-13, 2-14, 2-16	2-2, 2-3, 2-4, 2-5, 2-6, 2-7, 2-8, 2-9, 2-11, 2-12, 2-13, 2-14, 2-15, 2-16, 2-17, 2-21, 2-22	2-1A, 2-2A, 2-3A, 2-4A, 2-5A, 2-7A, 2-10A, 2-12A, 2-14A, 2-1B, 2-2B, 2-3B, 2-4B, 2-7B, 2-10B, 2-12B, 2-14B
6. Record transactions in a journal and post entries to a ledger.	2-15, 2-16, 2-17, 2-18	2-9, 2-11, 2-16, 2-17, 2-18, 2-19, 2-20, 2-21, 2-22, 2-23	2-5A, 2-6A, 2-7A, 2-8A, 2-9A, 2-10A, 2-11A, 2-12A, 2-13A, 2-14A, 2-5B, 2-6B, 2-7B, 2-8B, 2-9B, 2-10B, 2-11B, 2-12B, 2-13B, 2-14B

Note: The Cumulative Comprehension Problem, for Echo Systems, a computer service business, covers many of these learning objectives. This problem can be solved manually or with an accounting software package. The problem will continue in Chapters 3, 4, and 5.

Note: Various other Analytical & Review Problems may be assigned for student enrichment.

Chapter Outline

I. The Accounting Cycle (LO1)

The steps followed in preparing financial statements. Emphasize that this is a process which is consistently followed.

Chapter Outline

II. Accounts and the Chart of Accounts (LO2 and LO4)

An *account* is a detailed record of increases and decreases in a specific asset, liability, equity, revenue or expense item. A ledger is a record containing all accounts used by a business. There should be a separate account for each item on the income statement and balance sheet.

The major types of accounts are:

1. *Asset accounts* are resources controlled by an organization that have current and future benefits. Includes the following: Cash, Accounts Receivable, Notes Receivable, Prepaid Expenses, Supplies, Equipment, Buildings, and Land.
2. *Liability accounts* are obligations to transfer assets or provide services to other entities. Accounts Payable, Notes Payable, Mortgage Payable are examples.
Unearned Revenues are another form of liability which results when customers pay in advance for products or services.
Other Liabilities include wages payable, taxes payable and interest payable.
3. *Equity Accounts* include Owner Capital, Owner Withdrawals, and a separate account for each type of Revenue and Expense. The owner capital account will be used for owner investments only. Students often try to keep using this account at this point. It should be pointed out that this account's transactions will be very few in comparison with the revenue and expense accounts. Owner withdrawals is also a new concept for students at this point.

The chart of accounts is a list of all the accounts.

III. Debits and Credits (LO3)

A T-account is a helpful learning tool representing all accounts in the ledger. It shows the effects of transactions and events on specific accounts.

1. The *left* side of an account is called the *debit* side. A debit is an entry on the left side of an account.
2. The *right* side of an account is called the *credit* side. A credit is an entry on the right side of an account.
3. An account balance is the difference between the increases and decreases recorded in an account. Otherwise explained, the account balance is the difference between the increases (including the beginning balance) and decreases recorded in an account
Assets are on the *left side* of the fundamental accounting equation. Therefore the left or *debit* side of the T-account is the normal balance for assets.
Liabilities and equity are on the *right side* therefore the right or the credit side is the normal balance for liabilities and equity.
Withdrawals, revenues, and expenses are essentially changes in owner's equity but it is necessary to set-up temporary accounts for each of these items to accumulate data for statements. Withdrawals and expense accounts represent decreases in owner's equity therefore they are assigned debit balances. *Revenue* accounts represent increases in owner's equity and therefore they are assigned credit balances.

Double-entry accounting is an accounting system that records the effects of transactions and other events in at least two accounts with equal debts and credits. The total amount

Chapter Outline

debited must equal the total amount credited. Therefore, the sum of the debit account balances in the ledger must equal the sum of the credit account balances. (Note: It is extremely important for students to practice analyzing each of the basic transactions into debits and credits.)

Note: It is crucial that students understand basic debit-credit theory. After introducing the rules, illustrative transactions can be presented by:

- Analyzing the transaction
- Determining the types of accounts affected (asset, liability, equity, revenue, expense)
- Determining which accounts increase and/or decrease
- Converting the increase/decrease to debit/credit.

Note: Students often try to identify debit with decrease and credit with increase.

Try to keep them on task by saying that debit only means LEFT and credit only means RIGHT at this point.

IV. Recording and Posting Transactions (LO5)

To help avoid errors, accounting systems first record transactions in a journal. The process of recording the transactions in a journal is called *journalizing*.

A *General Journal* is the most flexible type of journal because it can be used to record any type of transaction. Each journal entry must contain equal debits and credits.

A general journal entry will include:

1. Date of the transaction
2. Titles of affected accounts
3. Dollar amount of each debit and credit
4. Explanation

Posting is the process of copying journal entry information from the journal to the accounts in the ledger. Actual accounting systems use balance column accounts rather than T-accounts in the ledger. A balance column account has debit and credit columns for recording entries and a third column for showing the balance of the account after each entry is posted. It is possible for accounts to have abnormal balances. It is helpful to stress to students that the entering of the Posting Reference information should be the last step. In this way, it is easy to see where one left off if posting is interrupted. Exhibit 2.13 is very helpful, however, usually requires some explanation before students are able to see what is being done with the posting process.

The posting process is commonly done using a computer program in today's business environment.

The Trial Balance (LO6)

- A. A trial balance is a summary of the ledger that lists the accounts and their balances. The total debit balances should equal the total credit balances. Two columns are used, one for debit balances and one for credit balances.
- B. One purpose for preparing a trial balance is to test for the equality of the debit and credit account balances. Another reason is to simplify the task of preparing the financial statements.

Chapter Outline

- C. When a trial balance does not balance (the columns are not equal), an error has occurred in one of the following steps:
1. Preparing the journal entries
 2. Posting the journal entries to the ledger.
 3. Calculating account balances.
 4. Copying account balances to the trial balance.
 5. Totaling the trial balance columns.
- Any errors must be located and corrected before preparing the financial statements.

Note: Correcting errors

1. Errors must be corrected. Do not erase journal entries or postings in accounts. This may indicate an effort to conceal something.
2. For errors discovered before posting and/or for incorrect amounts posted, correct by ruling a single line through the incorrect data and writing in the correct data.
3. For incorrect account postings—record a correcting journal entry and provide a complete explanation.

Note: Formatting conventions

1. Commas to indicate thousands of dollars and decimal points to separate dollars and cents are not necessary except on unruled paper.
2. Dollar signs are not used in journals and ledgers but are required on financial reports—before the first amount in each column of figures and before the first amount appearing after a ruled line that indicates an addition or subtraction.

Fundamental ACCOUNTING PRINCIPLES

Fifteenth Canadian Edition

Volume 1

LARSON • JENSEN • DIECKMANN

Analyzing and Recording Transactions

CHAPTER

2

PowerPoint Slides to accompany
Fundamental Accounting Principles, 15ce
Prepared by
Betty Young, Red River College

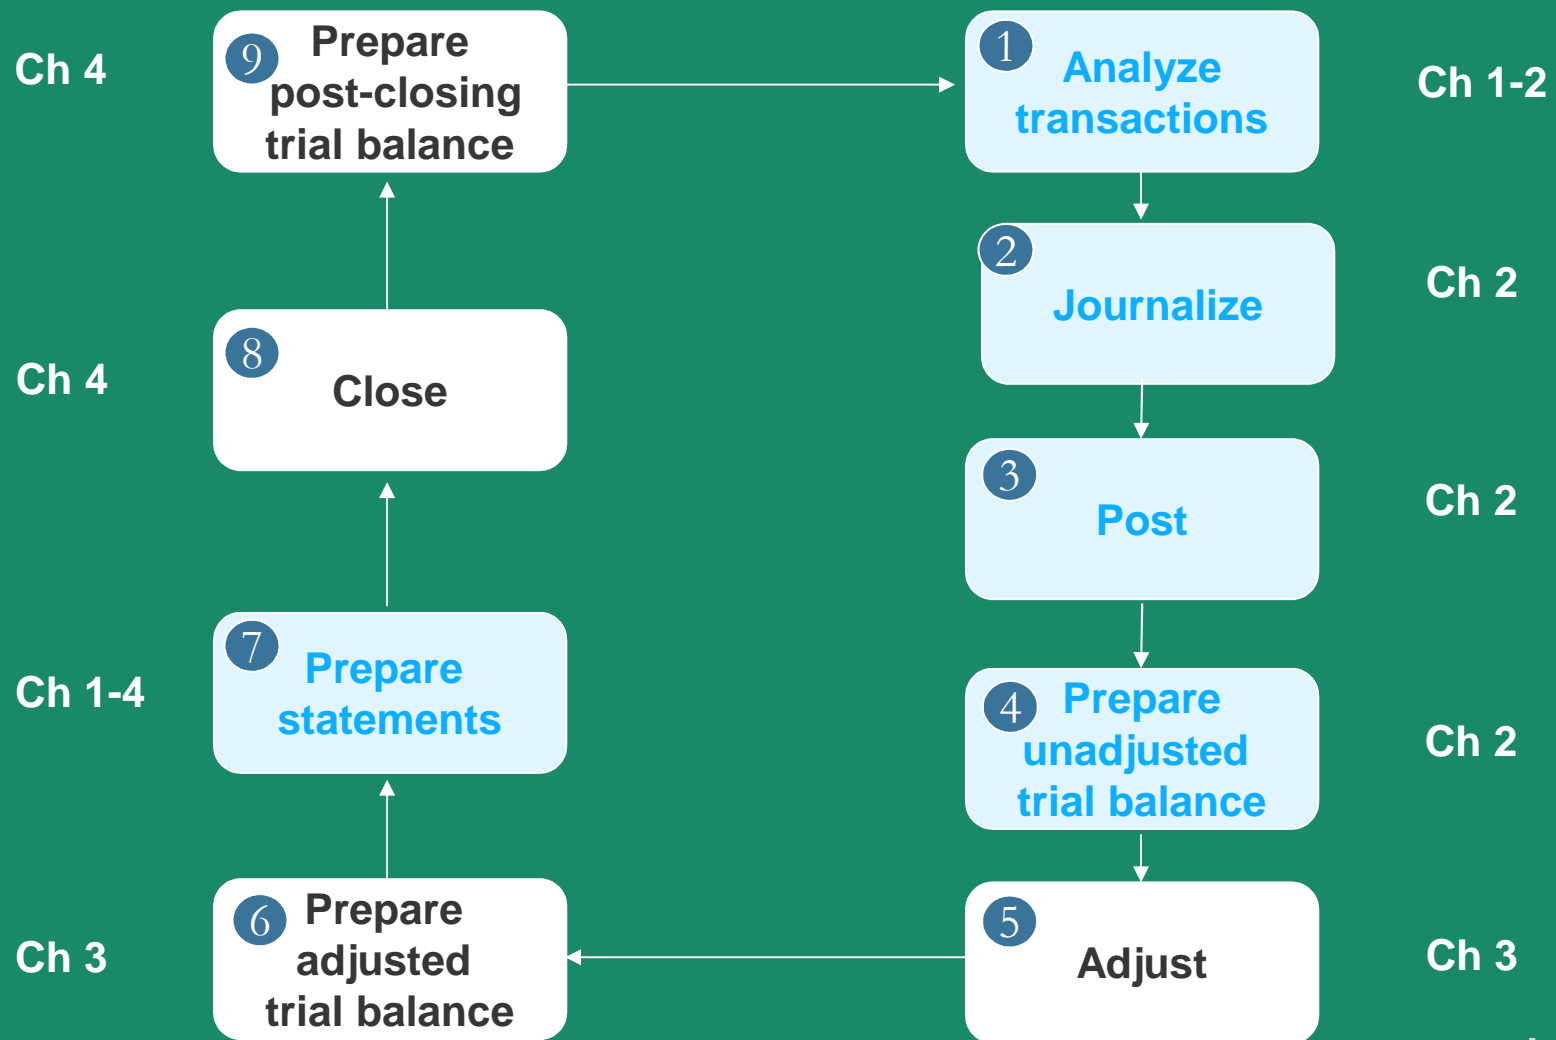

Learning Objectives

1. Explain the accounting cycle. (LO¹)
2. Describe an account, its use, and its relationship to the ledger. (LO²)
3. Define debits and credits and explain their role in double-entry accounting. (LO³)
4. Describe a chart of accounts and its relationship to the ledger. (LO⁴)

Learning Objectives

5. Analyze the impact of transactions on accounts, record transactions in a journal and post entries to a ledger(LO5)
6. Prepare and explain the use of a trial balance.(LO6)

The Accounting Cycle

The Account

A detailed record of increases and decreases in a specific asset, liability, or equity item.

Assets

=

Liabilities

+

Equity

Examples:

Cash

Notes Receivable

Supplies

Furniture

Accounts Payable

Notes Payable

H.Walker, Capital

H.Walker, Withdrawals

Service Revenue

Salaries Expense

The Ledger

- A record containing all accounts used by a business.
- May be computerized or maintained manually.
- Each company has its own unique set of accounts.

The T Account

- Represents an account in the ledger.
- Used as a learning tool.
- The difference between the debit side and credit side is the balance.

Account Title	
(Left side)/Debit	(Right side)/Credit
Debit balance	Credit balance

Calculating the Account Balance

Example:

Cash			
Cash sale	500	325	Paid salary
Owner's investment	<u>1000</u>	<u>450</u>	Paid rent
Total debits	① <u>1500</u>	<u>775</u>	Total credits
balance	③ 725	②	

Steps:

1. Add the amounts on the debit side.
2. Add the amounts on the credit side.
3. Calculate the difference between the debits and credits.

Double-Entry Accounting

- Transactions are recorded using debits and credits.
- Every transaction affects at least two accounts.
- Equal debits and credits will keep the accounting equation in balance.

**Debits = Credits
Always !**

Double-Entry Accounting

$$\text{Assets} = \text{Liabilities} + \text{Equity}$$

Double-Entry Accounting

Equity Accounts

Normal Balances

An account's normal balance is the debit or credit side where increases are recorded.

Assets

=

Liabilities

+

Equity

Assets	
Debit for increase Normal balance	Credit for decrease

Liabilities	
Debit for decrease	Credit for increase Normal balance

Owner's Capital	
Debit for decrease	Credit for increase Normal Balance

EXPENSES	REVENUE

Mini-Quiz

Indicate whether a debit or credit is needed to:

- Increase Rent Expense **Debit**
- Decrease Accounts Payable **Debit**
- Decrease Accounts Receivable **Credit**
- Decrease Cash **Credit**
- Increase Withdrawals **Debit**

Chart of Accounts

- A list of all accounts used in the ledger by a company.
- Unique for each company.
- Accounts are usually numbered.

Analyzing Transactions

Steps:

1. Determine which accounts are being affected.
2. Determine if account balances are increasing or decreasing.
3. Apply rules of debits and credits.

Analyzing Transactions

Example #1:

The owner invests \$10,000 cash in the business.

1 Accounts affected	2 Increase/Decrease	3 Debit/Credit

Analyzing Transactions

Example #1:

The owner invests \$10,000 cash in the business.

1,100	

Accounts Payable	
	1,100

Analyzing Transactions

Example #3 (b): The company purchases Equipment for \$6,000 on credit.

- Debit Equipment for \$6,000
- Credit accounts payable for \$6,000

Equipment	
6,000	

Notes Payable	
	6,000

The General Journal

Entries are originally recorded in the General Journal. This process is called journalizing.

GENERAL JOURNAL					Page 1				
Date		Account Titles and Explanation	PR	Debit			Credit		
2017									
Jan.	1	Cash		10	000				
		H. Walker, Capital					10	000	
		Investment by owner							
Jan.	1	Supplies		2	500				
		Cash					2	500	
		Purchased store supplies for cash							
Jan.	1	Supplies		1	100				
		Equipment		6	000				
		Accounts payable					1	100	
		Notes payable					6	000	
		Purchased supplies and equip. on credit							

Posting Journal Entries

- General Journal information is transferred to the General Ledger.
- Account balances are updated.
- This process is called posting.

The Posting Process

General journal information is transferred to the ledger

GENERAL JOURNAL					Page 1				
Date		Account Titles and Explanation	PR	Debit			Credit		
Jan.	1	Cash	101	10	000				
		Hailey Walker, Capital	301				10	000

Review

- What is journalizing?
- What is posting?
- What is the purpose of a trial balance?

Summary Chapter 2

1. Explain the accounting cycle - *All steps required in preparing financial statements*
2. Describe an account, its use, and its relationship to the ledger – *Detailed record of increases and decreases in specific assets, liabilities, or equity*
3. Define debits and credits and explain their role in double-entry accounting.

Summary Chapter 2

4. Describe a chart of accounts and its relationship to the ledger –*Contains all financial accounts used by a company*
5. Analyze the impact of transactions on accounts, record transactions in a journal and post entries to a ledger
6. Prepare and explain the use of a trial balance.

End of Chapter 2
