# ESSAY

98. List and describe the five internal environmental factors.

### ANS:

Mission is the organization's purpose or reason for being.

Management refers to the people responsible for an organization's performance.

Resources of the organization involve human, physical, financial, and informational resources in accomplishing the mission.

Systems process is the method of transforming inputs into outputs as the organization accomplishes its mission.

Structure refers to the way in which the organization groups its resources to accomplish its mission.

PTS:1DIF:HardREF:The Internal EnvironmentOBJ:2-1. Explain the five internal environmental factors.NAT:AACSB standard: Analytical ThinkingCD:Knowledge

99. Using your school as an example, describe the four components of the systems process. Be sure to explain where you, the student, fit in the overall process.

ANS:

Answers will vary but may include some of the following: Inputs are students, professors/instructors/teachers, textbooks, etc. Transformation may include classes, assignments, and programs of study. Outputs may include students again, this time as employable graduates. Feedback may include grades, course evaluation surveys, surveys of employers, surveys of alumni, etc.

PTS: 1 DIF: Hard **REF:** Systems Process OBJ: 2-1. Explain the five internal environmental factors. NAT: AACSB standard: Reflective Thinking CD: Analysis

100. Describe the three levels of organizational culture and their relationship to each other.

ANS:

Level 1 is behavior, meaning the actions employees take.

Level 2 is values and beliefs. Values represent the way people believe they ought to behave and beliefs represent if-then statements.

Level 3 is assumptions, meaning the values and beliefs that are deeply ingrained as unquestionably true. Values, beliefs, and assumptions provide the operating principles that guide decision making and behavior.

PTS: 1 DIF: Hard REF: Three Levels of Culture OBJ: 2-2. Describe the three levels of organizational culture and their relationship to each other. NAT: AACSB standard: Analytical Thinking CD: Knowledge

101. You have recently come on board as manager of a local non-profit that works to help adopted children find their birth parents. Though the organization serves a strong purpose and has a very high success rate, the culture of the organization is weak. Please offer a brief plan to strengthen the culture of the organization.

ANS:

Answers to this question will vary greatly; however, a correct answer must be based on the use of artifacts.

PTS: 1 DIF: Hard

REF: Learning the Organizational Culture Through Artifacts

OBJ: 2-2. Describe the three levels of organizational culture and their relationship to each other.

CD:

Application

NAT: AACSB standard: Reflective Thinking

102. Describe how the nine external environmental factors can affect the internal business

environment.

ANS:

Customers decide what products the business offers, and without customer value, there are no customers or business. Competitors' business practices often have to be duplicated in order to maintain customer value. Poor-quality inputs from suppliers result in poor-quality outputs without customer value. Without a qualified labor force, products and services will have little or no customer value. Shareholders, through an elected board of directors, hire top managers and provide directives for the organization. Society, to a great extent, determines what are acceptable business practices and can pressure business for changes. The business must develop new technologies, or at least keep up with them, to provide customer value. Economic activity affects the organization's ability to provide customer value (for example, inflated prices lead to lower customer value). Governments set the rules and regulations that business must adhere to.

PTS:1DIF:HardREF:External Environmental FactorsOBJ:2-3. Discuss how nine external environmental factors can affect the internal businessenvironment.NAT:AACSB standard:CD:Analysis

103. You have been the manager of a popular night club for the past three years. The night club industry is highly vulnerable to the external environment. Please select and discuss one task factor and one general factor that you think are most important to this industry.

ANS:

Answers to this question will vary greatly but should specifically address one of the five task factors (customers, competition, suppliers, labor force, shareholders) and of the four general factors (society, technology, economy, governments).

PTS:1DIF:HardREF:External Environmental FactorsOBJ:2-3. Discuss how nine external environmental factors can affect the internal businessenvironment.NAT:AACSB standard:Reflective ThinkingCD:Application

104. Compare the three levels of moral development.

ANS:

At the lowest level of moral development, the preconventional level, behavior is motivated by self-interest and people seek rewards and attempt to avoid punishment. At the second level, the conventional level, behavior is motivated by a desire to maintain expected standards and live up to the expectations of others. At the highest level, the postconventional level, behavior is motivated by a desire to do the right thing, even at the risk of alienating the group. The higher the level of moral development, the more ethical one's behavior.

PTS:1DIF:HardREF:Moral DevelopmentOBJ:2-4. Explain why people use unethical behavior, why and how they justify their unethicalbehavior, and three factors that influence behavior to be ethical or unethical.NAT:AACSB standard: Ethical Understanding and ReasoningCD:Comprehension

105. Explain the stakeholders' approach to ethics.

ANS:

Managers who use the stakeholders' approach to ethics create a win-win situation for the relevant parties affected by the decision. If you are proud to tell relevant stakeholders your decision, it is probably ethical. If you are not proud to tell stakeholders or you keep rationalizing it, the decision may not be ethical.

PTS:1DIF:HardREF:Stakeholders' Approach to EthicsOBJ:2-5. Identify four guides to ethical behavior and three things organizations should do to manageethics.NAT:AACSB standard: Ethical Understanding and ReasoningCD:Comprehension

106. You recently have been promoted to the position of lead manager at a local casino. In your position, you are responsible for auditing the daily intakes from all of the poker tables. Because you started as a poker dealer, you know how easy it is to pocket chips and then cash them in and since you have a good relationship with your team, you know you could take this opportunity to make some extra cash. Just in case you were tempted to run this scam, which of the five simple guides for ethical behavior would you call on to not take the chips?

# ANS:

Answers to this question will vary but should include discussion of the golden rule, four-way test, stakeholders approach, code of ethics, or discernment and advice.

PTS:1DIF:HardREF:Guides to Ethical BehaviorOBJ:2-5. Identify four guides to ethical behavior and three things organizations should do to manageethics.NAT:AACSB standard: Ethical Understanding and ReasoningCD:Application

107. Give some examples of how all companies need to be socially responsible to external environmental stakeholders.

ANS:

Answers to this question may vary but may include the following: The company must provide safe products and services with value to customers. The company should improve the quality of life for society or at least not destroy the environment. The company must compete fairly with competitors. The company must work cooperatively with suppliers. The company must abide by the laws and regulation of government. The company must strive to provide equal employment opportunity for the labor force. The company must provide shareholders with a reasonable profit.

PTS:1DIF:HardREF:Responsibilities to StakeholdersOBJ:2-6. Characterize the three levels of social responsibility and explain its relationship withsustainability.NAT:AACSB standard: Ethical Understanding and ReasoningCD:Application

108. Identify and define the three levels of corporate social responsibility. Give at least one example for each.

ANS:

Legal CSR focuses on maximizing profits while obeying the law. The example given in the text was tobacco companies selling cigarettes, which are legal.

## Management Fundamentals Concepts Applications and Skill Development 7th Edition Lussier Test Bank

Full Download: https://testbanklive.com/download/management-fundamentals-concepts-applications-and-skill-development-7th-educations-applications-and-skill-development-7th-educations-appli

Ethical CSR focuses on profitability and going beyond the law to do what is right, just, and fair. The example given in the text was the decision by CVS to stop selling cigarettes, even though the result is an estimated loss of \$2 billion a year in revenue.

Benevolent CSR focuses on profitability and helping society through philanthropy. The examples given in the text included corporate donations to colleges and universities by companies such as Microsoft. Students' examples may differ.
