What is the common problem for every CEO of a for-profit organization like Apple's Tim Cook?

- a. decrease labor expenses through outsourcing
- b. increase future sales
- c. employ Americans
- d. increase the market growth rate
- e. decrease relative market share

**Answer:** b      **Page(s):** 36      **LO:** 2-2      **AACSB:** Analytic      **QD:** Easy

**Rationale:** The common problem for every CEO of a for-profit organization like Apple's Tim Cook is to find ways to increase future sales and profits to keep the firm growing.

**2-194 BCG BUSINESS PORTFOLIO ANALYSIS**

**KNOWLEDGE**

In the Boston Consulting Group (BCG) model for analysis of a firm's strategic business units, or SBUs, the vertical axis reflects \_\_\_\_\_.

- a. market growth rate
- b. marketing efficiencies
- c. industry attractiveness
- d. market segment size
- e. relative market share

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** The vertical axis is the market growth rate, which is the annual rate of growth of the SBU's industry. The horizontal axis is the relative market share, defined as the sales of the SBU divided by the sales of the largest firm in the industry. See Figure 2-4 in the textbook.

## 2-195 BCG BUSINESS PORTFOLIO ANALYSIS

## KNOWLEDGE

The Boston Consulting Group (BCG) business portfolio analysis requires an organization to locate the position for each of its strategic business units (SBUs) on a growth-share matrix. The vertical axis of this matrix indicates

- a. the annual rate of growth of the firm's largest competitor.
- b. the relative dollar (\$) market share of the largest competitor.
- c. the annual rate of growth of the SBU's industry.
- d. the relative unit (#) market share of the largest competitor.
- e. the annual rate of growth of the firm itself.

**Answer:** c      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** The vertical axis is the market growth rate, which is the annual rate of growth of the SBU's industry. The horizontal axis is the relative market share, defined as the sales of the SBU divided by the sales of the largest firm in the industry. See Figure 2-4 in the textbook.

## 2-196 BCG BUSINESS PORTFOLIO ANALYSIS

## KNOWLEDGE

The Boston Consulting Group (BCG) business portfolio analysis requires an organization to locate the position for each of its strategic business units (SBUs) on a growth-share matrix. The horizontal axis of this matrix indicates

- a. the annual rate of growth of the SBU's industry.
- b. the relative dollar (\$) market share of the largest competitor.
- c. the annual rate of growth of the firm's largest competitor.
- d. the relative unit (#) market share of the smallest competitor.
- e. the annual rate of growth of the firm itself.

**Answer:** b      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** The vertical axis is the market growth rate, which is the annual rate of growth of the SBU's industry. The horizontal axis is the relative market share, defined as the sales of the SBU divided by the sales of the largest firm in the industry. See Figure 2-4 in the textbook.

## 2-197 BCG BUSINESS PORTFOLIO ANALYSIS

## KNOWLEDGE

In the Boston Consulting Group (BCG) model for analysis of a firm's strategic business units, or SBUs, the horizontal axis reflects \_\_\_\_\_.

- a. market growth rate
- b. marketing efficiencies
- c. industry attractiveness
- d. market segment size
- e. relative market share

**Answer:** e      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** The vertical axis is the market growth rate, which is the annual rate of growth of the SBU's industry. The horizontal axis is the relative market share, defined as the sales of the SBU divided by the sales of the largest firm in the industry. See Figure 2-4 in the textbook.

## 2-198 BCG BUSINESS PORTFOLIO ANALYSIS

## COMPREHENSION

In a BCG growth-share matrix, a relative market share of 10× at the left end of the scale on its horizontal axis means that the SBU has 10 times the share of its largest competitor, whereas a relative market share of 0.1× at the right end of the scale on its horizontal axis means that

- a. the SBU has only 10 percent of the share of its average competitor.
- b. the SBU has 100 percent of the share of its largest competitor.
- c. the growth rate between the SBU and the next largest competitor is actually identical.
- d. the SBU has only 10 percent of the share of its largest competitor.
- e. the industry growth rate is declining.

**Answer:** d      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** The figure 0.1× is interpreted as 1/10 (or 10%) of the share of its largest competitor. See Figure 2-4 in the textbook.

## 2-199 BCG BUSINESS PORTFOLIO ANALYSIS

## KNOWLEDGE

All of the following are names the BCG has given to describe the four quadrants in its growth-share matrix **EXCEPT**:

- a. dogs.
- b. stars.
- c. question marks.
- d. cash cows.
- e. hedgehogs.

**Answer:** e      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

## 2-200 BCG BUSINESS PORTFOLIO ANALYSIS: CASH COWS

## KNOWLEDGE

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization. "Cash cows" are SBUs that are classified as having

- a. high market growth rates and high relative market shares.
- b. low market growth rates but high relative market shares.
- c. low market growth rates and low relative market shares.
- d. high market growth rates but low relative market shares.
- e. medium market growth rates and medium relative market shares.

**Answer:** b      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** “Cash cows” are SBUs that are classified as having low market growth rates but high relative market shares. See Figure 2-4 in the textbook.

**2-201 BCG BUSINESS PORTFOLIO ANALYSIS: CASH COWS**

**KNOWLEDGE**

SBUs with dominant shares of slow-growth markets that provide cash to cover the organization’s overhead and to invest in other SBUs are referred to as \_\_\_\_\_.

- a. cash cows

- c. question marks
- d. dogs
- e. hedgehogs

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**2-202 BCG BUSINESS PORTFOLIO ANALYSIS: CASH COWS**

**COMPREHENSION**

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization. “Cash cows” are located in which quadrant of the BCG growth-share matrix?

- a. upper left quadrant
- b. upper right quadrant
- c. center of the four quadrants
- d. lower right quadrant
- e. lower left quadrant

**Answer:** e      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**2-203 BCG BUSINESS PORTFOLIO ANALYSIS: CASH COWS**

**APPLICATION**

Several years ago, Black & Decker purchased General Electric’s small appliances product line. - c. question mark
- d. star
- e. hedgehog

**Answer:** b      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** The General Electric small appliances product line holds a large share of a slow-growth industry, the definition of a cash cow. See Figure 2-4 in the textbook.

**2-204 BCG BUSINESS PORTFOLIO ANALYSIS: STARS**

- e. medium market growth rates and medium relative market shares.

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** “Stars” are SBUs that are classified as having high market growth rates and high relative market shares. See Figure 2-4 in the textbook.

**2-205 BCG BUSINESS PORTFOLIO ANALYSIS: STARS**

SBUs with a high share of high-growth markets that may not generate enough cash to support their own demanding needs for future growth are referred to as \_\_\_\_\_.

- a. dogs
- b. cash cows
- c. question marks
- d. stars
- e. hedgehogs

**Answer:** d      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** Text term definition—stars. See Figure 2-4 in the textbook.

**2-206 BCG BUSINESS PORTFOLIO ANALYSIS: STARS**

**COMPREHENSION**

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization. “Stars” are located in which quadrant of the BCG growth-share matrix?

- a. upper left quadrant
- b. upper right quadrant
- c. center of the four quadrants
- d. lower right quadrant
- e. lower left quadrant

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** “Stars” are located in the upper left quadrant of the BCG growth-share matrix. See Figure 2-4 in the textbook.

**2-207 BCG BUSINESS PORTFOLIO ANALYSIS: STARS**

**APPLICATION**

Solarcom is a 30-year-old information technology company that owns several subsidiaries. One of its subsidiaries is Atlantix Global Systems, which is one of the leading wholesalers for refurbished computer equipment that has a large share of an industry that is growing worldwide. According to the BCG business portfolio analysis framework, Atlantix Global would **MOST LIKELY** be classified as a \_\_\_\_\_.

- a. dog
- b. cash cow
- c. question mark
- d. hedgehog
- e. star

**Answer:** e      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Atlantix Global Systems has a large share of a high-growth industry, the definition of a star. See Figure 2-4 in the textbook.

**2-208 BCG BUSINESS PORTFOLIO ANALYSIS: QUESTION MARKS**

**KNOWLEDGE**

SBU with a low share of high-growth markets that may require large cash injections of cash just to maintain market share are referred to as \_\_\_\_\_.

- a. dogs
- b. cash cows
- c. question marks
- d. stars
- e. hedgehogs

**Answer:** c      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization. “Question marks” are SBUs that are classified as having

- a. high market growth rates and high relative market shares.
- b. low market growth rates but high relative market shares.
- c. low market growth rates and low relative market shares.
- d. high market growth rates but low relative market shares.
- e. medium market growth rates and medium relative market shares.

**Answer:** d      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** “Question marks” are SBUs that are classified as having high market growth rates but

low relative market shares. See Figure 2-4 in the textbook.

**2-210 BCG BUSINESS PORTFOLIO ANALYSIS: QUESTION MARKS      COMPREHENSION**

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization.

“Question marks” are located in which quadrant of the BCG growth-share matrix?

- a. upper left quadrant
- b. upper right quadrant
- c. center of the four quadrants
- d. lower right quadrant
- e. lower left quadrant

**Answer:** b      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** “Question marks” are located in the upper right quadrant of the BCG growth-share matrix. See Figure 2-4 in the textbook.

**2-211 BCG BUSINESS PORTFOLIO ANALYSIS: DOGS      KNOWLEDGE**

SBU with a low share of slow-growth markets that may generate enough cash to sustain themselves but do not hold the promise of ever becoming real winners for the organization are referred to as \_\_\_\_\_.

- a. dogs
- b. cash cows
- c. stars
- d. question marks
- e. hedgehogs

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** “Dogs” are SBUs with low shares of slow-growth markets. See Figure 2-4 in the textbook.

**2-212 BCG BUSINESS PORTFOLIO ANALYSIS: DOGS      KNOWLEDGE**

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization.

“Dogs” are SBUs that are classified as having

- a. high market growth rates and high relative market shares.
- b. low market growth rates but high relative market shares.
- c. low market growth rates and low relative market shares.
- d. high market growth rates but low relative market shares.
- e. medium market growth rates and medium relative market shares.

**Answer:** c      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Easy

**Rationale:** “Dogs” are SBUs that are classified as having low market growth rates and low relative market shares. See Figure 2-4 in the textbook.

**2-213 BCG BUSINESS PORTFOLIO ANALYSIS: DOGS**

**COMPREHENSION**

The BCG has given specific names and descriptions to the four resulting quadrants in its growth-share matrix based on the amount of cash they generate for or require from the organization. “Dogs” are located in which quadrant of the BCG growth-share matrix?

- a. upper left quadrant
- b. upper right quadrant
- c. center of the four quadrants
- d. lower right quadrant
- e. lower left quadrant

**Answer:** d      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** “Dogs” are located in the lower right quadrant of the BCG growth-share matrix. See Figure 2-4 in the textbook.

**2-214 BCG BUSINESS PORTFOLIO ANALYSIS**

**COMPREHENSION**

In its business portfolio analysis, an organization’s SBUs often start as “\_\_\_\_\_” and eventually become “\_\_\_\_\_.”

- a. dogs; question marks
- b. question marks; stars
- c. stars; question marks
- d. stars; dogs
- e. question marks; dogs

**Answer:** e      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** In its business portfolio analysis, an organization’s SBUs often start as question marks and proceed counterclockwise to become stars, then cash cows, and finally dogs. See Figure 2-4 in the textbook.

**2-215 BCG BUSINESS PORTFOLIO ANALYSIS**

**APPLICATION**

Several years ago, the Honda Motor Company unveiled the hybrid version of the Honda Civic. While the hybrid vehicles are very fuel efficient, they are also very expensive to purchase. Hybrid vehicles sales have increased over 570 percent with a compound annual growth rate of 88.6%. Sales of the Civic eventually surpassed those of the Toyota Prius, making it the number one hybrid car in the U.S. For years, Honda has experienced tremendous success with their Accords—in fact, these Honda cars are the top-selling automobiles in the U.S. Where would the Honda Civic (hybrid version) and the Honda Accord fall in the BCG business portfolio analysis matrix?

- a. The hybrid Civic is a star; the Accord is a cash cow.
- b. The hybrid Civic is a cash cow; the Accord is a star.
- c. Due to the overwhelming success of Honda cars, both the Accord and the hybrid Civic are cash cows.
- d. The hybrid Civic is a hedgehog; the Accord is a cash cow.
- e. The hybrid Civic is a dog; the Accord is a star.

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** The BCG growth-share matrix is based upon market growth rate and market share. The hybrid car market is a high growth market. The Honda Civic hybrid has slightly over half of the market share of this market. The vehicle will require large injections of cash from other products in the Honda line to maintain or increase market share. As a result, the Honda Civic hybrid is a star. The Honda Accord auto is well established in a slower-growth market and controls a significant percentage of market share. Thus, the Accord is a cash cow for Honda and the revenues generated from these cars will be used to finance the marketing of the hybrid Civic, a star in the BCG growth-share matrix. See Figure 2-4 in the textbook.

**2-216 BCG BUSINESS PORTFOLIO ANALYSIS****COMPREHENSION**

In Figure 2-4 shown above, SBUs found in quadrant “A” would be called \_\_\_\_\_.

- a. cash cows
- b. question marks
- c. dogs
- d. hedgehogs
- e. stars

**Answer:** e      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** SBUs with high growth rate and high relative market share are called stars. See Figure 2-4 in the textbook.

**2-217 BCG BUSINESS PORTFOLIO ANALYSIS****COMPREHENSION**

In Figure 2-4 shown above, SBUs found in quadrant “B” would be called \_\_\_\_\_.

- a. cash cows
- b. stars
- c. question marks

- d. dogs
- e. hedgehogs

**Answer:** c      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** SBUs with high growth rate and low relative market share are called question marks. See Figure 2-4 in the textbook.

**2-218 BCG BUSINESS PORTFOLIO ANALYSIS**

**COMPREHENSION**

In Figure 2-4 shown above, SBUs found in quadrant “C” would be called \_\_\_\_\_.

- a. cash cows
- b. stars
- c. question marks
- d. dogs
- e. hedgehogs

**Answer:** d      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** SBUs with low growth rate and low relative market share are called dogs. See Figure 2-4 in the textbook.

**2-219 BCG BUSINESS PORTFOLIO ANALYSIS**

**COMPREHENSION**

In Figure 2-4 shown above, SBUs found in quadrant “D” would be called \_\_\_\_\_.

- a. cash cows
- b. stars
- c. question marks
- d. dogs
- e. hedgehogs

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** SBUs with low growth rate and high relative market share are called cash cows. See Figure 2-4 in the textbook.

**2-220 BCG BUSINESS PORTFOLIO ANALYSIS**

**COMPREHENSION**

To move an SBU from its current position on a BCG business portfolio analysis, a manager should concentrate mostly on

- a. influencing the relative market share.
- b. enhancing employee motivation to move a low valued SBU to a higher one.
- c. adding a variety of new SBUs that will force out older ones.
- d. influencing the market growth rate.
- e. simplifying its offerings by removing features.

**Answer:** a      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** Because an organization has limited influence on market growth rate, its main alternative is to try to change its relative market share. To accomplish this, management decides what role each SBU should have in the future and either injects or removes cash from it.

**2-221 BCG BUSINESS PORTFOLIO ANALYSIS**

**APPLICATION**

Because an organization has limited influence on market growth rate, its main alternative for moving an SBU on the portfolio analysis matrix is to try to change its relative market share. The most likely way for a company to turn a “question mark” into a “star” rather than a “dog” is to

- a. take cash away from it.
- b. reduce advertising for it.
- c. inject cash into it.
- d. reduce the feature set for it.
- e. decrease the market growth rate.

**Answer:** c      **Page(s):** 36-37      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Because an organization has limited influence on market growth rate, its main alternative is to try to change its relative market share. To accomplish this, management decides what role each SBU should have in the future and either injects or removes cash from it. To become a “star,” the firm will have to inject cash into it.

**Apple Personal Computer Photo**

**2-222 BCG BUSINESS PORTFOLIO ANALYSIS: APPLE**

**APPLICATION**

Consider the photo above of Apple’s personal computers (PCs), such as the MacPro, iMac, and MacBookPro. With the arrival of tablet devices, such as Apple’s iPad in 2010, global PC industry sales slowed and then declined. However, Apple’s Macs have bucked this trend, increasing its global unit market share from 10 to 12 percent. By 2016, global PC unit sales are expected to fall dramatically due to the explosion in tablet device sales. Apple’s Mac PC SBU appears to be a \_\_\_\_\_.

- a. question mark
- b. star

- c. hedgehog
- d. cash cow
- e. dog

**Answer:** e      **Page(s):** 36-38      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** In business portfolio analysis, an organization's SBUs often start as "question marks" and proceed counterclockwise to become "stars," then "cash cows," and finally "dogs." Recent trends have forced Apple's PC SBU to become a dog cow (low market share in a low-growth market).

**Apple iPod Photo**

**2-223 BCG BUSINESS PORTFOLIO ANALYSIS: APPLE**

**APPLICATION**

Consider the photo above of Apple's iPod. Apple entered the MP3 player market with its iPod device in 2001. Today, Apple sells four iPod product lines (classic, nano, shuffle, and touch). By 2014, Apple had a 70 percent share of this market. However, global MP3 music player unit sales over the past few years have fallen dramatically and are expected to decline further by 2016 as smartphones continue to replace MP3 devices. In addition, MP3 sales may be adversely impacted with the expected launch of wearable digital watches. Apple's iPod SBU appears to be a \_\_\_\_\_.

- a. question mark
- b. star
- c. hedgehog
- d. cash cow
- e. dog

**Answer:** d      **Page(s):** 36-38      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** In business portfolio analysis, an organization's SBUs often start as "question marks" and proceed counterclockwise to become "stars," then "cash cows," and finally "dogs." For

Apple, its iPod SBU is a cash cow (high market share in a low-growth market) and is likely to remain one for the near future

**Apple iPhone 5C Photo**

**2-224 BCG BUSINESS PORTFOLIO ANALYSIS: APPLE**

**APPLICATION**

Consider the photo above of Apple's iPhone 5C. Apple launched its revolutionary iPhone in 2007, the first smartphone that used a multi-touch user interface. iPhone unit sales skyrocketed. Recently, smartphone sales have slowed as the industry moves into the maturity stage of its product life cycle. But Apple's sales have remained strong. By 2017, the smartphone market is expected to grow at a compound annual rate of 13 percent due to dropping average smartphone prices. Apple's iPhone had a 15 percent share of the global smartphone market in 2013—second to Samsung, whose share was 41 percent. Apple's iPod SBU appears to be a \_\_\_\_\_.

- a. question mark/star
- b. raptor
- c. hedgehog
- d. cash cow
- e. dog

**Answer:** a      **Page(s):** 36-38      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** In business portfolio analysis, an organization's SBUs often start as "question marks" and proceed counterclockwise to become "stars," then "cash cows," and finally "dogs." For Apple, its iPhone SBU is on the question mark/star borderline (low/medium market share in a high-growth market) and may remain so for the next few years.

**Apple iPad Air Photo**

**2-225 BCG BUSINESS PORTFOLIO ANALYSIS: APPLE**

**APPLICATION**

Consider the photo above of Apple's iPad Air. In 2010, Steve Jobs once again revolutionized an industry when Apple launched the iPad. Unit sales reached an astonishing 40 percent market share by 2013—leading both Samsung's Galaxy (18 percent) and Amazon's Kindle (4 percent). Global tablet unit sales are expected to more than double by 2016 as consumers continue to switch from desktop and laptop PCs to tablet devices, with Apple still the projected market share leader. Recently, Apple introduced the 4<sup>th</sup> generation iPad (renamed the iPad Air) and upgraded its iPad mini. Currently, Apple's iPad SBU appears to be a \_\_\_\_\_.

- a. question mark
- b. star
- c. hedgehog
- d. cash cow
- e. dog

**Answer:** b      **Page(s):** 36-38      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** In business portfolio analysis, an organization's SBUs often start as "question marks" and proceed counterclockwise to become "stars," then "cash cows," and finally "dogs." For Apple, its iPad SBU is a star (high market share in a high-growth market).

**Kodak Digital Camera Photo**

**2-226 BCG BUSINESS PORTFOLIO ANALYSIS: KODAK**

**APPLICATION**

Consider the Kodak Digital Camera photo above. Despite being slow to exploit its digital camera technology, Kodak eventually did. From the early-to mid 2000s, Kodak's digital camera SBU moved successfully from a question mark to a star, becoming the market leader by 2005. At that time, the product was then considered to be a cash cow. However, with intense competition from Japanese marketers and the arrival of smartphones such as Apple's iPhone in 2007, Kodak's digital camera sales fell dramatically. In early 2013, Kodak exited the consumer digital camera business. For Kodak, this SBU became a \_\_\_\_\_.

- a. question mark
- b. star
- c. hedgehog
- d. cash cow
- e. dog

**Answer:** e      **Page(s):** 36-38      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** In business portfolio analysis, an organization's SBUs often start as "question marks" and proceed counterclockwise to become "stars," then "cash cows," and finally "dogs." Recent trends have forced the digital camera SBU to become a dog. In early 2013, Kodak signed an agreement with JK Imaging to license its Kodak brand name for its digital cameras, thereby ceasing the production and marketing of digital cameras.

**Kodak Picture Kiosk Photo**

**2-227 BCG BUSINESS PORTFOLIO ANALYSIS: KODAK**

**APPLICATION**

Consider the Kodak Picture Kiosk photo above. In the late 1990s, Kodak introduced its Kodak Picture Maker, which can make prints or CDs of pictures taken with digital cameras (and now smartphones). Now in its 3<sup>rd</sup> generation as of 2014, Kodak had over 100,000 Kodak Picture Kiosks installed worldwide in over 65,000 mass merchandisers, drugstores, and other retailers, making this SBU a cash cow for Kodak. But images are increasingly being stored and shared on Facebook, Instagram, or just the capture device. If these trends continue, this could make Kodak's Picture Kiosks SBU a potential \_\_\_\_\_, according to the BCG growth-share matrix.

- a. hedgehog
- b. star
- c. cash cow
- d. lion
- e. question mark or dog

**Answer:** e      **Page(s):** 36-38      **LO:** 2-4      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Kodak's photo kiosks allow enthusiasts to take the images from their digital camera or smartphone and then store, share, manipulate, and print these images on high quality photo paper or CD. Today, over 100,000 Kodak Picture Kiosks are located in retail outlets around the world. But images are increasingly being stored and shared on Facebook or just the capture device, making Kodak's kiosks a potential question mark or even a dog if these trends continue.

**2-228 BCG BUSINESS PORTFOLIO ANALYSIS**

**COMPREHENSION**

One of the strengths inherent in the use of the BCG business portfolio analysis is that it

- a. is based solely on company perception rather than actual data.
- b. considers all factors that might impact an SBU's value to an organization.

**2-274 SITUATION ANALYSIS**

**KNOWLEDGE**

Taking stock of where the firm or product has been recently, where it is now, and where it is headed in terms of the organization's marketing plans and the external forces and trends affecting it is referred to as \_\_\_\_\_.

- a. tactical planning
- b. market planning
- c. goal setting
- d. environmental scanning
- e. situation analysis

**Answer:** e      **Page(s):** 39      **LO:** 2-5      **AACSB:** Analytic      **QD:** Easy

**Rationale:** Key term definition—situation analysis.

**2-275 SITUATION ANALYSIS**

**KNOWLEDGE**

A situation analysis refers to

- a. taking stock of where the firm or product has been recently, where it is now, and where it is headed in terms of the organization's marketing plans and the external forces and trends affecting it.
- b. an appraisal of an organization's cash flow and financial ratios to assess its health and the potential for new investment.
- c. the process of continually acquiring information on events occurring outside the organization to identify and interpret potential trends.
- d. a technique that managers use to quantify performance measures and growth targets to analyze its clients' strategic business units (SBUs) as though they were a collection of separate investments.
- e. the process where a firm searches for growth opportunities from among current and new markets as well as current and new products.

**Answer:** a      **Page(s):** 39      **LO:** 2-5      **AACSB:** Analytic      **QD:** Easy

**Rationale:** Key term definition—situation analysis. Alternative “b” is really financial analysis. Alternative “c” is the definition of environmental scanning. Alternative “d” is the definition of business portfolio analysis. Alternative “e” is the definition of diversification analysis.

## 2-276 SITUATION ANALYSIS

## APPLICATION

A situation analysis requires a firm to consider the external forces and trends that affect it. Some of these may be favorable to the organization while others may be unfavorable. Which of the following is an example of an external force?

- a. The firm buys its own fleet of trucks, so it no longer needs to hire a trucking company for distribution.
- b. A hiring freeze is put into place. Although no one is fired, no one can be hired.
- c. A goal is set to close the gap between production costs and profits.
- d. A local government requires that all businesses within the city limits must recycle or be fined.
- e. Shareholders are rewarded with a sizeable dividend check.

**Answer:** d      **Page(s):** 39      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Alternatives “a,” “b,” “c,” and “e” are all internal factors an organization considers. Regulation from outside the organization would be an external force, part of the regulatory environmental force that is analyzed during an environmental scan (see Chapter 3).

## 2-277 SWOT ANALYSIS

## KNOWLEDGE

The acronym “SWOT” in the term “SWOT analysis” stands for \_\_\_\_\_.

- a. strengths, weaknesses, opportunities, and tactics
- b. strengths, weaknesses, options, and tactics
- c. strengths, weaknesses, opportunities, and threats
- d. simple, workable, optimal, and timely
- e. state the problem, work out a strategy, organize your team, and take action

**Answer:** c      **Page(s):** 39      **LO:** 2-5      **AACSB:** Analytic      **QD:** Easy

**Rationale:** Key term definition—SWOT analysis.

**2-278 SWOT ANALYSIS**

**COMPREHENSION**

An effective summary tool for an organization's situation analysis is referred to as (a) \_\_\_\_\_.

- a. SWOT analysis
- b. strategic management planning
- c. environmental scanning
- d. market-product grid analysis
- e. marginal analysis

**Answer: a**      **Page(s): 39**      **LO: 2-5**      **AACSB: Analytic**      **QD: Medium**  
**Rationale:** Key term definition—SWOT analysis.

**2-279 SWOT ANALYSIS**

**APPLICATION**

In the 1980s, a lapse in production quality and an increase in Japanese imports drove the Harley-Davidson motorcycle company to the brink of bankruptcy. The company's share of the U.S. super heavy-weight market segment—motorcycles with engine capacity of 850 cubic centimeters or more—collapsed from more than 40 percent in the mid 1970s to 23 percent in 1983. However, by 1989, Harley-Davidson controlled some 65 percent of this market segment. From a marketing perspective, what was the **MOST LIKELY** first step in Harley-Davidson's resurgence?

- a. developing a new mission statement
- b. repositioning its products in the minds of super heavy-weight motorcycle buyers
- c. performing a SWOT analysis to assess where the firm has been
- d. selling new models of super heavy-weight motorcycles in both the U.S. (current) and foreign (new) markets
- e. improving the quality of its products and communicating this to motorcycle buyers

**Answer: c**      **Page(s): 39-40**      **LO: 2-5**      **AACSB: Analytic**      **QD: Hard**  
**Rationale:** Prior to making changes in either product or marketing strategy, the firm would have assess where the firm has been, where it is now, and where it is headed. This enables it to ascertain its internal strengths and weaknesses and its external threats and opportunities—a SWOT analysis.

**2-280 SWOT ANALYSIS**

**APPLICATION**

Procter & Gamble (P&G) is a consumer packaged goods company where innovation is a key competitive advantage. This allows the firm to develop new products like Crest Whitestrips that consumers crave. P&G also uses its marketing expertise to develop unique product placements on television shows that highlight its brands. A SWOT analysis for P&G would indicate that the innovation that takes place within the firm is a(n) \_\_\_\_\_.

- a. strength
- b. weakness
- c. threat
- d. opportunity
- e. problem

**Answer: a**      **Page(s): 39-40**      **LO: 2-5**      **AACSB: Analytic**      **QD: Hard**

**Rationale:** In a SWOT analysis, a strength is an internal factor such as innovation and marketing expertise that can be used to improve the marketing prospects of a company, the case with P&G's strength in new product development.

**2-281 SWOT ANALYSIS**

**APPLICATION**

A recent Congressional initiative mandated that the U.S. Department of Transportation (USDOT) establish a national traffic information collection system. The marketing manager of a company that provided traffic reports for local radio stations would most likely incorporate this knowledge into its SWOT analysis as

- a. a weakness if the company has an existing working relationship with the USDOT.
- b. an opportunity if the USDOT will give this information directly to all radio stations.
- c. a weakness if the company that provides local traffic information has no employees who are technologically capable of using the USDOT system.
- d. a threat if the USDOT is creating a network of local traffic-information providers to address the mandate.
- e. part of a marketing plan; this information would not be part of a SWOT analysis.

**Answer:** c      **Page(s):** 39-40      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Potentially, this would be a great opportunity; however, if the firm does not have the human or technological resources to meet the demands, this would be a weakness. Of course, part of the purpose of SWOT analysis is to use the information to make better marketing decisions. If acted upon, this would be a great time for the firm to train a few employees to become technologically capable of using the USDOT system.

**2-282 SWOT ANALYSIS**

**COMPREHENSION**

All of the following form the foundation upon which a firm builds its marketing program during the strategic marketing process **EXCEPT**:

- a. research the organization's present and prospective customers.
- b. determine what business the organization is in.
- c. assess the organization itself.
- d. identify trends in the organization's industry.
- e. analyze the organization's competitors.

**Answer:** b      **Page(s):** 40      **LO:** 2-5      **AACSB:** Analytic      **QD:** Medium

**Rationale:** Determining what business the organization is in is done prior to engaging in the strategic marketing process.

**2-283 SWOT ANALYSIS**

**COMPREHENSION**

The goal of a SWOT analysis is to

- a. identify market research questions in order to develop new products for new market segments.
- b. determine how raises, bonuses, and dividends will be paid.
- c. reorganize the firm's marketing department.
- d. identify the critical strategy-related factors that can impact the firm.
- e. fairly allocate governmental resources and financial aid across the industry.

**Answer:** d      **Page(s):** 40      **LO:** 2-5      **AACSB:** Analytic      **QD:** Medium

**Rationale:** The ultimate goal of a SWOT analysis is to identify the critical strategy-related factors that can impact the firm and then build on vital strengths, correct glaring weaknesses, exploit significant opportunities, and avoid disaster-laden threats.

## 2-284 SWOT ANALYSIS

## COMPREHENSION

All of the following are marketing actions that can be taken as a result of a SWOT analysis **EXCEPT**:

- exploit an opportunity.
- correct a weakness.
- avoid a disaster-laden threat.
- build on a strength.
- secure the necessary resources (financial, human, technological) to fund new SBUs.

**Answer:** e      **Page(s):** 40      **LO:** 2-5      **AACSB:** Analytic      **QD:** Medium

**Rationale:** The ultimate goal of a SWOT analysis is to identify the critical strategy-related factors that impact the firm and then build on vital strengths, correct glaring weaknesses, exploit significant opportunities, and avoid disaster-laden threats. Alternative “e” is incorrect because securing resources implements the marketing strategy(ies) identified from a SWOT analysis.

## 2-285 SWOT ANALYSIS

## APPLICATION

Consider Figure 2-7 above. A Florida-based flashlight company has been extremely successful due in part to the number of hurricanes in Florida that result in power outages. The firm is thinking of expanding its product offerings to include other emergency supplies such as generators and survival kits (consisting of food bars, a water filtration system, first aid supplies,

etc.). Before going ahead with this decision, there were several factors that had to be taken into consideration: (1) The firm has a great reputation with its flashlights and does not want to ruin it. (2) Its physical plant could be refitted relatively easily to make small generators, but it would be rather costly. (3) It would have to rely on another firm to manufacture and package the survival kits. (4) Although there are nine named hurricanes anticipated for the upcoming year, no one really can predict what will happen. The company's reputation would fall in which quadrant(s) of the SWOT analysis grid?

- a. "A"
- b. "B"
- c. "C"
- d. "D"
- e. "A" and "D"

**Answer:** a      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** The firm's reputation is a favorable internal factor or strength, which is quadrant "A." See Figure 2-7 in the textbook.

## 2-286 SWOT ANALYSIS

## APPLICATION

Consider Figure 2-7 above. A Florida-based flashlight company has been extremely successful due in part to the number of hurricanes in Florida that result in power outages. The firm is thinking of expanding its product offerings to include other emergency supplies such as generators and survival kits (consisting of food bars, a water filtration system, first aid supplies, etc.). Before going ahead with this decision, there were several factors that had to be taken into consideration: (1) The firm has a great reputation with its flashlights and does not want to ruin it. (2) Its physical plant could be refitted relatively easily to make small generators, but it would be rather costly. (3) It would have to rely on another firm to manufacture and package the survival kits. (4) Although there are nine named hurricanes scheduled for the upcoming year, no one really can predict what will happen. The company's need to refit its factory would fall in which quadrant(s) of the SWOT analysis grid?

- a. "A"
- b. "B"
- c. "C"
- d. "D"
- e. "A" and "D"

**Answer:** b      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** The cost of refitting a physical plant would be an unfavorable internal factor, which is quadrant "B." See Figure 2-7 in the textbook.

## 2-287 SWOT ANALYSIS

## APPLICATION

Consider Figure 2-7 above. A Florida-based flashlight company has been extremely successful due in part to the number of hurricanes in Florida that result in power outages. The firm is thinking of expanding its product offerings to include other emergency supplies such as generators and survival kits (consisting of food bars, a water filtration system, first aid supplies, etc.). Before going ahead with this decision, there were several factors that had to be taken into consideration: (1) The firm has a great reputation with its flashlights and does not want to ruin it. (2) Its physical plant could be refitted relatively easily to make small generators, but it would be

rather costly. (3) It would have to rely on another firm to manufacture and package the survival kits. (4) Although there are nine named hurricanes forecasted for the upcoming year, no one really can predict what will happen. The projected number of hurricanes would fall in which quadrant(s) of the SWOT analysis grid?

- a. "A"
- b. "B"
- c. "C"
- d. "D"
- e. "C" and "D"

**Answer:** e      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** For the firm, the weather is beyond its control—an external factor. If the hurricanes affect the area as expected or if there are more than expected, then this would be a favorable external factor ("C"). If there are fewer hurricanes than expected, then this would be an unfavorable external factor ("D"). Therefore, either quadrants "C" (opportunity) or "D" (threat) are external factors that could impact the firm. See Figure 2-7 in the textbook.

## 2-288 SWOT ANALYSIS

## APPLICATION

Consider Figure 2-7 above. A Florida-based flashlight company has been extremely successful due in part to the number of hurricanes in Florida that result in a loss of power. The firm is thinking of expanding its product offerings to include other emergency supplies such as generators and survival kits. Before going ahead with this decision, there were several factors that had to be taken into consideration: (1) The firm has a great reputation with its flashlights and doesn't want to ruin it. (2) Its physical plant could be refitted relatively easily to make small generators, but it would be rather costly. (3) It would have to rely on another firm to manufacture and package the survival kits. (4) Although there are nine named hurricanes scheduled for the upcoming year, no one really can predict what will happen. The need to rely on another company to supply the survival kits would fall in which quadrant(s) of the SWOT analysis grid?

- a. "A"
- b. "B"
- c. "C"
- d. "D"
- e. "C" and "D"

**Answer:** d      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** The need to rely on another company to supply the survival kits potentially represents an external unfavorable factor. The flashlight firm would have to rely on an outside source supplier over which they would have limited control (deadlines, quality control, changes in materials costs, etc.) and there is a greater potential of competition from other sources that provide the materials in the kit. Therefore, quadrant "D" is the correct answer. See Figure 2-7 in the textbook.

- a. market aggregation
- b. product segmentation
- c. customer grouping
- d. market segmentation
- e. mass marketing

**Answer:** d      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Easy

**2-296 MARKET SEGMENTATION**

**COMPREHENSION**

Market segmentation is a part of what step in the strategic marketing process?

- a. situation analysis
- b. market-product focus and goal setting
- c. marketing program
- d. implementation
- e. evaluation

**Answer:** b      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Medium

**Rationale:** Determining which products will be directed toward which customers (step 2 of the planning phase in Figure 2-6, market-product focus and goal setting) is essential for developing an effective marketing program (step 3). This decision is often based on market segmentation, which involves aggregating prospective buyers into groups, or segments, that (1) have common needs and (2) will respond similarly to a marketing action.

**2-297 MARKET SEGMENTATION**

**APPLICATION**

To develop a successful marketing plan for a soft drink soda, the process of \_\_\_\_\_ would most likely be used to group consumers on the basis of whether they wanted sugar-free and caffeine-free soda, caffeine-free sugared soda, or regular soda with sugar and caffeine.

- a. market aggregation
- b. product segmentation
- c. customer grouping
- d. mass marketing
- e. market segmentation

**Answer:** e      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Market segmentation is the process of aggregating prospective buyers into groups, or segments that have common needs and will respond similarly to a marketing action, the situation with soft drink sodas.

**2-298 MARKET/PRODUCT FOCUS & GOAL SETTING**

**COMPREHENSION**

During step 2 of the strategic marketing process, firms like Medtronic engage in all of the following marketing activities **EXCEPT**:

- a. position the product

- c. develop the marketing program
- d. select target markets
- e. find points of difference

**Answer:** c      **Page(s):** 40-41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Medium

**Rationale:** Determining which products will be directed toward which customers (step 2 of the planning phase) is essential for developing an effective marketing program (step 3). The following marketing activities are performed during step 2: (1) segment the market; (2) set marketing and product goals; (3) select target markets; (4) find points of difference; and (5) position the product. So step 2 in the planning phase of the strategic marketing process—deciding which products will be directed toward which customers—is the foundation for step 3: developing the marketing program. See Figure 2-6 in the textbook.

**KNOWLEDGE**

In a marketing context, goal setting involves setting measurable \_\_\_\_\_ to be achieved.

- a. marketing metrics
- b. marketing objectives
- c. marketing tactics
- d. marketing plans
- e. protocols

**Answer:** b      **Page(s):** 41      **LO:** 2-5      **AACSB:** Analytic      **QD:** Easy

## 2-325 GANTT CHART

## APPLICATION

Which of the following tasks shown in Figure 2-10 above can be done sequentially?

- 1 and 2
- 2 and 3
- 3 and 4
- 5 and 7
- 6 and 7

**Answer:** a      **Page(s):** 44      **LO:** 2-6      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Effective scheduling requires that sequential tasks be distinguished from concurrent tasks, the latter permitting tasks to “overlap” in the schedule. The key to all scheduling techniques is to distinguish tasks that must be done sequentially from those that can be done concurrently. Only tasks 1 and 2 can be done sequentially in the list of the tasks presented. See Figure 2-10 in the textbook.

## 2-326 GANTT CHART

## APPLICATION

According to Figure 2-10 above, which student has the greatest number of assigned tasks?

- Students A and B
- The students have the same number of tasks split between them.

**Answer:** c      **Page(s):** 44      **LO:** 2-6      **AACSB:** Analytic      **QD:** Hard

**Rationale:** Student C is slated to type and copy the final questionnaire, address and stamp envelopes and then mails the questionnaires, share in writing the report, and type and submit the

final report. This is one more task than any of the other students. See Figure 2-10 in the textbook.

- e. evaluation phase

**Answer:** e      **Page(s):** 44      **LO:** 2-7      **AACSB:** Analytic      **QD:** Easy

**Rationale:** Evaluation, the third phase of the strategic marketing process, requires the marketing manager to (1) compare the results of the marketing program with the goals in the written plans to identify deviations and (2) act on these deviations—exploiting positive deviations and correcting negative ones.

**2-342 EVALUATION PHASE**

**COMPREHENSION**

The two major aspects of the evaluation phase of the strategic marketing process are

- e. executing the marketing plan and designing the marketing organization.

**Answer:** d      **Page(s):** 44-45      **LO:** 2-7      **AACSB:** Analytic      **QD:** Medium

**Rationale:** The evaluation phase of the strategic marketing process seeks to keep the marketing program moving in the direction set for it. Accomplishing this requires the marketing manager to (1) compare the results of the marketing program with the goals in the written plans to identify deviations and (2) act on these deviations—exploiting positive deviations and correcting negative ones.

**2-343 EVALUATION PHASE**

**COMPREHENSION**

The actions taken during the evaluation phase of the strategic marketing process include: (1) \_\_\_\_\_ and (2) correct negative deviations and exploit positive ones.

**Rationale:** Text term definition—planning gap.

**2-346 PLANNING GAP**

**KNOWLEDGE**

The planning gap refers to

- a. the difference between projected total costs and realized total revenues.
- b. the difference between projected total costs and net profits.
- c. the difference between marginal revenue and marginal cost.

- e. the difference between the projection of the path to reach a new goal and the projection of the path of the results of a plan already in place.

**Answer:** e      **Page(s):** 45      **LO:** 2-7      **AACSB:** Analytic      **QD:** Easy  
**Rationale:** Text term definition—planning gap.

**2-347 PLANNING GAP**

**COMPREHENSION**

After examining a planning gap, firms typically attempt to

- a. decide if the time horizon should be increased or decreased.
- b. perform a SWOT analysis with their major competitor as the principal focus.
- c. use statistical linear trend analysis to interpret the results.
- d. exploit a positive deviation or correct a negative deviation.
- e. adopt a market-product grid to analyze the sales results.

**Answer:** d      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Medium

**Rationale:** A planning gap is the difference between the projection of the path to reach a new goal and the projection of the path of the results of a plan already in place. The ultimate purpose of the firm's marketing program is to "fill in" this planning gap—to move its future sales revenue line from the plan to the more challenging target. When an evaluation shows that actual performance fails to meet expectations, managers need to take corrective actions, such as exploiting a positive deviation or correcting a negative deviation. See Figure 2-11 in the textbook.

**Rationale:** A planning gap (wedge DBC) is the difference between the projection of the path to reach a new goal and the projection of the path of the results of a plan already in place. See Figure 2-11 in the textbook.

2-349 PLANNING GAP

COMPREHENSION

Based on the information in Figure 2-11 above, the planning gap between 2005 and 2012, as represented by the wedge DBC, \_\_\_\_\_.

- a. is widening
- b. is narrowing
- c. is staying the same
- d. cannot be quantified
- e. began to open in 1998

**Answer:** a      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Medium

**Rationale:** A planning gap (wedge DBC) is the difference between the projection of the path to reach a new goal (line BD) and the projection of the path of the results of a plan already in place (line BC). This difference is widening. See Figure 2-11 in the textbook.

**2-350 PLANNING GAP****APPLICATION**

Based on the sales revenue data shown in Figure 2-11 above, as a marketing manager for Apple, you would **MOST LIKELY** conclude that

- the planning gap is narrowing.
- the actual sales results (line BE) are on track with the new plan (line BD).
- the actual sales results (lines AB and BE) are on track with the plan in place since 2005 (line BC).
- sales are increasing significantly since 2005 (line BD).
- another new plan has been needed since 2005, since the planning gap (wedge DBC) is widening each year thereafter.

**Answer:** e**Page(s):** 45-46**LO:** 2-7**AACSB:** Analytic**QD:** Hard

**Rationale:** When evaluation shows that actual performance fails to meet expectations, managers need to take corrective actions, such as devising a new marketing plan. In Apple's case, another new plan should have been developed after 2005, due in large part to the phenomenal growth in iPhone and iPad sales. See Figure 2-11 in the textbook.

**Figure 2-A****2-351 PLANNING GAP****COMPREHENSION**

The question mark (?) represented by the wedge DBC in Figure 2-A above is the \_\_\_\_\_.

- contribution margin

**Rationale:** A planning gap (wedge DBC) is the difference between the projection of the path to reach a new goal and the projection of the path of the results of a plan already in place.

**2-352 PLANNING GAP**

**COMPREHENSION**

Based on the information in Figure 2-A above, the planning gap between 2003 and 2012, as represented by the wedge DBC, \_\_\_\_\_.

- a. is widening
- b. is narrowing
- c. is staying the same

**Answer:** a      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Medium

**Rationale:** A planning gap (wedge DBC) is the difference between the projection of the path to reach a new goal (line BD) and the projection of the path of the results of a plan already in place (line BC). This difference is widening.

**2-353 PLANNING GAP**

**APPLICATION**

Based on the sales revenue data shown in Figure 2-A above, as a marketing manager for Kodak, you would **MOST LIKELY** conclude that

- a. the planning gap is narrowing.
- b. the actual sales results (line BE) are on track with the new plan (line BD).
- c. the actual sales results (lines AB and BE) are on track with the plan in place since 2003 (line BC).
- d. sales are increasing significantly since 2003 (line BD).
- e. another new plan has been needed since 2003, since the planning gap (wedge DBC) is widening each year thereafter.

**Answer:** e      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Hard

**Rationale:** When evaluation shows that actual performance fails to meet expectations, managers need to take corrective actions, such as devising a new marketing plan. In Kodak's case, another new plan should have been developed after 2003, especially since the economic downturn and the precipitous loss of film sales.

**2-354 PLANNING GAP**

**APPLICATION**

Evergreen Air Center is the world's largest parking lot for unwanted commercial aircraft. Airlines pay from \$750 to \$5,000 monthly for the storage services provided by Evergreen. Prior to September 2001, the company had 140 discarded airplanes at its Arizona facilities and was growing at a rate of about six planes monthly with about two per month sold for parts and/or scrap metal. After calamity struck the airline industry in September 2001, the airlines retired over 1,000 planes, many of which have found their way to Evergreen. Now the actual number of planes stored at Evergreen differs significantly from the prediction based on previous behavior in effect before September 2001. This difference is referred to as the \_\_\_\_\_.

- a. contribution margin
- b. planning gap

- c. marginal trend
- d. breakeven point
- e. sales differential

**Answer:** b      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Hard

**Rationale:** A planning gap is the difference between the projection of the path to reach a new goal and the projection of the path of the results of a plan already in place, the situation here. See Figure 2-11 in the textbook.

**2-355 EVALUATION PHASE**

**COMPREHENSION**

The marketing manager looks for two kinds of deviations, each triggering a different kind of action: (1) actual results fall short of goals and (2) \_\_\_\_\_.

- a. deviations that result from major shifts in customer needs
- b. actual results exceed goals
- c. there are no deviations but there should be
- d. deviations that result from executive mandates
- e. deviations that are blamed on insufficient marketing support (personnel or funding)

**Answer:** b      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Medium

**Rationale:** The marketing manager is looking for two kinds of deviations, each triggering a different kind of action: (1) actual results fall short of goals and (2) actual results exceed goals.

**2-356 EVALUATION PHASE**

**APPLICATION**

Amy Smith has just completed measuring the results of her firm's product performance. Her next step will be to

- a. do a profitability analysis.
- b. take necessary corrective actions.
- c. bring these to the marketing auditor.
- d. proceed regardless of deviations from original plans.
- e. compare the results against the goals specified in the marketing plan.

**Answer:** e      **Page(s):** 45-46      **LO:** 2-7      **AACSB:** Analytic      **QD:** Hard

**Rationale:** The essence of evaluation, the final phase of the strategic marketing process, is to compare results with planned goals for the marketing program in order to take necessary corrective actions.

**KNOWLEDGE**

IBM's business strategy to help its clients be more efficient, productive, and responsive to the data generated from the revolution in the global marketplace concerning the instrumentation and integration of the world's processes and infrastructures is referred to as

- a. "The IBM Way."
- b. "Smarter Planet."
- c. "Reinvent Business."
- d. "The 2015 Road Map."
- e. "Big Blue."

**Answer:** b      **Page(s):** 48      **LO:** 2-1      **AACSB:** Analytic      **QD:** Easy

**Rationale:** IBM's business strategy to help its clients be more efficient, productive, and responsive is known as "Smarter Planet."

**2-358 VIDEO CASE 2: IBM**

**COMPREHENSION**

All of the following were strategic opportunities identified in IBM's 2015 Road Map **EXCEPT**:

- a. the connected, "Smarter Planet."
- b. cloud and smarter computing.
- c. a shift from software and services to PCs and hard disk drives.
- d. business analytics and optimization.
- e. growth markets such as China, India, Brazil, and Africa.

**Answer:** c      **Page(s):** 48-49      **LO:** 2-4      **AACSB:** Analytic      **QD:** Medium

**Rationale:** IBM's 2015 Road Map describes four strategic opportunities: (1) growth markets such as China, India, Brazil, and Africa, (2) business analytics and optimization, (3) cloud and smarter computing, and (4) the connected, "smarter planet." Recently, IBM began to shift from commodity-based businesses such as PCs and hard disk drives, to "customizable" businesses such as software and services, not the other way around.

**2-359 VIDEO CASE 2: IBM**

**COMPREHENSION**

The marketing plan for IBM's "Smarter Planet" strategy included which of the following marketing tactics?

- a. handing out "Smarter Planet" t-shirts on selected college campuses through the world
- b. providing samples of new hard drives for NYC businesses
- c. sponsoring the US swim team for the 2012 Summer Olympics
- d. including a strong message in an annual report from IBM's Chairman of the Board and CEO
- e. garnering a celebrity endorsement from Jon Stewart, host of the Daily Show

**Answer:** d      **Page(s):** 48-49      **LO:** 2-5      **AACSB:** Analytic      **QD:** Medium

**Rationale:** The marketing tactics IBM used to communicate its "Smarter Planet" strategy included messaging from the CEO, Sam Palmisano. His message was a powerful statement. Smarter Planet, according to Palmisano, "is not a metaphor. It describes the infusion of intelligence into the way the world actually works."

**2-360 VIDEO CASE 2: IBM**

**COMPREHENSION**

Implementation of IBM's "Smarter Planet" strategy has resulted in all of the following **EXCEPT**:

- a. a reduction in supply chain costs for retailers.
- b. a reduction in traffic delays through coordinated signals.
- c. a reduction in power usage for consumers using smart meters.
- d. a reduction in inventory levels, as well as increased sales, for retailers.
- e. a reduction in wasted coverage for advertising messages to increase its efficiency.

**Answer:** e      **Page(s):** 48-49      **LO:** 2-6      **AACSB:** Analytic      **QD:** Medium

**Rationale:** IBM's "Smarter Planet" strategy was not applied to the problem of advertising efficiency, also known as wasted coverage.

#### SHORT ESSAY QUESTIONS

#### 2-361 LEVELS IN ORGANIZATIONS

#### COMPREHENSION

Describe the three levels in an organization.

**Answer:**

The three levels are: (1) the corporate level, where the top management directs overall strategy for the entire organization; (2) the strategic business unit level, where business unit managers set a more specific direction for their businesses to exploit value-creating opportunities; and (3) the functional level, where groups of specialists actually create value for the organization. #### 2-362 LEVELS IN ORGANIZATIONS

#### COMPREHENSION

Using Figure 2-1 above, identify and briefly describe the five levels in a hierarchical organizational structure, including the three that are strategic in nature.

**Answer:**

The five levels (three of which are strategic) of structure typically found in large organizations are: (1) “A” identifies the Board of directors, which oversees the three levels of strategy in organizations (corporate, business unit, and functional). (2) “B” identifies the corporate level, where the top management directs overall strategy for the entire organization. (3) “C” identifies the strategic business unit level, where managers set a more specific direction for their SBUs (a

subsidiary, division, or unit of an organization that markets a set of related offerings to a clearly defined group of customers) to exploit value-creating opportunities. (4) “D” identifies the functional level, where groups of specialists actually create value for the organization. (5) “E” identifies the departments, which are the specialized functions such as information systems, finance, research and development, marketing, manufacturing and human resources that implement the corporate strategies developed by the organization.

## **2-363 STRATEGIC BUSINESS UNIT**

## **APPLICATION**

Apple, a multimarket, multiproduct firm, manufactures and markets iMacs, iPods, iPhones, and iPads as a portfolio of businesses. At what organizational level does Apple set the strategic direction for these businesses to create customer value?

### **Answer:**

The iMacs, iPods, iPhones, and iPads, which in effect comprise a portfolio of businesses, operate as a strategic business unit (SBU) of Apple. At the strategic business unit level, Apple marketing managers set the strategic direction for these products to clearly defined groups of customers.

## **2-364 CROSS-FUNCTIONAL TEAMS**

## **COMPREHENSION**

What is a cross-functional team and how is it used?

### **Answer:**

When developing marketing programs for new offerings or for improving existing ones, an organization’s senior management may form cross-functional teams. These consist of a small number of people from different departments who are mutually accountable to accomplish a task or a common set of performance goals. Sometimes these teams will have representatives from outside the organization, such as suppliers or customers, to assist them.

## **2-365 STRATEGY IN VISIONARY ORGANIZATIONS**

## **COMPREHENSION**

Explain what a visionary organization is and the three questions (“why,” “what,” and “how”) that need to be answered that formulate its strategies.

### **Answer:**

Management experts stress that to be successful, today’s organizations must be visionary—anticipating future events and responding to them quickly and effectively. This requires a visionary organization to specify its foundation (why), set a direction (what), and formulate strategies (how). An organization’s foundation is its philosophical reason for being—why it exists. So, its senior managers must identify its core values and describe its mission and organizational culture—its purpose for being. Next, these managers can set the direction for the organization by defining its business and specifying its long-term and short-term goals. Finally,

the firm uses the previous two pieces to formulate its strategies, which vary in at least two ways, partly depending on the level in the organization and the offerings it provides customers. See Figure 2-2.

**2-366 STRATEGY IN VISIONARY ORGANIZATIONS****COMPREHENSION**

According to Figure 2-2 above, what are the three elements that today's visionary organization must do to be forward looking and successful within its marketing environment?

**Answer:**

Management experts stress that to be successful, today's organizations must be visionary—they must anticipate future events and then respond quickly and effectively. This requires a visionary organization to: (1) specify its foundation "A" (why does it exist); (2) set a direction "B" (what will it do); and (3) formulate strategies "C" (how will it do it).

**Answer:**

By understanding its core values, an organization can take steps to define its mission, which is a statement of the organization's function in society, often identifying its customers, markets, products, and technologies. **Answer:**

Medtronic's mission statement reads: "To contribute to human welfare by application of biomedical engineering in the research, design, manufacture, and sale of instruments or appliances that alleviate pain, restore health, and extend life." A good mission statement should be clear, concise, meaningful, inspirational, and long-term. It also needs to be challenging and provide a compelling picture of an envisioned future. Mission statements for a community college could vary greatly. For example, one mission could be "to create an environment where all local citizens have access to enhanced educational experiences" or "prepare students to competitively enter other institutions of higher

**2-373 BUSINESS**

**COMPREHENSION**

The railroad photo above shows a train hauling cargo. What “business” did rail executives believe they were in during mid-20<sup>th</sup> century? What business is a railroad firm really in? Why?

**Answer:**

In his famous “Marketing Myopia” article, Theodore Levitt argues that senior managers of 20<sup>th</sup> century American railroads defined their businesses too narrowly by proclaiming, “We are in the railroad business!” This myopic view caused these managers to lose sight of who their customers were and what they needed. Thus, railroad managers only saw other railroads as their direct competitors and failed to develop strategies to compete with airlines, barges, pipelines, and trucks—firms whose offerings carry both goods and people. As a result, many railroads either were forced to merge with other railroads (or other firms) or went bankrupt. Railroads would have fared better if they had realized they were in “the transportation business.”

**2-374 GOALS OR OBJECTIVES**

**COMPREHENSION**

Name and briefly describe the seven types of organizational goals or objectives.

**Answer:**

The seven types of organizational goals or objectives are: (1) Profit. Economic theory assumes a firm seeks to maximize long-run profit. (2) Sales (dollars or units). A firm may elect to maintain or increase its sales level, even though profitability may not be maximized. (3) Market Share. A firm may choose to maintain or increase its market share—sometimes at the expense of greater profits. (4) Quality. A firm may target the highest quality. (5) Customer Satisfaction. Customers are the reason the organization exists, so their perceptions and actions are of vital importance. (6) Employee Welfare. An organization may recognize the critical importance of its employees by having an explicit goal stating its commitment to good employment opportunities

and working conditions for them. (7) Social Responsibility. A firm may seek to balance the conflicting goals of consumers, employees, and stockholders to promote overall welfare of all these groups, even at the expense of profits.

**2-375 MARKET SHARE**

**APPLICATION**

The logistics industry has sales of \$800 billion per year. If a third party logistics provider had sales of \$8 billion, what would its market share be? Be sure to define market share and show your work in your answer.

**Answer:**

Market share is the ration of sales revenue of the firm to the total sales revenue of all firms in the industry, including the firm itself. In this case, the sales of the firm itself (\$8 billion) divided by the sales revenue of all firms in the industry—including the firm itself—(\$800 billion) means that the third party logistics provider in question has a 1% market share ( $\$8 \text{ billion} \div \$800 \text{ billion} = 1 \text{ percent}$ ).

**2-378 BCG GROWTH-SHARE MATRIX**

**COMPREHENSION**

The Boston Consulting Group's business portfolio analysis model can be used to analyze a firm's strategic business units. How is it used and what can it tell you?

**Answer:**

The BCG business portfolio analysis requires an organization to locate the position of each of its SBUs on a growth-share matrix (see Figure 2-4). The vertical axis is the market growth rate, which is the annual rate of growth of the SBU's industry. The horizontal axis is the relative market share, defined as the sales of the SBU divided by the sales of the largest firm in the industry. The purpose of the tool is to determine the appeal of each SBU or offering and then determine the amount of cash each should receive.

**2-379 BCG GROWTH-SHARE MATRIX**

**COMPREHENSION**

One of the most recognized approaches to business portfolio analysis is the Boston Consulting Group's growth-share matrix. Describe this tool and the four quadrants of the matrix.

**Answer:**

The BCG business portfolio analysis requires an organization to locate the position of each of its SBUs on a growth-share matrix. The vertical axis is the market growth rate, which is the annual rate of growth of the SBU's industry. The horizontal axis is the relative market share, defined as the sales of the SBU divided by the sales of the largest firm in the industry. The BCG has given specific names and descriptions to the four quadrants in its growth-share matrix. They are as follows: (1) Cash Cows—(lower left quadrant) have a dominant share of a slow-growth market; they typically generate large amounts of cash to invest in other SBUs. (2) Stars—(upper left quadrant) have a high share of high-growth markets; they may not generate enough cash to support their own needs to support future growth. (3) Question Marks—(upper right quadrant) are SBUs with a low share of high-growth markets; they require large amounts of money just to maintain their market share. (4) Dogs—(lower right quadrant) have a low share of slow-growth markets; although they may generate enough cash to sustain themselves, they hold little promise of becoming winners for the firm. See Figure 2-4 in the textbook.

**Answer:**

The planning phase of the strategic marketing process includes three steps. Step 1 is the situation (SWOT) analysis. During the SWOT analysis, a company will identify industry trends, analyze competitors, assess own company, and research customers. Step 2 is market-product focus and goal setting. During Step 2, the company will set market and product goals, select target markets, find points of difference, and position the product. Step 3 is the marketing program. (2) The implementation phase involves: (a) obtaining resources; (b) designing the marketing organization; (c) defining precise tasks, responsibilities, and deadlines; and (d) executing the marketing program. (3) The evaluation phase involves: (a) comparing the results of the marketing program plans to the results achieved to identify deviations and (b) exploiting positive deviations or correcting negative ones. **2-383 STRATEGIC MARKETING PROCESS****COMPREHENSION**

Using Figure 2-6 above, identify and describe the three steps (“A,” “B,” and “C”) of the planning phase of the strategic marketing process.

**Answer:**

“A”: Situation (SWOT) analysis—is an organization’s appraisal of its internal strengths and weaknesses and its external opportunities and threats. “B”: Market-product focus and goal setting—determines which products will be directed toward which customers. This decision is often based on market segmentation, which involves aggregating prospective buyers into groups, or segments, that (1) have common needs and (2) will respond similarly to a marketing action. This enables an organization to identify the segments on which it will focus its efforts—its target

market segments—and develop specific marketing programs to reach them. “C”: Marketing program—involves developing the program’s marketing mix (the 4 Ps) and its budget.

**Answer:**

A SWOT analysis is an acronym that describes an organization’s appraisal of its internal **S**trengths and **W**eaknesses and its external **O**pportunities and **T**hreats. The four critical factors in a SWOT analysis and examples for Ben & Jerry’s are: (1) internal strengths, such as its (a) prestigious, well-known brand name among U.S. consumers that complements Unilever’s existing ice cream brands and (b) widely recognized social mission, values, and actions; (2) internal weaknesses, which include (a) Ben & Jerry’s social responsibility actions that could reduce focus and (b) the need for experienced managers to help growth, modest sales and profits in recent years; (3) external opportunities, such as (a) the growing demand for quality ice cream in overseas markets, (b) the increasing U.S. demand for Greek-style yogurt, and (c) the many U.S. firms successfully use product and brand extensions; and (4) external threats, such as (a) consumer concern with sugary and fatty desserts, (b) competition with General Mills’ and Nestlé’s brands, and (c) increasing competition in international markets. See Figure 2-7 in the textbook.

**2-385 MARKET SEGMENTATION**

**APPLICATION**

A campus service organization annually raises money through the sale of T-shirts. How could it use market segmentation to increase sales of the shirts? Be sure to include a definition of market segmentation in your answer.

**Answer:**

Market segmentation involves aggregating prospective buyers into groups, or segments that (1) have common needs and (2) will respond similarly to a marketing action. Students’ examples will vary. The service organization may decide to sell T-shirts to two segments: current students and local residents. A separate marketing plan should be developed for each segment since they are not necessarily identical. For example, while the price and product may be the same, the place the T-shirts are sold to students would be the campus bookstore, while local residents may buy the T-shirts in a local clothing store at a strip mall. The promotion for the shirts aimed at students may be flyers posted in the dorms and ads in the college newspaper. The promotion aimed at local residents may be an ad in the local community newspaper and flyers posted in the local grocery store.

**2-389 GANTT CHART**

**COMPREHENSION**

Explain what a Gantt chart is and how it is used.

**Answer:**

A Gantt chart is a graphical representation of a program schedule. Developed by Henry L. Gantt, this method is the basis for the scheduling techniques used today, including elaborate computerized methods. The key to all scheduling techniques is to distinguish tasks that must be done sequentially from those that can be done concurrently. Scheduling tasks concurrently often reduces the total time required for a project. See Figure 2-10 in the textbook.

**2-390 MARKETING STRATEGY/MARKETING TACTIC**

**COMPREHENSION**

What is the difference between a marketing strategy and a marketing tactic?

**Answer:**

A marketing strategy is the means by which a marketing goal is to be achieved, usually characterized by a specified target market and a marketing program to reach it, which implies both the end sought (target market) and the means to achieve it (marketing program). Marketing tactics, on the other hand, are detailed day-to-day operational decisions essential to the overall success of marketing strategies, such as writing advertising copy or selecting the amount for temporary price reductions.

**2-391 EVALUATION PHASE**

**COMPREHENSION**

Explain the steps in the evaluation phase of the strategic marketing process.

**Answer:**

The evaluation phase of the strategic marketing process ties results and actions to goals. Marketing dashboards and marketing metrics are often used to compare goals and results and identify deviations. The causes of the deviations are then quantified and new plans and actions are formulated to exploit opportunities and correct problems. This information is fed back into the process to revise the goals and the marketing plan.

**2-392 EVALUATION PHASE**

**COMPREHENSION**

What is the purpose of the evaluation phase of the strategic marketing process? How is it accomplished?

**Answer:**

The evaluation phase of the strategic marketing process seeks to keep the marketing program moving in the direction set for it. Accomplishing this requires the marketing manager to compare the results of the marketing program with goals in the written plans to identify deviations and then to act on these deviations—exploiting positive deviations and correcting negative ones.

**2-393 PLANNING GAP**

**COMPREHENSION**

Explain what a planning gap is and what is used to close it.

**Answer:**

A planning gap is the difference between the projection of the path to reach a new goal and the projection of the path of the results of a plan already in place. The ultimate purpose of the firm's marketing program is to "fill in" this planning gap. When evaluation shows actual performance failing to meet expectations, managers need to take corrective actions, which consist of exploiting positive deviations or correcting negative ones.
