Chapter 2 Review of the Accounting Process

QUESTIONS FOR REVIEW OF KEY TOPICS

Question 2–1

External events involve an exchange transaction between the company and a separate economic entity. For every external transaction, the company is receiving something in exchange for something else. Internal events do not involve an exchange transaction but do affect the financial position of the company. Examples of external events are the purchase of inventory, a sale to a customer, and the borrowing of cash from a bank. Examples of internal events include the recording of depreciation expense, the expiration of prepaid rent, and the accrual of salary expense.

Question 2–2

According to the accounting equation, there is equality between the total economic resources of an entity, its assets, and the claims to those resources, liabilities, and equity. This implies that, since resources must always equal claims, the net effect of any transaction cannot affect one side of the accounting equation differently than the other side.

Question 2–3

The purpose of a journal is to capture, in chronological order, the dual effect of a transaction. A general ledger is a collection of storage areas called accounts. These accounts keep track of the increases and decreases in each element of financial position.

Question 2–4

Permanent accounts represent the financial position of a company—assets, liabilities and owners' equity—at a particular point in time. Temporary accounts represent the changes in shareholders' equity, the retained earnings component of equity for a corporation, caused by revenue, expense, gain, and loss transactions. It would be cumbersome to record revenue/expense, gain/loss transactions directly into the permanent retained earnings account. Recording these transactions in temporary accounts facilitates the preparation of the financial statements.

Question 2–5

Assets are increased by debits and decreased by credits. Liabilities and equity accounts are increased by credits and decreased by debits.

2 - 1

Answers to Questions (continued)

Question 2–6

Revenues and gains are increased by credits and decreased by debits. Expenses and losses are increased by debits (thus causing owners' equity to decrease) and decreased by credits (thus causing owners' equity to increase).

Question 2–7

The first step in the accounting processing cycle is to identify external transactions affecting the accounting equation. Source documents, such as sales invoices, bills from suppliers, and cash register tapes, help to identify the transactions and then provide the information necessary to process the transaction.

Question 2–8

Transaction analysis is the process of reviewing the source documents to determine the dual effect on the accounting equation and the specific elements involved.

Question 2–9

After transactions are recorded in a journal, the debits and credits must be transferred to the appropriate general ledger accounts. This transfer is called posting.

Question 2–10

Transaction 1 records the purchase of \$20,000 of inventory on account. Transaction 2 records a credit sale of \$30,000 and the corresponding cost of goods sold of \$18,000.

Question 2–11

An unadjusted trial balance is a list of the general ledger accounts and their balances at a time before any end-of-period adjusting entries have been recorded. An adjusted trial balance is prepared after adjusting entries have been recorded and posted to the accounts.

Answers to Questions (continued)

Question 2–12

Adjusting entries record the effect on financial position of internal events, those that do not involve an exchange transaction with another entity. They must be recorded at the end of any period when financial statements are prepared to properly reflect financial position and results of operations according to the accrual accounting model.

Question 2–13

Closing entries transfer the balances in the temporary owners' equity accounts to a permanent owners' equity account, retained earnings for a corporation. This is done only at the end of a fiscal year in order to reduce the temporary accounts to zero before beginning the next reporting year.

Question 2–14

Prepaid expenses represent assets recorded when a cash disbursement creates benefits beyond the current reporting period. Examples are supplies on hand at the end of a period, prepaid rent, and the cost of plant and equipment.

Question 2–15

The adjusting entry required when deferred revenues are earned is a debit to the deferred revenue liability and a credit to revenue.

Question 2–16

Accrued liabilities are recorded when an expense has been incurred that will not be paid until a subsequent reporting period. The adjusting entry required to record an accrued liability is a debit to an expense and a credit to a liability.

Answers to Questions (continued)

Question 2–17

Income statement—The purpose of the income statement is to summarize the profit-generating activities of the company during a particular period of time. It is a change statement that is reporting the changes in owners' equity that occurred during the period as a result of revenues, expenses, gains, and losses.

Statement of comprehensive income—The purpose of the statement of comprehensive income is to report the changes in shareholders' equity during the reporting period that were not a result of transactions with owners. This statement includes net income and also other comprehensive income items.

Balance sheet—The purpose of the balance sheet is to present the financial position of the company at a particular point in time. It is an organized array of assets, liabilities, and permanent owners' equity accounts.

Statement of cash flows—The purpose of the statement of cash flows is to disclose the events that caused cash to change during the period.

Statement of shareholders' equity—The purpose of the statement of shareholders' equity is to disclose the sources of the changes in the various permanent shareholders' equity accounts that occurred during the period. This statement includes changes resulting from investments by owners, distributions to owners, net income, and other comprehensive income.

Question 2–18

A worksheet provides a means of organizing the accounting information needed to prepare adjusting and closing entries and the financial statements. This error would result in an overstatement of revenue and thus net income and retained earnings, and an understatement of liabilities.

Question 2–19

Reversing entries are recorded at the beginning of a reporting period. They remove the effects of some of the adjusting entries recorded at the end of the previous reporting period. This simplifies the journal entries recorded during the new period by allowing cash payments or cash receipts to be entered directly into the expense or revenue account without regard to the accrual recorded at the end of the previous period.

Intermediate Accounting, 8/e

Answers to Questions (concluded)

Question 2–20

The purpose of special journals is to record, in chronological order, the dual effect of repetitive types of transactions, such as cash receipts, cash disbursements, credit sales, and credit purchases.

Special journals simplify the recording process in the following ways: (1) journalizing the effects of a particular transaction is made more efficient through the use of specifically designed formats; (2) individual transactions are not posted to the general ledger accounts, but are accumulated in the special journals and a summary posting is made on a periodic basis; and (3) the responsibility for recording journal entries for the repetitive types of transactions is placed on individuals who have specialized training in handling them.

Question 2–21

The general ledger is a collection of control accounts representing assets, liabilities, permanent and temporary shareholders' equity accounts. The subsidiary ledger contains a group of subsidiary accounts associated with a particular general ledger control account. For example, there will be a subsidiary ledger for accounts receivable that will keep track of the increases and decreases in the account receivable balance for each of the company's customers purchasing goods or services on credit. At any point in time, the balance in the accounts receivable control account should equal the sum of the balances in the accounts receivable subsidiary ledger accounts.

BRIEF EXERCISES

Brief Exercise 2–1

Ass	sets	= Liabilities + Paid-in C	Capital + Retained Earnings
1. + 16	55,000	(inventory) $+ 165,000$ (accounts payab	ble)
2. – 4	10,000	(cash)	– 40,000 (expense)
3 . + 20	00,000	(accounts receivable)	+ 200,000 (revenue)
- 12	20,000	(inventory)	- 120,000 (expense)
4. + 18	30,000	(cash)	
- 18	30,000	(accounts receivable)	
5 . – 14	5,000	(cash) $-145,000$ (accounts payab	ble)

Brief Exercise 2–2

1.	Inventory	165,000	
	Accounts payable		165,000
2.	Salaries expense	40,000	
	Cash		40,000
3.	Accounts receivable	200,000	
	Sales revenue		200,000
	Cost of goods sold	120,000	
	Inventory		120,000
4.	Cash	180,000	
	Accounts receivable		180,000
5.	Accounts payable	145,000	
	Cash		145,000

		BALA	NCE S	SHEET ACC	OUNTS		
	C	ash			Accounts	receivable	e
6/1 Bal.	65,000			6/1 Bal.	43,000		
4.	180,000	40,000	2.	3.	200,000	180,000	4.
		145,000	5.				
6/30 Bal.	60,000			6/30 Bal.	63,000		
	Inve	ntory			Account	s payable	
6/1 Bal.	0			6/1 Bal.		22,000	
1.	165,000	120,000	3.	5.	145,000	165,000	1.
6/30 Bal.	45,000			6/30 Bal.		42,000	

INCOME STATEMENT ACCOUNTS

Sales revenue			Cost of goods sold
0 200,000	6/1 Bal. 3.		0 120,000
200,000	6/30 Bal.	6/30 Bal.	120,000
Salaries expense			

6/1 Bal.	0	
2.	40,000	
6/30 Bal.	40,000	

1.	Prepaid insurance	12,000	
	Cash		12,000
2.	Note receivable	10,000	
	Cash		10,000
3.	Equipment	60,000	
	Cash		60,000

Brief Exercise 2–5

1.	Insurance expense (\$12,000 x ³ /12)	3,000	
	Prepaid insurance		3,000
2.	Interest receivable (\$10,000 x 6% x ⁶ / ₁₂)	300	
	Interest revenue		300
3.	Depreciation expense	12,000	
	Accumulated depreciation – equipment		12,000

Brief Exercise 2–6

Net income would be **higher** by **\$14,700** (\$3,000 – 300 + 12,000).

1.	Service revenue	4,000	
	Deferred service revenue		4,000
2.	Advertising expense (\$2,000 x ¹ /2)	1,000	
	Prepaid advertising		1,000
3.	Salaries expense	16,000	
	Salaries payable		16,000
4.	Interest expense (\$60,000 x 8% x ⁴ / ₁₂)		
	Interest payable		1,600

Brief Exercise 2–8

Assets would be higher by \$1,000, the amount of prepaid advertising that expired during the month. Liabilities would be lower by \$21,600 (\$4,000 + 16,000 + 1,600). Shareholders' equity (and net income for the period) would be higher by \$22,600.

	Salaries payable		18,000
4 .	Interest expense (\$200,000 x 12% x ² / ₁₂)	4,000	
	Interest payable		4,000
5.	Deferred rent revenue	1,500	
	Rent revenue (1/2 x \$3,000)		1,500

2–20 Intermediate Accounting, 8/e Copyright © 2015 McGraw-Hill Education. All rights reserved. No reproduction or distribution without the prior written consent of McGraw-Hill Education.

1. Interest receivable (\$90,000 x 8% x ³ / ₁₂)	1,800	
Interest revenue		1,800
2. Rent expense (\$6,000 x ² /3)	4,000	
Prepaid rent		4,000
3. Rent revenue ($(12,000 \times 7/12)$)	7,000	
Deferred rent revenue		7,000
4. Depreciation expense	4,500	
Accumulated depreciation		4,500
5. Salaries expense	8,000	
Salaries payable		8,000
6. Supplies expense (\$2,000 + 6,500 - 3,250)	5,250	
Supplies		5,250

Exercise 2–10

1. \$7,200 represents nine months of interest on a \$120,000 note, or 75% of annual interest.

\$7,200 ÷ .75 = \$9,600 in annual interest \$9,600 ÷ \$120,000 = **8% interest rate**

Or,

 $7,200 \div 120,000 = .06$ nine-month rate To annualize the nine month rate: $.06 \ge 12/9 = .08$ or 8%

- 2. \$60,000 ÷ 12 months = \$5,000 per month in rent
 \$35,000 ÷ \$5,000 = 7 months expired. The rent was paid on June 1, seven months ago.
- 3. \$500 represents two months (November and December) in accrued interest, or \$250 per month.
 \$250 x 12 months = \$3,000 in annual interest Principal x 6% = \$3,000 Principal = \$3,000 ÷ .06 = \$50,000 note

Solutions Manual, Vol.1, Chapter 2

2 - 21

1. Insurance expense ($(36,000 \times 3/12)$)	1,500	
Prepaid insurance		1,500
2. Interest expense (\$80,000 x 8% ³ /12)	1,600	
Interest payable		1,600
3. Deferred rent revenue ($(24,000 \times 3/12)$	6,000	
Rent revenue		6,000
4. Depreciation expense ($20,000 \times \frac{3}{12}$)	5,000	
Accumulated depreciation - building		5,000
5. Salaries and wages expense	16,000	
Salaries and wages payable		16,000

Exercise 2–15

Requirement 1

	Sup	plies	
11/30 Balance	1,500		
Purchased	?	Expense	2,000
12/31 Balance	3,000		

Cost of supplies purchased = 3,000 + 2,000 - 1,500 = 3,500

Solutions Manual, Vol.1, Chapter 2

Exercise 2–15 (*continued*)

Requirement 2

	Prepaid	insurance	
11/30 Balance	6,000		
		Expense	?
			_
12/31 Balance	4,500		

Insurance expense for December = 6,000 - 4,500 = 1,500

December 31, 2016		
Insurance expense	1,500	
Prepaid insurance		1,500

Requirement 3

Salaries and wages payable			
Salaries and wages paid 10,0	000	10,000 11/30 Balance? Accrued salaries and wages	
		15,000 12/31 Balance	

Accrued salaries and wages for December = **\$15,000**

December 31, 2016 Salaries and wages expense	15,000	
Salaries and wages payable		15,000

Exercise 2–15 (concluded)

Requirement 4

Deferred rent revenue			
	2,000	11/30 Balance	
Recognized for Dec. 1,000			
	1,000	12/31 Balance	

Rent revenue recognized each month = $3,000 \times \frac{1}{3} = 1,000$

December 31, 2016		
Deferred rent revenue	1,000	
Rent revenue		1,000
		1,000

٦

Requirement 1

2016	Cash	Debit	Credit
Feb. 1	Cash Note payable	12,000	12,000
April 1	Prepaid insurance Cash	3,600	3,600
July 17	Supplies Accounts payable	2,800	2,800
Nov. 1	Note receivable Cash	6,000	6,000

Requirement 2

2016		Debit	Credit
Dec. 31	Interest expense (\$12,000 x 10% x ¹¹ /12) Interest payable	1,100	1,100
Dec. 31	Insurance expense (\$3,600 x ⁹ /24) Prepaid insurance	1,350	1,350
Dec. 31	Supplies expense (\$2,800 – 1,250) Supplies	1,550	1,550

*Beginning balance of \$29,000 plus net income of \$12,000.

Requirement 1

June 30 - adjusting entry		
Salaries and wages expense (\$10,000 x ³ /5)	6,000	
Salaries and wages payable		6,000

July 1 - reversing entry Salaries and wages payable	6,000	
Salaries and wages expense		6,000

July 2 – payment of salaries	10.000	
Salaries and wages expense Cash	10,000	10,000

June 30 - adjusting entry Salaries and wages expense	6,000	
Salaries and wages payable	- ,	6,000

July 2 - payment of salaries		
Salaries and wages expense	4,000	
Salaries and wages payable	6,000	
Cash		10.000

Requirement 1

The accountant would reverse adjusting entry 1, the accrual of interest receivable, and entry 5, the accrual of salaries payable.

Requirement 2

1. Interest receivable ($90,000 \times 8\% \times 3/12$)	·	
Interest revenue		1,800
5. Salaries expense	8,000	
Salaries payable		8,000
Requirement 3		
1. Interest revenue	1,800	
Interest receivable		1,800
5. Salaries payable	8,000	
Salaries expense		8,000

2–39

Requirement 1

The transactions affected would be the prepayment of rent, transaction 2, and the purchase of supplies in transaction 6.

2. Original transaction on November 1: Rent expense Cash	6,000	6,000
Adjusting entry on December 31: Prepaid rent (\$6,000 x ¹ / ₃) Rent expense	2,000	2,000
6. Original transaction during the year: Supplies expense Cash	6,500	6,500
Adjusting entry on December 31: Supplies Supplies expense	3,250	3,250
 Requirement 3 2. Rent expense	2,000 3,250	2,000 3,250
Supplies		5,250

1.	Transaction Purchased merchandise on account.	Journal PJ
2.	Collected an account receivable.	CR
3.	Borrowed \$20,000 and signed a note.	CR
4.	Recorded depreciation expense.	GJ
5.	Purchased equipment for cash.	CD

10.	Sold equipment on credit.	GJ
11.	Collected cash from customers on account.	CR
12.	Paid employee salaries and wages.	CD
13.	Collected interest on a note receivable.	CR

CPA REVIEW QUESTIONS

- 1. **d.** The event is recorded as an increase to accounts receivable and an increase in revenue. An increase to accounts receivable represents an increase in assets and the increase in revenue will increase net income which will in turn increase retained earnings.
- 2. **b.** The amount accrued as commissions for each salesperson will be any commissions due over and above the fixed salary as follows:

	Fixed salary	Commissions	Excess
А	\$10,000	\$8,000	\$ —0—
В	\$14,000	\$24,000	\$10,000
С	\$18,000	\$36,000	\$18,000

The amount accrued is \$28,000.

3. **b.** A net decrease in accounts receivable means that cash collections exceeded accrual revenue. Therefore, cash basis income would be higher when compared to accrual basis. A net decrease in accrued liabilities indicates that cash payments for expenses are greater than accrual expenses. Therefore, cash basis income would be lower than accrual basis income.

4.	. a. Cash basis income: Cash collected in May		\$3,200,000	
		Accrual basis income:		
		Revenue recognized in April		\$3,200,000
	Less: Expenses recognized in April		<u>(1,500,000</u>)	
		Income		\$1,700,000
5.	d.	Expense recognized	\$437,500	
		Add: Increase in prepaid insurance	17,500	
		Cash paid for insurance	\$455,000

Computations:

Sales revenue

Sales revenue during 2016 = \$320,000 + 22,000 = \$342,000

Cost of goods sold

Accounts payable				
		0	1/1 Balance	
Cash paid	220,000			
		?	Purchases	
		30,000	12/31 Balance	

Purchases during 2016 = \$220,000 + 30,000 = \$250,000

Inventory			
1/1 Balance	0		
Purchases	250,000		
		?	Cost of goods sold
12/31 Balanc	e 50,000		

Cost of goods sold during 2016 = \$250,000 - 50,000 = \$200,000

Rent expense and prepaid rent

Prepaid rent	=	$3,000 \text{ x} \ ^{2}/_{3} =$	\$2,000
Rent expense during 2016	=	\$14,000 - 2,000 =	\$12,000

Depreciation expense

Depreciation during2016 = $30,000 \times 10\% = 3,000$

Interest expense

Interest accrued during $2016 = $40,000 \times 12\% \times \frac{9}{12} = $3,600$

Salaries and wages expense

Cash paid plus accrued salaries and wages = 80,000 + 5,000 = 85,000

Retained earnings	,	20,275

CASES

Judgment Case 2–1

Requirement 1

Cash basis accounting produces a measure of performance called net operating cash flow. This measure is the difference between cash receipts and cash disbursements during a reporting period from transactions related to providing goods and services to customers. On the other hand, the accrual accounting model measures an entity's accomplishments (revenues) and resource sacrifices (expenses) during the period, regardless of when cash is received or paid.

Requirement 2

In most cases, the accrual accounting model provides a better measure of performance because it attempts to measure the accomplishments and sacrifices that occurred during the year, which may not correspond to cash inflows and outflows.

Requirement 3

Adjusting entries, for the most part, are conversions from cash to accrual. Prepayments and accruals occur when cash flow precedes or follows expense or revenue recognition.

Judgment Case 2–2

Requirement 1

Cash basis net income	\$26,000
Add: 1. Unexpired (prepaid insurance) \$12,000 x 8/12	8,000
2. Increase in accounts receivable (\$6,500 – 5,000)	1,500
5. Increase in inventories (\$35,000 – 32,000)	3,000
Deduct: 3. Increase in salaries and wages payable (\$8,200 –	7,200) (1,000)
4. Increase in utilities payable (\$1,200 – 900)	(300)
6. Increase in amount owed to suppliers	(4,000)
Accrual basis net income	<u>\$33,200</u>

Requirement 2

Assets would be higher by \$12,500 (\$8,000 + 1,500 + 3,000) and liabilities would also be higher by \$5,300 (\$1,000 + 300 + 4,000). The difference, \$7,200, is the difference between cash and accrual income. Therefore, equity would be higher by \$7,200.

Communication Case 2–3

Requirement 1

Prepayments occur when the cash flow *precedes* either expense or revenue recognition. Accruals occur when the cash flow comes *after* either expense or revenue recognition.

Requirement 2

The appropriate adjusting entry for a prepaid expense is a debit to expense and a credit to the prepaid asset. For deferred revenue, the appropriate adjusting entry is a debit to the deferred revenue liability account and a credit to revenue. Failure to record an adjusting entry for a prepaid expense will cause assets and shareholders' equity to be overstated. Failure to record an adjusting entry for deferred revenue will cause liabilities to be overstated and shareholders' equity to be understated.

Requirement 3

The required adjusting entry for accrued liabilities is a debit to expense and a credit to a liability. For accrued receivables, the appropriate adjusting entry is a debit to a receivable and a credit to revenue. Failure to record an adjusting entry for an accrued liability will cause liabilities to be understated and shareholders' equity to be overstated. Failure to record an adjusting entry for accrued receivables will cause assets and shareholders' equity to be understated.
